TO WHOM IT MAY CONCERN:

Having known George Nakamura for approximately six months and having worked very closely with him for the past four months, I believe him to be a true and loyal American citizen.

He has always done what has been assigned to him and has taken great interest in his work. I believe that he would make a good employee in any position or capacity for which his training has fitted him.

I myself would not hesitate to employ George in any organization of which I had charge.
