July 12, 1995.

Dear Homer and Miyuki:

Hi! I trust that this brief note finds you enjoying good health and fine spirits. The Rainy Season (Tsuyu or Niyubai) is almost over and it is hot and humid in Tokyo.

I am working as a part-time pathologist at two hospitals; Aiji General Hospital (280 beds) and SHO Hospital (80 beds) for 5 days a week. SHO Hospital is very busy with 500 or more deliveries/year and I have an opportunity to study the placentas besides routine pathology work. I am still struggling with my paper writing — Kidzigai-desu

The Japanese edition of "Stubborn Twig" was published on June 18 by the SHOGAKU-KAN and was entitled "FUKUTSU-NO-KOEDA". (Stubborn Twig)

It consists of two volumes (Vol I, 237 pages, Vol II 254 pages, ¥1600 each). Asahi newspaper co. (the largest one in Japan) is interested in the book and may send a staff to the reunion in Portland. They would like to have an interview with you and YASUI family. I will let you know later by phone.
