So declared Dr. William Bruce, head of the Consumer Enterprises division, in passing out the policy given by OPA Regional Director DeLacey, who made a special trip) from his headquarters in Bakersfield, to confer with officials here on the latest shoe rationing order.

"A rationing procedure similar to that which is in operation throughout all the United States is being worked out for Manzanar," Bruce stated. "Shoe ration stamps (No. 17 is good for one pair of shoes until June 15) will be made available for all persons in Manzanar. This will allow purchases at the Co-op store here or through mail order sery ices."

Explaining the food rationing situation as it affected local resi-dents, Bruce said that since OPA requirements dictated that per-sons eating all their meals in res-taurants and mess 'halls must surrender their ration stamps to the resturants or mess hall all the restaurants or mess hall, all rationing of such things here were in the hands of the Mess were in division.

SPECIAL NISEL UNIT' EXPLAINED

UNIT' EXPLAINED Question of "why a special Japanese-American combat unit" instead of induction through the regular channels to be diffused into units composed of all other Americans of various national an-cestrics seemed to be the most frequently asked as volunteers were being registered. The question posed the old question of whether the forma-tion of a special unit would not hinder the advance of friendship among the American soldiers of Japanese ancestry and those of other bloods. The argument was advanced that mixing bf Japane would create friendships and un-derstandings and would help dis-perse the antagonisms and pre-(Continued on Page 2).

Abraham Lincoln

This marks the birthday of one of the most honored and revered of all the many great presidents of the United States. Much has been said and written about the "Great Emancipator" and many tales have been woven about his physical prowess, strong character and high ideals as to familiarize him to every American.

At this time it is fitting, however, to quote one of his famous passages which although said under another difficult and trying time, fits aptly into the present picture.

"Fondly do we hope, fervently do we pray, that this mighty scourge of war may speedily pass away. Yet, if God wills that it continue until all the wealth piled by the bondman's two hundred and fifty years of unrequited toil shall be sunk, and until every drop of blood drawn with the lash shall be paid by another drawn with the sword, as was said three thousand years ago, so still it must be said, that the judgments of the Lord are true and righteous altogether."

VALENTINE'S DAY

Tomorrow is Valentine's Day, a day for Cupid to spread his wings and run wild. But originally it began as a day of tribute to SI. Valentine, who, as a humanitarian contributed much for his fellow man. As the years went by, customs grew out of this holiday and today, it is set aside for all those for tunate people who have romance and sentiment in their hearts.

In spite of the surroundings, Manxanar will celebrate this holiday with dances galore. "Sweetheart Ball" and Valentine Lei Dance are two fancy names for the socials being sponsored in celebration.

Young and old can forget their worries for the day to liv 24 hours of happiness once a year,

RUSSIA'S ROLE IN WAR, PEACE

BURDEN OF PEACE

That the burden of peace after the war will rest largely with England and Russia is seen in their military pact. England, like the United States is a capitalistic country, while Russia is com-munistic; yet there are many things that they have in common. That two such nations, formerly things that they have in common. That two such nations, formerly unalienated, can work together peacefully will depend on the common' sense and good judg-ment that the two parties as well as all members of the United Na-tions employ, for a break in rela-tions among these countries would be to Japan's and Ger-many's advantage. It is a matter of record that the idea of spread-ing communism to other couning communism to other coun-tries, held by Lenin, was opposed by Stalin, whose tenet that com-munism must first work in Rus-sia before it can have influence, without force elsewhere strongly precludes inclination toward or instigation of European war. From music notes to Army jeep tires. Seems far-fetched but the connection is there. Stretching the point a little, but since this story is about rub-ber, the stretching is excusable) research experiments by the Guay-ule Project here conducted by Dr. Kenji Nosaki and his staff under the supervision of Dr. Robert Emerson have proved it so. The music is furnished by Fred Waring, he of the orchestra fame, and the tires are the hoped for finished products. During a recent visit here of Paul H. Roberts, associate director of the Department of Agriculture, guayule growing project plant in 10 minutes was demonstrated by Dr. Nozaki and his helpers'. Using a "blender," a machine with rotating blades somewhat like a vegetable juicer or a mechanical cocktail mixer, the guayule ing which separated the rubber from the grounds. Athough admitting it was still in the experimental stage, youthful Dr. Nozaki, already a noted professor at 26, was optimistic on the laboratory test conducted by the research staff. The old method, the "pebble-mill" method of grinding out the rubber took a much longer time and was complicated. Dr. Nozaki revealed. He hopes to improve the newly discovered method as to be practicable of harge-scale production. More, Fred Warings contribution. He is the alleged intro-ducer of the "blendor," although 1t is doubtful whether he had guayule in mind when he put it on the market. Dr. Nozaki is scheduled to speak before the Sunday Evening Lecture series on Sunday at 7 p.m., at 7-15. Fellowship to Have Dr. Hunter Speak

