Dear Mrs. Perry

Hi Mrs. Perry, I thank you very much for your recent letter and was good to hear from you again.

Look! getting down to brass tacks I can see the situation and feeling in Sebastopol area isn't very much in our favor. However, all of this high tension will no doubt have to be expected if we are to return.

Its indeed a big problem and most of the former Los Alamos people without a question are relocating to the Midwest and the East.

A great number of them have already settled in Northern Colorado in the farming area.

In a way its sad to live a life where one always has to fear someone taking

potshots or threatening visits and such as has been happening in other parts of Calif. I guess they wouldn't cause any bodily harm but just the idea of living under such conditions of fear. I've been reading a lot about the various cases on the coast and reports that come in and there doesn't seem to be any slack.

The W.R.A. in Santa Rosa via W.R.A. here sent us a letter saying that they had visited the Ranch and had a talk with you about the dealings and such. However, they didn't mention anything about the sentiments so we presumed it was pretty hot.

Although our hopes are to return if at all possible, please don't notify those folks at the house because we are not definite as to anything

and when a ^{will let you know} and we
 we've decided ^{and we}
 won't go till they
 find a place.

Boy! this whole thing
 has us going in circles
 anyway. Let let you
 know if anything new
 develops so please let
 it ride for the time
 being.

My dad and family
 are leaving for Brigham
 Utah this 7th and
 they are going to
 work out a canary.
 Its good because
 there's all kinds of
 work for the women
 too.

How is Sam coming
 along up there? Hoff
 he's making out ok.

When you write
 to Lloyd could you
 please give him my
 best regards. Thanks!

Will be closing here
 and hope that I
 this will find you
 all well & usual
 and regards from us
 all. Until then.

Very sincerely
 Lloyd's
