

(Written in Toyota en route from N. Hampshire to NY.)

July 6, 1987

Dear Frank,

Hi love, it was great hearing your voice again, hearing you sounding upbeat! It must be fatherhood. You sound fulfilled. Also and Jack once told his that Dana and Sam Chew are the best things that's happened to you.

You have a growing number of people who respect your gutsiness in attacking "Godfather" Moses and his Cabal. James O'Connell owes his extrication from a paralytic status entirely to you. And he keeps me informed of on-going OAC power plays. He is with you 100% and credits you with getting the Resisters to shake up their fear and timidity. We have only endless admiration for your patience and tenacity in getting these guys to open up.

Hope it's OK, but I'm sending only a copy of "Moses". Since it states <sup>in</sup> that that's verbatim, so don't ~~please~~ say a word to anyone, you'll get me in trouble otherwise. I decided on this procedure, as there's always the possibility that Cady could ask for the return of the broad galley.

I think you'll agree with William H. (who has no interest in reading the galley) that "it's just a pile of s---".

I really can't begin to thank you for your heroic efforts on my behalf\* despite - and in face of - my strong protests. I tried to entreat the Herzogs to kill your plans, but they were no help. So Walter and I finally decided that it is only decent that we cooperate. I'll start working on furnished underwear, vests and the like. Do I have a choice as to the subjects matter of my talks, should some be required? I dislike speechmaking unless it's something in which I'm passionately concerned or involved.

Those who want an oral-history will be disappointed. My memory and recollections are too flawed. Go weekly yet for treatments.

Walter joins <sup>me</sup> in sending fondest regards. He just got a 'made-for-an-idiot' type Japanese camera, so we'll send you samples as a reminder that you owe us some updated ones, <sup>also</sup> one of your home or apartment house. Enclose <sup>complete</sup> D.S. photos.

Have a great summer. And have fun with "Moses".  
Hugs to Sam Chew and Dana.

Michie

P.S. Enclosed find citation. William asked me to write it for the Rumney Committee
