

Quarters 122-D
Ft Stevens, Mass.
9 May 1946

Dear Sue:

It was swell of you to reply to my frantic inquiries so promptly, and with such a very interesting letter, too.

Many thanks.

I've written my request for transfer, but have not turned it in as yet. am trying to gather the courage, for I've asked for everything but the moon: transfer, quarters and authorization for travel by private automobile. They will wonder who I think I am, anyhow.

It is still uncertain whether I shall have an opportunity to visit your fair city as we still don't know if or when Larry will be taking Lt Pyle and her dogs & luggage. Capt Diale says its o.k. with her, but if her orders don't come soon, it will be time to leave for everyone.

Your living conditions sound pretty nice and don't become discouraged about your office mess. They always straighten out eventually.

If I do manage to get there, I'll contact you

and perhaps we can have dinner together or something.

at any rate, I'll try for the transfer and see what happens. Whatever does, I'll let you know.

Be a good girl & keep your fingers crossed for me. I know it will be inconvenient, but somebody has to root for me.

Thanks again,

Sincerely,

Cheney
