

18 November 1949

SUBJECT: Letter of Recommendation

TO : American Consular Service

1. In the near future Miss Masako Adachi intends to make an application for reinstatement of her American Citizenship. I have known her since January 1947 at which time she was employed by the Adjutant General, Headquarters, 24th Infantry Division, and she has been employed by the Occupation Forces continuously to the current time. She has been employed in my household since 15 August 1948.

2. Miss Adachi has shown her reliability, honesty, and integrity through employment; but more important is the composition of character which will prove her to be a true and loyal citizen of our nation. It is without reservation that I recommend her for your favorable consideration and I sincerely believe such action is in the interest of the United States of America.
