

NOTICE

In order to house the additional number of people that we are now required to accommodate in our present quarters, it will be necessary to condense the population in each barrack.

Many families of six or seven members are now occupying two apartments. In such cases it will be necessary for these families to occupy only a B or an E room. Also, because of the great number of small families, it will not be possible for groups of single persons to occupy an A or an F apartment as these end apartments must be used only by our small families.

We earnestly request your cooperation in helping us to meet this difficult housing situation.

C. E. Bachford
Project Director
