Coden, Utah

Dear George -

Thanks a lot for those
cards and the pamphlet.
It sure was interesting,
though I can't agree to
most of the negative side.
Well school started
on the 15th out here.

I've been going to school
but my pre-induction
physical examination is
slated for the 5th of October
so I think I'll never finish
school. I'm taking light
courses this year. How'd

school out you way.

Out on the farm we're picking tomatoes & onions now. Guess you're still having a wonderful time with those gobblers since it's not Thanksgiving as yet.

By the way I been wondering if you could get me some olives when you go into town or from some farmers you know. Can't get any out here. We'd like green olives and about 5 bucks worth if it doesn't bother you too much. Know you're awfully busy & sorry to trouble you so

just count on some spare
time and if everything
worked up just forget it

It rained the first
time here since spring and
been going on all day. Read
in the Paper where Sacramento
been extraordinary hot for
September. Hope it's good
weather.

Will say good bye now
and be hearing from you
soon.

Yours truly
Pennington

AFTER FIVE DAYS RETURN TO
