MEMORANDUM

ち
あ

December 10, 1942

TO: The Residents of Heart Mountain Relocation
Center

A problem of concern to all residents of the center is the use of leisure time, particularly through the winter months ahead. It is essential that there be recreation available for children, young people, and adults; therefore, in order that the Recreation Department may know the desires of the community in regard to a recreation program, I am calling a conference on Thursday, December 17th, at 2 p.m. in the Administration Recreation Hall. This will be attended by representatives of the Recreation Department, Temporary Council of Block Chairmen, and Block Administrative Officers. In addition, it is requested that each block elect two residents as delegates to this recreation conference. It will be the responsibility of these delegates to present the needs of the community to the conference and to report back to the block on the plans for recreation outlined for the center.

Philip W. Barber
Chief, Community Services
