VOL. III, NO. 10 MANZANAR, CALIFORNIA WEDNESDAY, FEB. 3, 1943

## BET ACREAGE AND FARMS OPEN THIS SEASON FOR EXPERIENCED

Beet acreage and farms for interested farmers will be available this season for those with agricultural background, announced the Relocation staff, with the arrival of three representatives from the Utah-Idaho Sugar Company.

Here all this week and longer if necessary to interview applicants are: Ford Scalley, D. C. Clyde and Jesse Day. The trio arrived last Sunday evening.

### FARMS ON SHARE CROP

Most of the farms are located in Montana and Idaho and can be contracted for on a share crop lease. The worker will receive a share in the crop in proportion to the work that he participates in. Owners will furnish land, water, assessments and taxes and all machinery and power, while the sugar company will finance the crop.

### FAMILIES DESIRED

The recruiting party stated that families, in particular, were desired. All persons must be able to obtain leave clearance following investigation and FBI clearance. The Utah-Idaho representatives will be at 1-1-1 to discuss these possibilities this year and plan to select a few representative farmers to actually go into Idaho to inspect the available farms. All expenses of the trip will be paid by the sugar company, it was disclosed.

### NEW TYPE OF SEED USED

Idaho officials state that this year a new type of seed is being planted for experiment, whereby the seed will be broken down so only three or four plants will come up per foot.

Recruiting for sugar beet labor will start a little later. Those leaving for the farms will be given indefinite leaves.

To clarify the mix-up caused by the similarity of the names of the police department also wished Kiyoshi Higashi is the Police Chief and that Eddie Higashi is police interpreter.

Notification of the rule that all persons taking cars and trucks home during lunch hours must park the vehicles 25 or more feet away from the buildings was also emphasized. The rule also stated that vehicles must not be parked in alley ways or between barracks.

Registration for all bicycles in the center is being conducted today at the police station. All persons owning bicycles are required to register.

## KHAKI-WAACY?

It's usually young women who are khaki-wacky, and men who are WAACY wacky, but the 30-odd girls in the Granada relocation center want to join the WAACS, WAVES; or other auxiliary military and navy units according to the Granada Pioneer. Most of the inquiries have come from young women with business, educational, and occupational backgrounds, it was reported.

To assist resident taxpayers in preparing returns for 1942, a deputy collector of Internal Revenue will be here February 17, 18 and 19. There will be no charge.

The Legal Aid department urges all persons to file their Income Tax as soon as possible to avoid penalty and interest.

Manzanar residents are and always have been prohibited from going to the foot of the mountains for snow parties and hikes.

## EQUALITY SOUGHT BY DRAFT BOARD

Ogden, Utah, Feb. 3.—Appealing to industrial and business leaders of this city recently, the board members of the city's selective service board No. 4 stated "These men and women (meaning the niseis) have the same right to serve their country, if they have been proven honest patriotic Americans, as have other racial groups and they have the same right to participation in war work and production." This appeal was made before Secretary of War Henry L. Stimson announced that plans have been completed for admission of nisei into the U. S. armed forces.

This group urged that American born Japanese who have passed by proper investigation authorities as worthy of their citizenship should be given a chance to perform patriotic service to the land of their birth by participation in both war and private business.

The group realizes the problem of the nisei desiring to render patriotic service, not only on farms, industry and business, but also of military and naval installations, it was reported by the Salt Lake Tribune.

## NEW FIRE TRUCK DUE TO ARRIVE

One 500-class Fire Truck will be shipped to Manzanar as soon as it is available was the notice sent by the Ninth Service Command, Salt Lake City, Utah, to the local Fire Department.

A record breaking check-up was filed when it showed that no violations such as pennies or jumped fuses were found in last weekend's fuse check-up as reported by Chief Robert Kubota.

Many of the switch box handles were off so that the electricity could not be turned off except by pulling the fuse out. The Fire Marshal report for the week of Jan. 23 to 29, stated that in the 2611 inspections only 9 violations were found with one correction to be made.

## MAY ESTABLISH CO-OP OUTSIDE DEFENSE AREA

The Cooperative board of directors is considering the establishment of a cooperative wholesale outside of defense area No. 1 and No. 2 as a branch of the Associated Cooperatives of Northern California. Manzanar Cooperative is a member of ACNC.

Park Abbott, general manager of the Associated Cooperatives of Northern California has conferred twice with the local Co-op board on this subject. The proposed plan is to have this branch of the cooperative wholesale operated by a Japanese personnel, representing the Co-ops of the relocation centers in the western area, namely: Tulelake, Minidoka, Delta, and Manzanar. The earnings of this branch will be returned to the respective relocation centers.

The establishment of such wholesale will centralize the buying power, lower the cost of merchandise per unit, give added experience to the employees, increase possibilities for relocation, and create a closer relation of friendship with the outside.

