Dear Mrs. Perry,

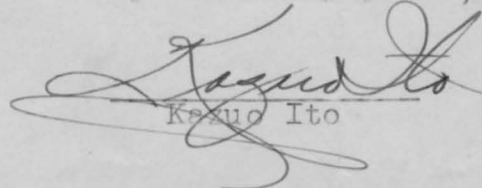

Hello Mrs. Perry!.....Trusting that this little note will find you all in the best of good health at Sebastopol.

I am writing you today to ask of you a favor if it is possible. At the present time I am working pretty hard by contacting various Government people in trying to get a rehearing or if possible a parole for my Grandad. In this respect any kind of factual information or affidavits tending to show Grandads loyalty and faith to the United States would greatly help in the decision of rehearing or parole.

Uncle Johnny has told me that you were acquainted with a person by the name of Mrs. Charles Witter who works or had worked on behalf of the Red Cross Organization couple of years back. Anyway, Grandad at that time had given his time and the use of his car in driving her around for the Red Cross purpose and therefore we were thinking that such a incident although trifle might in some way help Grandad out because of his contributing to worthy causes. Could you please, Mrs. Perry, get in touch with this lady and ask her if she wouldn't write a little statement in affidavit form to the foregoing facts. If she says she doesn't want to do it, its perfectly all right and just let it go at that but if she is willing to do it, will you please send it to me and then I can immediately forward it to Grandad where it may help him a great deal in his case.

Thank you very much for this favor and hope that I didn't put you to a lot of bother.

Very sincerely yours,

Kazuo Ito
