Lack of Evidence Forces Dies To Call Off Nisei Investigations

WASHINGTON, D. C.—Failing to produce evidence of any charges against the nisei, the WRA, and its relationship with the JACL, Representative John M. Costello, California Democrat, called off further investigation, following an executive session with War and Justice Department officials.

Despite sensational advance publicity, the hearings which were started here July 3 failed to produce any evidence to substantiate Dies charges made publicly of mass dialoyalty, rampant subversiveness, coddling and pampering of eva charged that testimony presented and widely circulated throughout the country, were denied as ever having been made or authorized. in time of war.

In order to find out residents' problems in relocating, a special family history form has been adopted and approved by the Washington office of WRA for the accumulation of information to guide the Placement Officer in solving relocation problems. These forms will be used through the project to make up case histories of each and every family, and will show the qualifications of all of the working members of the family and also the most desirous place of relocation; what problems tinty face in relocating; and how best the Placement Officer can assist them in relocating in the place of their choice. The material contained in these forms will be forwarded by the Placement Officer here in the project to the WRA representative in the community where they desire to relocate, requesting that this officer secure information relative to the type of work or business opportunity the applicants desire. July 1, 1943, will be sent to Tule Lake without further hearing. However, a board of appeals will be set up at Tule Lake center to which any segregant may appeal."

Stafford pointed out that while an appeals procedure will be provided, it will be difficult for any person sent to the segration center, including those who go voluntarily, to obtain release from the Tule Lake Center.

Those who answered "No", gave qualified answers, or refused to answer the registration questions in March pertaining to loyalty and sympathy to the United States will be given board of review hearings at the Minidoka center before their final status is determined. Agricultural Advantages: Size, Listed as Reasons

Explaining why the Tule center was, picked to be the segregation center, Dillon S. Myer, national WRA director, told the Denver meeting that there were four main reasons: 1. Tule Lake is one of the larger centers, having a capacity of 15,000 cersons; 2. The agricultural development offers the the larger centers, having a capa-city of 15,000 eersons; 2. The agri-cultural development offers the residents a chance to produce much of their own food and at the same time offers more on-project em-ployment than other centers; 3. Beployment than other centers; 3. Be-cause of the results of the regis-tration last spring Tule Lake cen-ter has more segregants than any other center; 4. Because it is lo-cated within the evacuted area relocation of evacuees has been slow and difficult.

Director Myer emphasized that the segregation movement is not a punishment and that the people who go to the Tule Lake center will be treated fairly and decentry. With the exception of self-government and leave privileges the Tule Lake center will be operated much like the relocation centers.

MINORU YASUI RELEASED THURS.

Minoru Yasui, convicted in the curfew violation test case, was re-leased Thursday, it was reported here. He was re-inducted into the project yesterday.

In revising the original sentence of one year in jail and \$5,000 fine, Federal Judge James A. Fee sent-enced the nisei attorney as of No-vember 18, 1942, to eight months and 10 days in jail, with credit for the time already served.

Judge Fee pointed out that when the curfew law was in effect it was predicated on the fear of Japanese attack, and on the military's desire to remove from the streets all persons of Japanese ancestry.

Now the Japanese are removed from the coast, and Judge Fee said, "Yasul's offense appears minor at this time."

Tudge Fee's original decision was Judge Fee pointed out that when

Judge Fee's original decision was that the curfew law applies to aliens, but not to citizens, and that Yasui, although American-born, by working for the Japanese consulate in Chicago, had forfeited his American citizenship.

LOS ANGELES—Opposition to enlistment of American Japanese in the United States army was expressed by Senator Mon C. Wall-gren, D., Washington, in an inter-view today, the Associated Press reported.

A member of the senate military affairs committee. Wallgren said he is pushing a bill to turn the control of Japanese evacuees over to the army. He expressed the belief that the principal failure of the War Relocation Authority in their management lay in delay in segregating disloyal from loyal evacuees.

Japanese should be put to agri-cultural work under strict super-vision, the Washington senator vasion, the washington senator said, not only to guard against sa-botage, but for their own protec-tion against possible violence.