## Committee on Resettlement

(Conclusion)

5. Among the letters and affidavits quoted in the Tolan Report (Fourth Interim Report, pp. 48-58) are found the following quotations:

a. "The War Department has received no information of sabotage committed by Japanese during the attack on Pearl Harbor," (Henry L. Stimson, Secretary of War, March 30.)

b. "Mr. John Edgar Hoover, Director of the Federal Bureau of Investigation, has advised me there was no sabotage committed there (in Hawaii) prior to December 7, on December 7, or subsequent to that time," (James Rowe, Jr., The Assistant to the Attorney General, written April 20.)

c. "... There were no acts of sabotage committed in the City and County of Honolulu December 7, nor have there been acts of sabotage reported to the Police Department since that date," (Honolulu Chief of Police Gabrielson.)

6. The criminal record of Japanese on the West Coast is the lowest of any racial group.

7. They have generously contributed to community philanthropic enterprises and to National Defense Bond sales. Public relief among Japanese has been practically nil.

8. The intellectual and educational standards of the Japanese Americans are among the highest of any racial unit in the country. Their Americanization has been more complete than most of us realize. They speak English fluently, and Japanese a little—if at all.

9. Japanese Americans who are released from the centers have generally been educated in our American schools. They have been raised according to American standards; they act and think as Americans.

10. The great concern of most of us now is that the long inactivity of these desirable people will reduce their skills, and that forced segregation from normal American life will have an un-American and un-Christian influence upon them. Moreover, if they are confined in camps for the duration of the war, their resettlement after the war—when competition and reaction will rise—will be extremely difficult, if not impossible.

11. The Government is already over-taxed with the care of the evacuees. The cooperation of our citizens will relieve the Government materially and present a humane solution of the problems of individuals who are deprived of their citizenship rights temporarily. Here is, indeed, a concrete Christian enterprise that is at the same time democratic and in the best sense of the term, American.

## Letter Denounces Petty Nationalism

"Instead of being the melting pot of every race and creed in a promised land, is America to fall into hostile groups of various nationalities with an Old World complex?" the question asked by one "R.U." of Hollywood in the Feb. 1, 1943, issue of the L. A. Times.

Addressing the Woman's Club of Hollywood, reporter Arthur Ponsford questioned the 130,000 Japanese (two-thirds of them Americans):

"Has anyone ever heard from these Japanese in America any protest against the brutalities which Japan has practiced on the Americans" from whom "you would naturally expect some kind of nationalistic expression?"

"For that matter," answers R.U., "has anyone ever heard any 'nationalistic expression' from the millions of German-American citizens repudiating the claim of the barbarous Schickelgruber that allegiance is due him from Germans everywhere in the world, regardless of their citizenship?"

Piqued into action by the familiar voice of a Quisling, R. U. concludes that we are "in a war that is horrible beyond the imagination."

## Money Received for Social Welfare Here; Letters Written

The Social Welfare Department announced that plans are being made to use the money received for Christmas gifts, for playground equipment for nurseries, kindergarten and grammar schools.

The money totaling \$386.48 was received from 464 different places. The Home Mission Council for Congregational Churches sent the largest amount in a check for \$189.55.

The grammar school children have written letters of thanks which will be sent out to the organizations. Typical of the gratitude for the gifts is this one written by Yuriko Horii, a fifth grader:

"Dear Friend, Whoever you are, I do not know you but I thank you very much for the Christmas presents you sent us. I enjoyed them very much. We all went to the Mess Hall and had a Christmas party. I did not think we would get Christmas presents here but we did and I appreciate it very much."

Another one reads: "Thank you very much for the gift I received this Christmas. I hope you had a merry Christmas. I wish I could shake your hand but I cannot go that far."

## Manzanar Library Progress Written by Ayame Ichiyasu

"With the 20,000 volumes in the library and the 24,000 in the textbook section, our task is to use these books to the best advantage and to fill in the gaps with purchases," writes Ayame Ichiyasu in an article describing the development of the Manzanar Library in the January issue of "Bulletin," School Library Association of California publication.

Ayame Ichiyasu, well known in Manzanar as former head librarian prior to her leave for Ann Arbor, Mich., is a graduate of the University of California School of Librarianship and formerly was employed in the California Academy of Sciences in San Francisco.

She describes the familiar growth of the library from the time of its first private circulation to the present when a part of the Education Department budget was used to secure elementary school books.

Over a thousand children's books have arrived and are being added to the elementary school library for the teachers' use in the school rooms. Later, these books will be circulated to the different libraries for public use.

## HOOPER TO SPEAK ON PROCUREMENT DR. LITTLE TELLS MEDICAL PROGRESS

"The Scope and Problems of Government Procurement" will be the topic for the third in the series of Sunday Evening lectures with Mr. E. H. Hooper, Chief Procurement Officer speaking.

The second lecture in the Sunday Evening Lecture series was held last Sunday with Dr. Morse Little, Project Hospital Director, speaking on "Recent Trends and Developments in Modern Medicine."

