Dear Ms. Endo:

We congratulate you on printing POINT OF NO RETURN by Tad Uyeno,
which was brought to our attention through Harry Honda's cc ^{in the P.C.}
in the P.C.

Story of evacuation must be told whenever we have a chance.
However, Uyeno's story has many omissions and distortions. We
feel very strongly that the untold and/or swept under the rug
portion must be told in order to bring the Manzanar story into proper
perspective.

As a news reporter, Tad must have known much of the going ons in
Manzanar than he wrote about. He should not have been hesitant
to tell it all and name names.

Some of those we mention in the enclosed "Omissions and Corrections"
are now dead or have returned to Japan, but occasionally we meet some
in the LA East First Street area when we visit LA - some extend their
hands to Karl apologetically and others just hurriedly turn around
and go in another direction.

Although we personally made many mistakes, we feel we followed a
path which helped the evacuees and the fight against the fascist Axis.

We hope you will see fit to print our story.

Have you gotten any respond from your readers re Tad's story?
Continue the sharp pencil working on Miss Elbee!
Hope to meet you when we are in LA again.

With Heiwa,

Elaine and Karl Yoneda
