

Quarters 122-D.  
Ft Stevens, Mass.

Dear Sue -

Maybe by this time the letter I sent you at Ritchie, last week, has caught up to you, and you already have a reply in the mail. However, in case it miscarried, I'll repeat my questions.

Stevens is closing 30 June, as you probably know, & to keep from being sent to Sic to work in the Sep. Ctr. there, I'm going to ask for a trip at the end of my duty here.

I'd love to know something about where you live & what you think of the setup there.

Naturally, I'd like to know if there would be a chance of my getting non-com's yrs, as I have here, and what sort of job chances there are.

Its possible that Larry will be taking one of our officers down to her home just below Philly, before long, & if so, I'm going to try hard to go along.

He wants to see about job prospects in his line in Washington, & I'd like very much to look into the WAC situation.

I'm presuming that you're living at Fort Meyer. Anyway — what is

your C. O.'s name & where could I find her if I blew in there? If I only knew some officer to write to there! Maybe I'll take a chance & go right to the WAC Director's office & ask to talk to some junior officer.

Got any advice for me?

Capt Riale got your present address from Bernie Mc Grath, who came in as a civilian visitor yesterday. I wasn't there, since it was Sunday.

Major Stearns is a civilian, by now, I guess, as she went to Sep. Ctr. last week.

You wouldn't know many people here now and the company is shrinking like mad, by discharges & transfers. This is #2 company death for me!

If I do come down to look things over, I'll try & see you. If I don't have time, I'll surely do so in case I'm transferred there.

Being sure the other letter will catch up to you, I won't try to include any more news this time.

Thanks in advance for your trouble in sending me the dope.

Love,  
Cheney
