

Made from Sugar and Flour sacks

Some of the articles made in the sewing project.

You are cordially invited to attend the Christmas Party at the Sewing Project December 22, Friday at 1:30 o'clock.

Sincerely,

Kiyoji Nakashima
Committee Chairman

At this party a number of dolls, toys, child's bed jackets, etc., were presented to the hospital. This was done on their own time, from scraps of material which would otherwise be discarded.

Thousand of necessary articles were made by the sewing project at a saving for the Government. This also gave employment to the internees and produced many items, which were not available on the market. Many very attractive and useful articles were made from flour and sugar sacks. These articles were then placed on sale at the clothing store.