A. A. U. Organization Talk May Materialize Soon

By JIMMIE HASHIMOTO

Has anyone ever thought that there might be such a thing as harmony and fair play in the sporting world? If not, give a listen to the wares we have to offer . . . all in the way of suggestions.

of suggestions. Lately, there's been much side-line chatter about the organiza-tion of an amateur athletic asso-ciation. One which will have the complete governing power of the field and hold the respect of all at the same time. This whole idea was brought about through dis-cussions, the occasional letters received, and the constant com-plaints heard. We're also think-ing of the difficult predicaments looming ahead in basketball. looming ahead in basketball. Let's make this thing move along on the double quick. An atfiliated group as this will have much to do with keeping sportsmanship intact and on the honorable side. MAYBE with the backing and correlation of all these athletes it will iron out rugged creases. We'll have a banner club... what's anything better than rub-bing rivalry with sweet disposi-tions and minds... WHAT AND HOW looming ahead in basketball.

tions and minds... WHAT AND HOW This union will function as an independent branch, but will have to be the front for the rec. dept. when it comes to answering all club and personal arbitration ...the registration of every play-er before entering league compe-tition...a board selected out of the snorting nonulare by feir

the sporting populace by fair means of ballot casting. The aims of this association will not be only to eye the gen-eral course of activities but to establish and sponsor other kinds estations and sponsor other kinds of recreation and whip up a pro-gram in which they will be able-to raise an athletic fund for ne-cessary equipment, awards, social affairs and etc

cessary equipment, awards, social affairs and etc ALREADY MATERIALIZED It seems that this idea has al-rendy materialized in some of our neighboring centers, Tuleiake and Heart Mountain, are in the midst of such a process. This has been long overlooked in the scurrying of setting a sports world for the impatient ones and has thus gone in that manner through the season of baseball. There was a time that a club of this nature would have come in mighty handy. In order that we may be able to guide the hoop season to a somewhat memorable one...How's about giving this quizaroo a once over through that gray matter?

r 4th victim in the twice beaten Padres. The former with a much faster team will be favored tho the Sierra hoopsters have a few fine players in Hattori, Higgshi and scrappin' little Maguda. The Gophs as usual will be led by pivot man Dan Fukushima, along with Kayasuga and the Gotos. The 1:15 scrap will bring to-gether the Ace basketeers, still recuperating from the Knights' set-back and the Rats who've yet to taste victory.

This afternoon's classics found the Olivers playing host to the Manzaknights and the Zeros bat-tling the Yogores with the first teams mentioned the probable winners.

Bel-Aires-Spartan Hoopfest Tabbed Top BB Billing

The Bel Aires will tangle with the Spartans tomorrow, in the nightcap of block 15's double bill, to top Double B's Sabbath Day calendar.

calendar. The Aires, with two wins and a loss, will depend heavily on George Okamuro for the attack while the Spartans, with no de-feats in two starts, will have sure shot, Sat Sakuma, on deck. The contest should be an even match with the Bel Aire boys towering in height, but the Spar-tans have yet to be defeated. The first feature-on the same program is the Toppers-Manza-knights match.
