

WCSOM HILARIOUS

C. VI. 25.

The reason why I didn't report for the Physical Examination & Pre-induction
re as follow :

1. Denial of Civil Right as prescribed in the Constitution, which is known
as the Supreme Law of this Nation.
2. Evacuation- I felt that internment of American Citizen of Japanese origin
in Relocation without due process of law was unconstitutional.
3. Segregated Unit in the Arm Forces- Segregation in Japanese- Americans
unit in the Army and limitation of service to a few branches of the army is illegal, con-
trary to the Selective Training and Service Act. of 1940
4. Classified to 4-C classification, which means Enemy Aliens, when entering
the relocation Center.

I felt that refusal to cooperate with Selective Service was the most effec-
tive protest I could make against injustice suffered that a government which has deprived
me of freedom and Civil Rights has no legal right to conscript me for military service.

Had I not been deprived of these Constitutional Rights I would have gladly
accepted for military service.

For what cause would I be fighting for ? A home surrounded by barbed wire
fence ?

Sincerely
Noboru Taguma
