Hi Homer & Miyuki!

Is this a wedding anniversary? Don't have my calendar but instead am sitting @ an eatery with a big poster of a dish of ice cream, topped with azuki and kanten - and thought of you. Wish I could send you this treat. Hank & Seiko Wahabayashi left p 3 who's visiting their daughter Lynne. She has been hospitalized since Jan ē breast Ca which has metastasized to back, neck, hips, etc. She had been checked (?) by a "doctor" who's scientific tests proclaimed her problems were benign - until she collapsed. After Radiation Rx she has done amazingly well so now she plans no further Rx except herbal teas & non-pesticide foods. Talked to Sachiko who has had difficulty ē osteo-her g'daughter attends Okayama U so lives ē Sachiko & Tadao - she can ride her bike to school. Midori, too, is ailing with arthritis - her son is temporarily stationed in Nagano, writing the city for Olympics. Will see Masahide & Mieko this week. Toshio & I will take trip to Aomori. Hope all is well ē you - I'll be coming out for Dai-Janine wedding. Keep well. Love, Toshio Yuki