SEGREGATION SEEN AS MEANS TO PUSH RELOCATION—MYER

The following statement was made by WRA Director Dillion S. Myer on the segregation program at the recent Denver

"The War Relocation Authority is responsible for the welfare of all the people of Japanese ancestry who live in relocation centers. The execution of this responsibility is made more difficult by the fact that some of the relocation center residents have indicated that they are neither loyal to this country nor sympathetic to its war aims while the great majority have in-dicated that they wish to be Amer-ican. The War Relocation Authorthese groups, and it also has an obligation to safeguard the further national interest.

After long and serious delibera-tion, the decision has been made that the responsibilities of the War Relocation Authority can best be fulfilled if a segregation is made between those who wish to follow the American way of life, and those whose interests are not in harmony

with those of the United States.
Accordingly, procedures for a
program of segregation have been
developed. All relocation center
residents found not to be loyal or sympathetic to the United States

Participating in a panel discussion on securing evacuee co-operation, Harry L. Stafford, project director, described the 14-man committee of block repre-14-man committee of block repre-sentatives and segregants which is being formed here at Hunt. The committee will serve as an advisory group to the adminis-tration for planning a program of project-wide education on the segregation program.

"We believe that the import-

ant thing is to see that every-body on the project is accurately and completely informed about the program," he stated at the

ecting.
"We have no doubt about carrying out the program since when the evacuees are complete-ly informed about it they realize that it has to be done. There can be no arguing about whether or not to do it. The job has to to be done and when everybody is informed about every angle of the program we know that we will do the job right."

The population of the relocation centers after segregation will be composed of those whose interests are bound with the wel-ters of the United States and welfare of the United States and who therefore are eligible to move from the relocation centers to outside communities.

The program of segregation is not being undertaken in any sense as a measure of punishment or penalty for those who will be mov-ed to the Tule Lake Center. The War Relocation Authority recog-nizes the integrity of those per-sons-of Japanese ancestry who frankly have declared their sym-pathy for Japan or their lack of allegiance to the United States While the privilege of leave will be denied to those assigned to the Tule Lake Center, this privilege would not have been available to them had they remained in their present

New Ruling Sends Grants To Portland

All applications for travel grants will be sent to Portland, and a check will be sent back instead of the usual cash grants, Leaves Of-ficer Victor McLaughlin said this

Since this new procedure will take from a week to ten days, re-locatees are asked to apply at least a week and a half in advance.

Farm Production Takes a New Upward Trend

Residents of this center can now be relieved with the thought that they will be assured a turkey dinthey will be assured a turkey din-ner for Christmas, because 1600 six-week-old turkeys were added to the poultry farm this week, ac-cording to farm department. The center's meat supply was further increased by the addition of 171 head of hogs, which will probably be slaughtered sometime this fall and winter.

With thousands of pullets being moved weekly from the brooders to the laying houses, egg produc-tion is expected to begin early in September; and thereafter, the center will receive its fresh egg

Housing Prepares New Rules For Transferee Living

Because of the recent order of segregation issued by Dillon S. Myer, director of the War Relocation Authority, the Housing Division has received instructions from Washington, D. C., to have all housing adjustments for this center completed before Aug. 20, 1943, and to submit to the Washington authorities a final report by that same date. The instructions indicated that housing must be pre-pared to accommodate a maximum number of people based on the number of square feet per person, regardless of the size of the fam-

The Hard Way

Like the impending storm before the aftermath of sunshine and refreshing weather, the segregation deal is creating turmoil within the center and without.

Now that definite procedures for segregation have been developed it will be much simpler, to draw definite lines between the loyal evacuees and the disloyal ones. Simpler in the sense of law and order. Complicated as far as the individuals are concerned, in their breaking

Complicated as far as the individuals are concerned, in their breaking of friendly, and even family ties.

But in some way those segregees who have frankly and honestly expressed their loyalty for an enemy country are to be admired for their integrity and if the rest of the loyal evacuees will also be just as honest and fearless in shouldering the burdens of their nation, perhaps all this angulsh, suffering, social and economic losses will not have been in vain.—kt.

Is It Very Important?

