VIII. MANAGER'S NOTES

During the summer, we Postonians all suffered severely from the heat either directly or through the thin walls of the barracks.

But since the first rainfall, we feel the sudden change to coolness and the nights and mornings are extremely cold. The cold draft keeps drifting into the apartments through the thin walls and the poor flooring.

The block residents are constantly asking when our double walls, stoves, and flooring are to arrive.

If the situation is not adjusted very soon, there are going to be many illnesses with invalids and children suffering the most.

(over)

Good health means higher morale and better, greater amount of work accomplished.

Respectfully submitted,

May Sakelaya, Clerk - 207
