

Dear Sue

Suppose by this time  
you've seen Cheney. I  
surely do miss her around  
here. I received a very  
good + long letter from  
her a couple of weeks ago  
that was almost as good  
as a visit.

Have been jobless since  
the 5<sup>th</sup> of July but am  
now the dubious possessor  
of what are supposed to  
be good readers. I report  
to Carlisle Bks for Information  
School on the 12<sup>th</sup> & then  
supposed to go overseas.

of heavenly relief that we could come back here to the Cool House & breeze. It was terrific in there. At least we been getting a good sun tan and very almost disgustingly healthy.

The girls are beginning to get used to Ft Dix and a few were lucky enough to get jobs similar to the ones they held here. However the supply Sgt is now an MP and she is not too happy tho I have no doubt she will be excellent at the job.

Having been raked on several occasions in the past, I'm afraid they give me no cause for optimism.

The post is a very weird place these days. There are just 27 officers & one E. M. left, of whom 2 of us are Wacs. Mass. State & Harvard are taking the place over by degrees for housing & a S. I (vets) University. All most peculiar. Mother is here with me so I keep from going completely nuts.

Monday we went to Boston and did some shopping but it was with a feeling

I do hope Darcy got a good assignment. She was much too capable to be pushed around in some slum job.

Have been relaxing so much I'm now heartily tired of it. Retrogressed to the extent of riding the roller-coaster at the local amusement park. Even won some ashtrays and a toy in the weight & age guessing dept.

All for now

My best to you

Kay Hale
