To Whom it May Concern:

Aie Yokota is a young woman of unusual qualifications. She has worked for two years in the attendance office of the Tri-State High School at the Tule Lake Relocation Center.

Her position calls for devotion to detail and accuracy in computation of data, as well as responsibility for handling attendance problems for over 2,000 students. She is well poised and handles emergencies that arise in a competent manner.

I have no hesitancy in recommending Aie to any business concern that needs a loyal and faithful employee.

Very truly yours
