

Neeris Problems Today

"What would become of us?" "What is in our future?" "What is in store for us?" "Who would this this time?" Questions after questions, wondering and lingering in our minds, questions asked to the people who are paid to have magic, asked to the superstitious mind, asked even, to the Lord above. But where and who knows these endless questions? Rumors! rumors! nothing but rumors are all we get. I heard this, I heard that. She said this, he said that. Nobody knowing the real answers, but hating to admit it, so starts a rumor. But does that solve our problems? Definitely No!

There are said to be, "the people without a country." That, I think, is all a matter of personal opinion. Our opinion, as well as the Caucasians and the Jews. I too, have formed my personal opinion, but it is, but, a prediction. Our problems today, can only be solved by you!! Form your own plans, and if there is a will, there always is a way. What do you think? Our problems are great, I know, but aren't all problems seem greater than what they really are? I know we can do it, so lets have a will, and we'll have it solved.