In the seething sun of Hunt, very few people take so-called pleasure jaunts to the various offices to seek aid or obtain information necessary for their well-being and peace of mind. And yet, there are some persons employed in the various departments who sometimes look up at the "unfortunate" inquirer who is not and dusty and rather ill-at-ease in their unaccustomed surroundings with much indifference and ask in a bored tone—
"Is it very important?"

"Is it very important?"

Certainly the Hunt weather is not very conducive to the usual pleasantries exchanged perhaps in the better air-conditioned offices of the outside, but for harmonious living and also to a certain extent for the comfort of both parties concerned, a pleasant,

"Just a minute, and I will see what I can do for you," attitude would save much emotional unrest for everyone concerned.

"Is it very important?" Yes, it is very important, to the seeker of information. Perhaps to those who are not directly concerned with the

problems of the inquirer, it is a minor matter, but to the one concerned it is the most important thing on his mind, and a pleasant courteous attitude on the part of everyone involved is a necessity if only for polite society sake.—kt.

The Fantastic Japanese American Scare

A subcommittee of the Dies Committee on un-American activities made daily headlines out of testimony taken in Los Angeles and at the made daily headlines out of testimony taken in Los Angeles and at the Poston relocation center where Japanese Americans are being held. The general impression of newspaper readers must be that the War Relocation Authority is doing a pretty slovenly job.

A competent news service man who was present during much of that inquiry wrote the testimony heard by the committee, but his eyes and ears, outside the hearings, told him a different story.

syes and ears, outside the hearings, told him a different story.

"The gist of the testimony was that the evacuée at Poston were harboring large quantities of food, were rioling and were preparing to join Japanese invasion forces when the 'expected' attack was launched against the United States. To the disinterested observer, the testimony was so fantastic it was ludicrous," reports this correspondent.

Cellars beneath barracks supposed to conceal hoards of food proved to have been dug as refuges from 130-degree heat. They contained a few dirty mattresses and cots, but no food.

Evidence of food waste, introduced by the committee's expert investigator, consisted of a half-eaten cheese sandwich found at a warehouse where evacuee workers had eaten lunch.

"The committee heard that a large supply of dynamite had been stolen from a spot 'three miles from the Parker Dam within the past 90 days.' In the conversation at dinner, it developed that the dynamite had been stolen three years ago."

The committee's visit to the Poston center produced evidence disproving much of the testimony received at Los Angeles. But while the testimony was on the record, and received wide publicity, the later disproof did not seem to the committee to be worth passing along to the public.

disproof did not seem to the committee to be worth passing along to the public.

This is the type of inquiry which originally got the Dies committee into disrepute. Chairman Dies himself was not along on the relocation survey, and therefore remains in position to clear the record by making public the real facts as distinguished from irrespondents. sible testimony received, in part at least, from disgruntled ex-employes of the WRA.—Springfield (Mo.) The World Beyond: Kansas City Area

BY VERNON R. KENNEDY

There are plenty of opportunities for employment in the area served by the Kansas City office, both in the larger city centers and smaller towns, as well as the rural districts. The wages are not as districts. The wages are not as districts are the same of the industrial centers where there are large war farm jobs represent year-round emcloyment and greater security. centers where there are large war contract plants, but offsetting this is the fact that the cost of living

There are five metropolitan districts—Kansas City, Wichita, St. Louis, Des Moines, and Omaha. Suitable housing can be secured with some effort in all these cities but is readily available only in Des Moines. The attitude of the people generally toward evacuees is particularly good in Des Moines is particularly good in Des Moines and the surrounding area and in many of the smaller cities and towns of Iowa and Nebraska. This is largely because of the excellent support given the relocation pro-gram by the Des Moines Register which is an unusual newspaper

In the smaller cities and towns there are plenty of opportunities in office and industrial employment. From five to ten evacues families can be placed in each of these communities with very little difficulty and with reasonable assurance of public acceptance and an opportunity for the people to be accepted. The work available may not pay the top wages of wartime, but will be more permanent. Peo ple who go to these communities will be in a much better position to weather a depression than those who go to the highly industrialized

The Center of Things: **New York City**

BY ROBERT M. CULLUM

(Continued From Last Week)

