

## **Boston**

**BOSTON** HAS GAINED an international reputation as a center of learning because of institutions such as Harvard and Massachusetts Institute of Technology. Since these schools have students from all over the world, visiting diplomats often can talk with young countrymen who are sharing in the benefits of this nation's superb educational facilities.

Boston also is identified with our rise from Colonial status. The Boston Tea Party, for example, was one of the most dramatic acts of revolutionary protest in modern history. A tour of the city's historical places demonstrates our link to the aspirations of emerging nations.

Many diplomats have also heard of Massachusetts General Hospital, one of the world's finest. Massachusetts General is seen by many new countries as a model for improving their own medical facilities.
