Dear Mrs. Perry - :

I received your very welcome letter of May 10 and thank you very much for writing.

Grandma and I and all the rest of the family are in the best of good health as usual.

Here's hoping that this will find you all the same.

I received the radio and the tea-pot that you sent via express and thank you very much for all the time and trouble that we have caused you. The next time you write please let me know how much the shipping cost was and I'll send you the remittance right away. Please don't forget.

I understand everything that you wrote and we are very happy to hear that we have a good crop on the ranch - . Yee, I bet they are pretty big now aren't they? I am supposing that about this time you are all pretty busy with the cherry picking or are they about finished now. Did your place have a good crop of cherries? - Out here at Colorado, they are selling cherries at

504 a 16

It must be pretty expensive in California too.

Labor situation here in Colorado is somewhat like California. Everyday lots of men come to the center looking for workers and lots of people are leaving gradually.

Life here at Camp is the same as ever otherwise and nothing much happening.

Apache is going to have its High-school graduation exercises this coming 24 and I guess there will be quite a turnout.

Please don't worry too much about our place because in these times ^{we know} it is extremely difficult and Grandma and I appreciate your kindness from the bottom of our hearts for all you are doing ~~doing~~ for us. Please use your best judgment in everything as we have complete confidence in you. If you folks can't do it, there is no one else in the world that could and that's no lie either.

That's all the news that I can think of so I will close this short note. Grandma and everyone sends their best regards and please write me again if anything new turns up.

Do take care of yourself Mrs. Perry - Kazuo
P.S. Please give my best regards to Lloyd next time you write him - Thanks !!
