

4 June 1945

Dear Pummy,

We are at our summer cottage and it would be just wonderful if the old gang was here to enjoy it.

Non is out here for the evening and we had a lovely steak supper and all the fixings, which can well account for the meal. Our neighbours are also from the mess personal, so we shouldn't have any difficulty in getting food. Lucille Meredith plans to come up for her furlough in July. We sure are looking forward for her coming. It would be asking too much for you to

Call on us. Wouldn't it ^{be} funny?
I plan to go home on a
three day pass for Beva's
graduation.

We have about 30 girls who
are getting discharge for one
reason or another. I'll mention
a few Kippie, Sloan, Monty, Harlan,
Higgins, Pat Royer, Becky Greene,
also Clara Keithley.

It was sweet of you to send
me that perfume. But really
you shouldn't have bothered!

I haven't seen Lattie Mary
since her discharge. But we
had a long talk before she
left and I was led to believe
that she wasn't very happy
in her married life. I'm
anxious to see how she'll

make out.

How are you coming in your "love life"? as if I should ask! Pete has named his tank after me and he claims I doing quite a job in the front lines in Germany.

We have so many new girls in the company that they are putting in double bunks. You can imagine how the older girls enjoy this!

So-long now Peggy, Hoodie wants to take her evening walk before bed.

Thanks once more for the perfume.

Love,
May