While the cost of living cannot be termed low in New York, it is favorable in many respects. The city-owned rapid transit system makes it possible to have a five-cent subway fare, and the general level of rents for both single persons and families is lower than most cities. Clothing is also cheap-

In some of the other larger ci ties of the area served by the New York office, industrial employment opportunities are available but the higher the wage, the more difficult the housing problem. This is true in the Albany district, Rochester and Buffalo, New York;

To the Editor:

Some former neighbors of mine now in Hunt, were kind enough to send me a year's subscription to the IRRIGATOR, and I would like to take this opportunity to con-gratulate you and the staff on put-ting out a really fine and progres-

While on a trip east last May, a group of Japanese soldlers got on the train at Shoshone. I spoke to these boys and learned that one of them was Chester Sakura, whom I had read about in the IRRIGATOR. This was a most enjoyable coinciinis was a most enjoyable coinci-dence. Needless to say, these sol-dlers made a most favorable im-pression on the people in the train, and I found all of the many I talk-ed with friendly towards the boys. In Chicago I visited one of your

We hope later to develop excellent relocation opportunities in the farm districts of the East.

In the farm districts of the East.

In the truck growing sections
of Long Island and New Jersey,
there is a shortage of labor and,
doubtless, we could place as many
experienced truck farmers as want to come here, but the wages are low compared to the wages paid for the same kind of work on the West Coast.

Many of the people at the re-location centers seem to have some mistaken ideas about the farm lands of the East. I happen to have a victory garden at my home and the other day remarked to my nisel stenographer that I wanted to hurry home to care for my tomato plants. She immediately said that she didn't know that tomatoes "grew so far north." Yes, there are good farms in the East, and there will be opportunities for farm workers and farm families to locate here if they want to do so.

Little incidents and little places suddenly bring back memories of other incidents and places.

A brick building with the words A brick building with the words "Legion Hall", for some unpredictable reason brought back a memory of a hot sultry day in the "skid rows" of another town and another year. In the lull of the evening a well dressed gentleman walked into the restaurant and ordered some food and a glass of hear. During the course of the dered some root and a glass of beer. During the course of the meal, conversation was exchanged, and the waitress gave the well pol-ished usual small talk, while the customer too, said the usual things.

As thoughts warped and twisted course through her mind, another voice pierced through the fog, and another man with the blue and gold button of the Legion, a laughing voice, kind and understanding:

"Sure you're Japs as that other said, but we are all Americans, too, never forget that."

A kind deed, a deed well done. And she thinks of him and thousands like him who sport not only the blue and gold buttons; but of the others who are anonymous, legion in number who also think of the same things. Men who custi

the others who are anonymous, le-gion in number who also think of the same things. Men who fought in that bloody War I, fighting to kill forever all thoughts of "race supremacy" and prejudice and fear, men who fought to stamp out the things that unthinking selfish individuals are doing to people who though they are not of the same color, but who think and act like color, but who think and act like them, the very things that those brave men fought to stamp out for-ever. Now another war is being fought for the Four Freedoms of the world, and ahe can only hope that those boys "over there" in this and that other terrible war will not have fought in vain .. - kt.

A Blow at Racial Hysteria

stride toward winning the war against Japan.

The People's World is especially pleased with the statement since it substantiates the position we have taken on the evacuation and treat-

We held the evacuation was a military necessity, and we argued that once the step was taken, it would serve the best interests of both the evacuees and the Amer both the evacuees and the American war effort to segregate dis-loyal elements from the loyal, and then to integrate the patriotic Americans of Japanese descent into the American community.

Then in the short space of an indecision, while one wonders whether to close while one wonders whether to close the windows or not, the winds leap up, sweeping their greedy talons along the ground, gathering fine dust and debris to filing with apparent venom into every window and door left neglectfully open. Then rushing around in frenzied whirl, dust-laden fingers sprinkle their coating of gray over all-furnishings, beds, floor, tables, food, stoves—nothing favored.

