Livingston, California.  
March 14, 1942.

Mr. Jack Noda, President,  
Stanislaus-Merced J.A.C.L.  
Rt. 1 Box 210,  
Denair, California.

Dear Jack:

The writer wishes to thank you for the opportunity of attending your recent inaugural meeting of the Stanislaus-Merced JACL and to listen to all the helpful information regarding our mutual problems which your delegation had received at the recent conference. Despite the fact that we are technically affiliated with the Fresno group, we are at all times remindful that our problems are mutual, that geographic closeness makes us more acutely aware of the need for cooperation and mutual exchange of information and we pledge to your group our wholehearted cooperation in all matters affecting our social welfare. May we be knit together in a fraternal feeling of fellowship and the realization that we are all in the same boat and it's a matter of "All for one and one for all".

Best wishes to you and your chapter, I know that under your leadership, the chapter will prove itself. Please know that we stand ready to cooperate with your group at all times. With very best personal regards, I am,

Sincerely yours,
