

Dear Frank,

4/7/98

If I haven't said it already, I'll say it again; it was simply terrific to be with you again. And I could see the unbelievable amount of creativity and hard work you had put into that special Day of Remembrance and in making it all work. It was absolutely marvelous, and many people have said so.

I have writer's cramp now from all the letters I'm still writing. When it comes to thanking "Mr. DeMille" (I'll never understand why you were to remain "Deep Throat"!) of the event, I am at an utter loss for words. I just know that it couldn't have happened, had you not produced and orchestrated it. Of course, Paul was superb at fund raising and in attending to all those mountains of letters and doing the press releases. Brian, too, was a real wonder and totally dedicated.

It suddenly occurred to me that I had promised to send you newsclips since you don't get the vernaculars. I take only the Rapr, PC and Toggi. Rapr has been extremely supportive. I depend on people who may take the trouble to send me stuff from other papers.

I've also included odds 'n ends of mutual interest — much too much for you to take in at one sitting, I'm sure.

I know you're busy putting together the video. I never get a chance to look at the logs. Should I thank the participants? Love, love, Michi
