In the meantime, a new system of distribution is being prepared, Barber said. The new procedure will replace the old one when distribution begins again.

Mess Halls Vie For Honors

Center mess halls will be judged for all-around efficiency and cleanliness beginning this week, it was reported today by the Mess division.

The mess hall with the highest score will receive a large pennant with the initial "E", denoting excellence, superimposed on it.

The pennant will be displayed outside the winning mess hall.

Judgings will be made every week by three administrative officials. The six basic standards for judgment:

Story of the Week: Tomatoes, Corn, Marriage

This is the first of a new PACEMAKER feature in which the staff will select the "Story of the Week" on the basis of interest and style. The following is from the Tanforan Totalizer of July 18:

The topic was on the advisability of marrying in a relocation center, but the last Town Hall sounded like a convention of produce dealers discussing the

relative maturity of tomatoes.

It all started with Mrs. Ruth Yamauchi, the first speaker, who remarked that "tomatoes should be picked while ripe and not when green or over-ripe," in advising marriage while marrying was good. The tomato metaphor bounced through the meeting until, to some, it resembled corn by adjournment time.

Asserting that marriage

was a stabilizing factor, Earl Yusa, the "mature man" who married 2 days before evacuation, declared that a couple could lead a complacent life in the relocation centers.

Bachelor Charles Kikuchi, famed "ripe tomato," claimed that in a relocation center, a man had no way of discovering whether his prospective mate could cook or easily adapt herself to life in post-war America.

Blue Mess Keeps Busy Feeding Night Workers

Of the Center's many mess halls, the Blue mess is the only one to feed night workers, revealed Jimmy Nishimura, head cook, with pardonable pride.

"Our work begins after supper and ends early in the morning," he asserted in an interview one night this week.

While he was talking a band of policemen came walking into the mess hall,

blinking their eyes trying to get accustomed to the light.

Looking at the policemen Nishimura said, "We feed an average of 75 policemen, about 45 firemen and from 20 to 30 warehousemen. The warehouse crew really works hard and comes in hungry."

In addition to feeding night workers, the night crew helps prepare meals for the new day, and the

kitchen is piled full of meat and vegetables which will be used the next day.

Special events often bring extra patrons, the head cook declared. During the Anita Funita, the mess hall was often host to members of the Recreation department who worked until the wee hours to put over the event. "We also fed sumo men and weight lifters," he added.

'It's a Hot Job — on a Hot Day'

"On a hot day it's a hot job, but it's ideal in the winter," commented Jack Tabata, in describing his job as foreman of the burning crew at the dumps west of the main track.

All the combustible trash of the Center is burned by Tabata's crew. "We do most of the burning in the morning while it is still cool," he explained.

From 75 to 100 plates from the mess halls have been salvaged by the boys. "We've also saved 500 milk bottles before the children with slingshots come out here and break them," Tabata continued.

Among the many articles that slip into trash cans are books, magazines, soft drink bottles, spoons, jam glasses and coupon books.

MESS UTENSILS

Tray service must be discontinued unless all dishes, knives, spoons, forks and cups are returned to mess halls immediately, the Mess section said today.

Residents are urged to comply promptly as the ban will cause hardships among sick people and invalids who are unable to eat at mess halls.

Marble Tourney Deadline Nears

Wednesday, 11 a.m., is the deadline for entries in the marble tournament sponsored by the Center's Cub scouts, marble enthusiasts were reminded today.

Three divisions will be open, the staff announced. One is for boys 11 years old and younger, the second for boys 12 years old and over and the third for all girls.

All who are interested are to sign up at the Boy Scout office in the Recreation hall. Complete information may be obtained there.

Eliminations will be run off Friday at 9:30 a.m. and the finals will be played Sunday at 1:30 p.m. on the track in front of the Grandstand.

An installation-initiation fete was held by the Bonnie Betas recently at the Recreation hall.

Installed were Lily Takakura, president; Katherine Sogo, vice president; Toshiko Ebihara, secretary, and Toyoko Hattori, athletic manager. Adviser Lillian Sogo officiated.

Previously, the Betas invited the Hi-Teens to a fun night program.

NEW LOCALE CHOSEN FOR MUSIC PROGRAM

Classic Hour Switched To North Recreation Hall

A new locale has been selected for the weekly Music Appreciation program tomorrow, 6:30 p.m.

The recordings will be played in the north end of the Recreation hall, instead of in the Grandstand.

Tomorrow's program includes Grofé's "Grand Canyon Suite," selections by Nelson Eddy, Rachmaninof's Concerto No. 3, Sarasate's "Gipsy Air," Ravel's "Bolero" and Saint-Saens' Introduction and Rondo Capriccioso.