Dr. Little cited the increased interest in preventive measures. Better housing, he said, is serving to cut down the moribund rate. In the clinical field, one of the most important developments in modern medicine is the sulphur drugs, used extensively to combat pneumonia and venereal diseases.

About the prevalence of tuberculosis among Japanese, Little stated: "The Japanese people as a race are no more susceptible to tuberculosis than the white people as a race. Tuberculosis in its early stage is curable."

Contrary to popular belief, physicians do not receive high salaries. The average yearly income, stated Little, is \$1500 and, in rural districts, half that amount; a small remuneration for the approximately \$30,000 necessary for the education and training prior to entering actual practice.

A discussion period concluded the lecture and voluntary donations for the Manzanar Scholarship Fund were taken up.

## INSTRUCTION AGAINST RACE INTOLERANCE ADVOCATED AT FORUM

The economic and political problems of one minority being the problems of all minorities must, in order to cope with them effectively, be solved as a unit. The church, as one medium of public instruction, can help eradicate the "modern idolatry" of racism.

This was the consensus of opinion expressed at the Young Adults Christian Forum last Sunday afternoon when four well-known authorities on racial relations had a discussion on the subject "The Christian's Responsibility in Problems of Racial Minorities." The speakers were Rev. Norman Taylor, Maynard Memorial Methodist church in Culver City; Rev. Glenn Smiley, Methodist minister formerly of Redlands; Enrico Molnar, ministerial student from Los Angeles, and Rev. Henry G. Bovenkirch, returned missionary to Japan.

Rev. Marvin Johnson of Lone Pine Methodist church was also present in the audience.

"The solution of minority problems lies with the minorities themselves. The majority will never solve your problems," was

the challenging remark thrown out by Rev. Bovenkirch. By creating esteem and quality for themselves and by demonstrating that the minority groups can pursue a definite program for themselves will be a definite step in this direction.

Freedom from prejudice through open mindedness was advocated by Mr. Molnar.

Expressing his belief that the church had failed in recognizing the implication of Christianity as it applies to race, economics, and international relations, Rev. Taylor stressed the need to instruct the rank and file on racial tolerance.

To integrate all minority groups into one for greater effectiveness in solving problems was advocated by Rev. Smiley.

Ralph Smeltzer was chairman for the day. A saxophone solo by Henry Onishi accompanied on the piano by Miss Fukiko Komatsu was rendered during the devotional period.

The next forum was announced for Feb. 14, with Dr. Allen Hunter of Mount Hollywood Congregational church who will speak on "Christian Living in a World of Conflict."

## Meeting Dates for Scouts Changed

## BUGS HALT MAILMEN, 41-26 BABES BRIGADE DUMPS YANKS BRONCOS, BUGS, BABES IN 3-WAY TIE

The Pedro Bucs and the brother Buc Babes continued their hot pace in the Aye class, Saturday, the Mailmen and the Yankees, being the unfortunate victims. The curtain raiser found the Bucs downing the Mailmen, 41-26, on the No. 2 rec. court to remain undefeated with the Babes in the league.

Running up a 16-2 figure in the first quarter, the Bucs had little trouble throughout the game. The half-time score found the Bucs at the helm of a 26-13 score and continued with Murakami's right arm in uncanny form. The forward plucked 16 of his mates' 41 points to take scoring honors.

John Hanamura was the Bucs main resistance, keeping the Mailmen in the game with his dozen markers.

It was Durke Murata who led the Babes in a 20-20 triumph over the Yankees to pace the younger Babes in the title role. Murata, who plays in the far out guard slot, spelled defeat for the Yanks with his two handed set shots. All afternoon the mid-get guard pumped the pill over the Yankees' heads with the net getting its worst beating.

The Babes took the jump start with a 14-6 score at half-time. From there on the Yanks kept pace with the victors but the early lead and Murata's 22 points were too much.

### Sport Core

**NO LIMIT NOW**—When lanky Mailman, John Hanamura bucketed 28 points we thought it'll stay... but along comes Bel Aires George Okamura with a neat 30 digits... but one hour later the Vandal sharpshooter, "Sup" Myose netted 34 markers... and, at that. Sup played a few minutes over 2 quarters...

**MOVING DAY**—Last Monday was moving day for the Athletic Department. The new location is 14-15-1 for both boys and gals...

**HE'S DONE IT**—Do you want to be one of those uncanny shooters on the basketball court by swishing 'em thru the hoop while you're resting on your posterior extremity or while your body is three-quarters off balance... Then ask Peto T. Takeuchi of the Aces how it's done... cuz he's turned the trick...

**NOT SURE OF HIMSELF**—It all happened during the time-out period between the Aces-Yogores tilt that Koshi Ando (Oiler) yelped "What's the score?"... he looked perplexed when nearby fans giggled... it so happens he was just an official scorekeeper...

**SOMETHING NEW PERHAPS**—The Chicks call it strategy and the Phi's are still in a dither... commencing the 4th period the Chicks played catch just out of the shooting range... this continued for almost the entire 4th period... nothing much happened except that the Chicks won...
