- A. Fire inspector warned residents against building fires between barracks.

VII. MISCELLANEOUS

- A. One gallon disinfectant.

VIII. MANAGER'S NOTES

Since Poston 2 is built for the purpose of having people reside, the residents have a hard time to convince themselves to make good living quarters. Nearly every day someone ask how soon

can we get wall linings, ceilings or a stove.

As we know from our block ^{Monday} meetings there will be lumbers available soon. The sooner we get these materials it will avoid many residents criticism and our worries from illness or freezing of our little ones.
