August 15, 1944

Mr. Dallas C. McLaren
Principal, Poston II School
Poston, Arizona

Dear Mac:

I want to thank you most sincerely for the copy of the 1944 El Chaparral, which came to my desk yesterday. I have examined this book with deep interest. I note that George Ikeda and George Aihara are still with you. Please give them my best regards. I also note that you still have a number of teachers who were there in 1942-43. I wish to send these folks my best regards, too. I was very much interested in the pen and ink drawings of your new school buildings; they look very interesting. I wish I could have some snapshots of your buildings. Do you suppose you have someone who would be willing to do this for me?

It is my impression that the sentiment toward our American-Japanese in the mainland is gradually softening. I believe that there will be some interesting and encouraging developments this fall. I cannot state openly what I have in mind.

• Edith joins me in sending our deepest love to you and Irma and to those dear youngsters.

Very cordially yours,

Miles
