TO: Relocation Program Officers' Conference
FROM: Heart Mountain Community Council
SUBJECT: Recommendation for a more liberal
Relocation Policy

It is unanimously recommended by this body that the War Relocation Authority strives towards a more liberalizing policy in its relocation program.

With the completion of segregation and with the reinstatement of Selective Service, this liberalization of policy becomes imperative and necessary step as a democratic process.

The elimination of the leave procedures is expected in this course of action and whole heartily endorsed by this Community Council.

Signed,

Saburo Nakashima, Chairman
Heart Mountain Community Council
