

Dear Sue:

altho my int. int. ones were of the best, Tempus certainly has fugit since I told you I'd write. I'd suggested that I take my pen in hand & add a few words to his letter.

The work here just doesn't ever decrease & tho it's still as exciting as ever it gets pretty wearing at times.

We've had a tough winter which is quite a statement from a New Englander. Snow & still more snow. It's practically all gone now & spring is definitely in the air.

Everyone here was glad to hear from you & hopes you'll write again soon.

You probably know that Alice Summings Nohet is out on Maternity Leave & expects her baby next month. As you know I'm allergic to change in personnel in this office & miss her very much. We have a new analyst, a Mrs. Helen McCarthy. She formerly worked for Miss Duval, Civil Service Representative on the Post.

I hope you get back this way some day soon so we can get a look at you

Love,
Nette
