

NOTICE TO PERSONS WHO RENOUNCED AMERICAN CITIZENSHIP

Because of the press of business, this office is not able to give consideration to applications for registration for continued residence in Japan from persons who renounced American citizenship in the United States. Only passport applications may be received, and, in view of the unsettled nature of the renouncees' claim to American citizenship, there is no assurance that even these applications will be approved.

At the time of your appointment, you should bring with you a signed statement in English, in duplicate, giving in full detail the reasons for your renunciation of United States citizenship.
