

WM. BEAUMONT GENERAL HOSPITAL  
EL PASO, TEXAS

29 MAR 46

Hi "Dimples":

Thanks for the very interesting letter which I received today. It sure is nice to hear from you.

Well, I'm all fixed up now Sue and am just waiting for my orders to go for operation at Cy Mcloy, Wis. They told me it would take four or five days; any way I figured to be a free man sometime the first week in April.

Couple of weeks ago I had my tonsils taken out and boy, what life did I lead for a week. I lost 15 lbs. in a single week, couldn't eat, drink a thing for 4 days. Even now, when I eat it feels like some of the things that go down the throat get caught half the way down. I don't know how Klingman lived thru hers.

Yes, I've heard that Ike got married to a girl from California, he sure surprised me. I had to hear that he made Sgt., he sure makes it the hard way - he should of had that long time ago. You know Paul made his Sgt in February and he surprised me to.

Good! so the "kids" are actually getting their walking papers now; I bet they are just as anxious as us GI's.

I haven't heard a thing from the boys who got discharged from the personnel office as yet; so when I get back there, I'm sure going to start the ball a rolling, and find out what's cooking with each.

Glad to hear you had a grand time at New York City. I agree with you about New York City and I like it a lot better than Chicago any day.

P.S. Tell 'em say "Hello" to Betty for me.

As ever,

Langsate
