

WALT SHEDD, Proprietor

1021 Eighth Avenue  
GREELEY, COLORADO

April 7, 1944.

Dear Sue:

Did you ever get my letter that I wrote so long ago? It was just before you moved. Anyway we received the lovely box of candy and it didn't last very long around here also the picture, it sure is good of you and thanks a million for everything. I surely do appreciate everything.

How's the school and the training?????? I expect you to say fine and you still like it but what else can you do you are in and I really only hoped that I could trade places with you. I would love to see that country. If you are still there in October we will be in New York then. The convention is there again this year, or if you are around that way maby we can see you.

We have had some nice weather the last day or so but suppose it will have to snow about three more times before spring really gets here.

We are still just as busy as ever and I think I told you we rented the building across the street (1018) and moved the equipment over here and the office, it is really O.K.

My two little Indians are still growing and they ask about you real often and wonder why you don't come back. Especially when I have to work nights.

Jack is here today, Amos, Bill, Kirk, Lefty, Rhiney, Dave, Willard, Shack, and Damon. are still here, you will have to pick the ones you knew. Oh yes I forgot one Herman.

Walt's deferment is up the 11th but he expects to receive another for six more months, I often wonder how many he will get.

Well Sue, I guess this will be all for today and write if and when you find time as we enjoy hearing from you. When do you get your furlough??

Bye now,

Ethel, Walt, Family and the gang.
