I wish to express my appreciation and admiration to the personnel at this station for the splendid manner in which the movement of three groups of internees was effected. The Seattle party was the largest group ever handled by the Department at any one time, and the smooth efficient procedure surrounding the move was something to behold. Needless to say, it took the combined efforts of all persons connected with the operation to put it over, and in my honest opinion it was a grand job well done.

This is what Crystal City, thought of it.

Crystal City never had much use for the camp, nor the camp personnel, in fact most of the time I think they wished these "Dam" yankees were behind the fence too.

## Five Trainloads Aliens Leave Camp

In addition to 25 carloads spinach and five carloads carrots, five trainloads alien internees from the Camp were shipped out during the week. Two trainloads were scheduled for Japan. Others went to various points.

It is understood this took about half of the camp population. However, others come in from time to time, making this a sort of clearing house, it is said.
