MESSAGE

Your cooperation extended to me during the past five months of my term has been most encouraging. We who have chosen Buddhism as our religion should forever more take pride in it and through its teachings we can hope to be better beings in a better world.

That inevitable day of segregation has rolled around when again we face the days of uncertainty. But let us not be afraid, we shall face the fact with reality, together with the spiritual guidance. So, till we meet again, with fervent faith in our Lord Buddha, let us hope for definite peace and happiness tomorrow.

With Gassho,
Hideo Shintaku
YBA Chairman
