Dear Mrs. Perry,

I just received your letter together with the statement on our Forestville Ranch and we were all very pleased with the season's returns. Thank you very much for everything.

I imagine with all the rain you people have been having, work must have been slowed down considerably. Is Sam through with the brush raking already? I guess it will be quite a time before the ground hardens up and hope that you will be able to get your fertilizer out soon.

Nothing much in local news to tell you about here. I suppose you have heard of Dillon Myers, National Director of the W.R.A. Well, he was here Sunday to give a talk to all the residents of the Center and I went to hear it. The main subject was relocation and the main points he stressed was the necessity for re-locating as quickly as possible. He further stated that all the Centers will be closed by Jan. 1, 1946.

I see from your letter that the sentiment and feeling in the Sonoma area is rather on the tense side and I think its not verywise to return for some time yet. Well, so much for that.

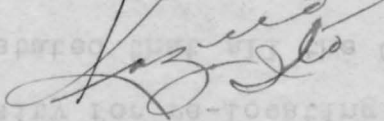

The weather has been rather nice and fair during the past week and looks like the snowy days are over for a

(Over)

(over)

while and I hope that your rainy days are over too.....
Will be closing here Mrs. Perry, and thanks again for the
statement. I do hope that this will find you improving
in health each coming day and best of regards to Mr. Perry
and all from Grandad, Grandma and us all. Until I hear
from you again. I remain.

Very sincerely,