The nov-elty of it wore off all too soon and struggling to work bundled up in boots, slacks, coat, scarf, mittens, kerchief, et al became an every kerchlef, et al became an every day affair, as were red noses and chapped skins. The cold snap brought slippery ice, and the warm spell melted it—with the resulting unforgettable gumbo mud—unforgettable but yet it seems unreal that once we pulled, tugged, and yanked our way over where now grow soft, green lawns. The Placement and Relocation

The Placement and Relocation Officer will be available at any time to talk over with anyone his relocation problems, and to help in any way possible.

Now that the segregation is being planned it is hoped that the present residents of the project will take advantage of all of the help and opportunities offered by the Placement Officer to expedite their relocation plans, for as population increases greater will become the number of relocatees, and it, seems very likely that those people who are being changed from Tule Lake will be given priority to jobs and relocation assistance.

They will have gained friends in the community to which they go; they will become proficient in their work; they will be familiar with modern techniques and new developments in industry. ments in industry.
On the other hand, those eva

Like the people on relief during the depression, they will feel inadequate and helpless in coping with the problems of everyday existence. One resident in a center, stirred by the realization of this danger, has described the experience as "soul rotting."

It is felt that many residents are cognizant of all the facts relative to relocation and that as they become informed they will realize that everything is being done to make their relocations and the state of the being done to make their reloca-tion as easy and pleasant as it is humanly possible to do, and that when they are relocated they still have available to them all of the assistance the WRA can give them, if their relocation is not pleasant or if anything happens to them or their families that they only have to appeal to their rearest WRA officer or the centhey only have to appear to their nearest WRA officer or the cen-ter from which them came, and they will be immedately taken care of. It is desired that resi-dents of this project feel that the Placement Officer and his office are at their disposal at any times, and it is the desire of this office to be of the greatest assistance to the residents of this

Issei Fined For Battery Attempt

A 40-year old issei was released last Saturday from the Jerome County jail after paying a \$75 fine on an attempted battery charge.

He was arrested July 23, following a complaint sent in by H. J. Link of Warehouse 14 to the Inter-Link of Warehouse 14 to the Inter-nal Security Division. Link stated that he was questioning him why he had not shown up for work for the last three days, when the issel landed a blow by his right ear with his fist, and then picked up a ham-mer to strike him. However, a fel-low employee who was nearby intervened and disarmed him before he could land another blow.

Christian Summer Schools Offer Many Courses

Following right along with the Catholic and Buddhist schools, the Federated Christian Church Sum-

mer School will start for a two week period from Aug. 2. The school is divided into two di-visions, the Senior High Division and the Junior High Division. Each and the Junior High Division. Each student will have the choice of three out of nine different classes. There are to be three periods, be-side a worship period, lasting from 9:30 a. m. until noon. Senior stu-dents may choose from such classes. dents may choose from such classes as "Life and Teachings of Jesus" august between Japanese workers, "Christian Roots of American Democracy", "Modern Christian Herose", and "Oh Being a Real Person". Juniors may also choose from nine different classes, such as "Jesus and His Way", "What I Believe and Why", "Christian Events That Made History", and "Adventures in Brotherhood." Twin Falls, Idaho.

Kennedy Explains Middle West Relocation Situation to Residents

(Continued From Page Four) I want to report a few instances which I believe will be interesting to people in the relocation centers. High wages when obtainable in this section are usually in the industrial riga wages when obtainable in this section are usually in the industrial centers where housing is almost impossible to find. Furthermore, since most of these high wage jobs are in lines of work directly connected with war production, those accepting them will be the first-casualties of the change in our industrial program which is bound to come and may come even before come and may come even before the end of the war. Living costs outside those high wage centers are not excessively high. In Iowa, for example, you can get meals for 35 to 50 cents.

Hunt JACL-ites May Transfer Memberships

Any member of the Hunt Chapter of the JACL now residing in the Magic Valley can transfer his membership to the district branch at no extra cost for this year, acording to George Makabe, secretary of the Magic Valley Chapter.

Under the auspices of this or-ganization, a labor meeting in August between Japanese workers, employers and the different agen-cies interested in the production of food, is expected to be held in the near future.

Recently I had an interesting experience visiting the town of Pella, about 35 miles from Des Moines. Five evacuee girls are employed there in the Pella Overall Company. They are making 40 cents an hour with a certain amount of overtime, making their weekly earnings about \$20 a week. They were able to rent a four-room apartment for \$25 a month. The price of furnished rooms in the community—there is no housing shortage—is \$1.50 a week. Food is plentiful and cheap. I had a good dinner in the hotel dining room, including steak, vegetable and dessert, for 45 cents.

The evacuee girls say they have

The evacuee girls say they have never been treated better. The never been treated better. The other forty girls in the factory and the townspeople have com-pletely accepted them. This same town has a roll screen factory which employs about 200 workers at wages ranging from 35 to 70 cents an hour. There is also a cannery which cans tomatoes, peas, beans and corn.

I have mentioned Pella as a typi-cal example of the smaller towns cal example of the smaller towns in this area. There are hundreds of jobs in communities much like Pella. The particular work opportunities may be different in each different town, but the general pattern is the same. People who pattern is the same. People who get established in communities of this kind can ride through any sort of post-war adjustment and become a direct part of the community.

I can appreciate the feelings that many of the evacuees have about wages and their desire to make just as much money as possible. (To Be Continued Next Week)

Hunt, Merchants Remain Victorious

Hunt All-Stars defeated the Hunt Military Police, 14-1, and the Kdaho Falis Merchants downed the Pocatello Sub-Depot, 14-3, on Thursday overling to move both winners into the semifinal round against each other. The winner of the Merchants-Hunt game will have the right to meet the winner of the 282nd Rombers-Navy Ordnance game Bombers-Navy Ordnance game for the Idaho State Semi-Pro baseball title. Both games were played last night with results yet unreported.

Merchants Stops **All-Stars in Close** Opener, 6-4

Costly errors and "clutch" hit-ting aided the powerful Idaho Falls Merchants in turning back the Hunt All-Stars, 6-4, in the opening highlighted game of the Idaho State Semi-Pro baseball tourna-ment last Sunday evening under the lights of Highland Park.

The Merchants gathered an early 3-0 lead, scoring one in the second inning and two more in the third.

Hunt, held runless for five frames, cut one run off the Mer-chant's lead in the sixth, tallying one, and forged ahead into a shortlived one run lead by scoring three runs in the eighth.

The home town Merchants how-ever, came back with the same number in their half of the eighth to regain their lead. A "clutch" number in their half of the eighth to regain their lead. A "clutch" three-bagger by Jordin, Merchant second baseman, with two aboard tailled the first two and Jordin scored the final run, scoring on Herd's fly ball to left field.

Jack Hawkins, star Merchant pitcher, who whiffed 15 Hunt batters and Ralph Takami, striking out eight Merchants, both turned in superb twirling performances. Both teams showed ragged ball-handling, fielding seven miscues, and the All-Stars outhit the Merchants, 9-8, but failed to produce the winning counters.

State Title To Be Decided As Finalists Meet Tonight

Merchants, 6-4, the hard-hitting Hunt All-Stars continued to advance into the quarter-final round of the fifth annual Idaho State Semi-Pro baseball tournament, now being held in Idaho Falls, by firing across a 16-3 victory over the combined Jerome-Filer nine, which dropped them from the tournament because of their second defeat.

Hunt Eliminates Jerome-Filer by Scoring 16-3 Win

Hunt's All-Stars advanced into the quarter finals of the Idaho State Semi-Pro baseball tournament as they soundly trounced the Jerome-Filer nine, 16-3, to elimin-ate them from the tourney with their second setback.

their second setback.

Nagatani held the combined team scoreless until the eighth, when they scored their only three runs, while his teammates gathered a 12-0 lead up to that inning. One run in each the first, second, fifth, and sixth and eight big counters in the fourth accounted for the twelve. The All-Stars added four more in the eighth to ring up their total of 16 runs.

Flower bits, and nine Jerome.

Eleven hits and nine Jerome-Filer errors contributed to the All-Stars' cause of scoring the victory.

Southpaw Nagatani turned back Southpaw Magdain turnet back for Jerome-Filer batters via the strikeout route to better the Mer-chant's Jack Hawkins strikeout record of 15 for the tournament that he registered in the Mer-chants-Hunt game last Sunday
