ACTION SHOWS LOYALTY, **DECLARES CHANDLER** 2-DAY INVESTIGATION OF CENTER CONDUCTED BY SENATOR CHANDLER

Loyalty to a country should be expressed in action, not by mere words. Pointing out that the recent action by the War Department gave the Japanese-Americans an oppor-tunity to express their loyalty in a concrete manner, Senator

A. B. Chandler of Kentucky, stopping here for a two-day in-spection tour of the center, em-phatically disclosed his attitudes on the loyalty issue.

on the loyalty issue. "Those loyal to this country should be willing to fight for it," he said. "If they are ineligible to serve in the armed forces, they should be willing to work for the country in every possible manner, in essential industry, farming, or anything else to help the couniry.

When confronted with a state-ment attributed to him quoted from a Los Angeles paper that "the Senator (Chandler) has advocated withdrawal of citizenship from Japanese - Americans" Chandler denied it emphatically.

"I have nevér advocated with-drawal of citizenship from any group that is loyal," he said. "My point is that loyalty must be shown by action, not by words." Declaring that papers often-times 'misquoted or misrepre-sented statements unintentional.

sented statements unintentional-ly, Chandler declared he had no animosity against loyal Ameri-cans of Japanese Ancestry. In fact, he declared he had some very good Japanese Friends who attended school with him. But, he added, we are at war now and anyone whose sympathies are with the enemy must be treated as such. He firmly believes all such should be segregated from the others and kept in separate

No comments on the investi-gation of the center was forth-coming from the Senator who disclosed that a preliminary hear-ing on the inspection will be con-ducted in Phoenix. Ariz., when he will meet the other members of the Senate military subcom-mittee which is conducting a four of all relocation centers on the administration and the con-duct of the centers. On the first stop of the tour, Senator Chandler was accompan-led on the trip by Mrs. Chandler, George W. Malone, advisor to the subcommittee, and a group of Army and FBI representatives. The party arrived here Wednes-day afternoon and after a prelim-inary inspection retired to Lone Pine, returning Thursday morn-ing to complete the tour of the center. The group left at noon to head for Phoenix meeting. A compact, well-built man, Senator Chandler, formerly serv-ed as the governor of Kentucky, Mrs. Chandler for the present is

However, he admitted smiling, that he failed to discov-er any "tiled baths" here.

Shoe Ration Cards To be Ready Soon

IU IIC RECAUY JUUII "Shoes may be bought at Man-zanar to the same extent and to the same degree that shoes may be purchased elsewhere. Pur-chase of shoes either at the Co-op store or by mail order from outside stores may be made with ration certificates available to all persons at Manzanar," stated Dr. Wm. J. Bruce, Superintend-ent of Consumer Enterprises. Due to the lack lof any previ-ous organization and the inade-quate supplies available at Lone Pine, the rationing machine at Manzanar has been rather slow. It was announced however, that it is the intent of the WRA staff to make certain that everyone receives a shoe ration certificate. Persons wishing to buy shoes through the mail may obtain a special purpose certificate which, when properly endorsed, is us-able as a ration certificate. Because the OPA office in Los Augeles does not have sufficient special purpose certificate difficulty

Because the OPA office in Los Angeles does not have sufficient special purpose certificates avail-able, plus the clerical difficulty in registering 10,000 persons and providing them with ration certi-ficates, it was decided to estab-lish a temporary procedure at Manzanar. This has been in op-eration since the second week in February. Under this proced-ure, any person wishing to pur-chase shoes applies at the Ration clerk office in the Administra-tion building for a certificate and is given a mimeographed author-ization which is accepted at the Cooperative store. Those wishing to buy shoes through the mail may also obtain a special pur-pose certificate which when pro-perly endorsed is usable as a ra-tion certificate.

THOUGHTS ON GRADUATION

It used to be that commencement time was an occasion for rejoicing. It used to be that, in the years before the war graduation from school for a boy or girl, meant looking forward to further education or a civilian career.

Today's war-borne spirit of youth in the American communities is one of resolve and the will to win this strife. "Life is real! Life is earnest!" At the threshold of their undoubted adventurous future, these first 85 graduates of Manzanar's school find themselves on the brink of a decision with farreaching consequences that perhaps cannot fully be appreciated by any of us today.

Abetted by aircumstances, we have become prone, not only to accept, but even to look for the worst possible inter-pretation of our present and future in America. One cannot but sympathize with the problems of our graduates, but to condone them would be fallacious. Human problems have not yet been invented which cannot bear confronting and ultimately be solved.

Their perseverance in the pursuit of their studies in the face of interruptions and inadequate facilities is to be commended. The faculty merits praise for venturing to this outof-way community. Heartfelt thanks of the graduates, their parents and the residents-at-large go to them for turning out the first commencement class

ON THE

Danger of Disease From Local Animals Twin Pines Trail **Told by Little**

Warning the residents that tu-laremia and bubonic plague can be acquired through handling of local wild animals, Dr. Morse Little, issued a statement sug-gesting extermination of captured note "Membership in a Cooperative shall be always open . . . There shall be impartiality in religion, policies and race."-Rochdale principles. pets.

"It is extremely unwise for any person to keep in captivity wild rabbits, chipmunks or ground squirrels," Dr. Little stated, "since the disease of tula-remia or bubonic plague, can be easily acquired by handling these animals."

The Manzanar Cooperative En-terprises, Inc., has reached a stage in its development where we can sit back and take stock of the organization we have cre-ated. In taking stock of; such an organization it is necessary to refer back to the fundamental principles which are a guide to all cooperative organizations. This means that we need to re-view the Rochdale cooperative principles. In so doing, we find that the by-laws of the Manzanar Cooperative needs revision in order that a fundamental defect be remedied by really providing that membership shall be open to all persons in the community. Now, that the membership campaign is largely completed and the rebates on an established and the rebates on an established process, we can. well turn our interests fowards the clearer ap-precisition of the cooperative way of life. animals." Dr. Little suggested that resi-dents with these rodents for pets should either set them free or ex-terminate them. "Wild rodents in their natural habitats are far less likely to spread the disease than if they are kept in captivity near human beings," he said. It was explained that this was a precautionery warning and that

BIRTHS First of the cardinal assertions is that co-op memberships shall be open. This eliminates the prob-ability of becoming a closed cor-poration where the original shareholders will control the poli-cy and rake off the profits. This open membership assumes greater significance when joined by the second point emphasizing democratic control. Regardless of the number of shares owned, each member shall have only one vote and thus a potentially equal voice in the conduct of the co-op. With the amplification in the "secondary" points, which are frequently given equal billing with the first part, that co-ops shall be impartial and neutral in matters relating to religion, poli-tics and race, our keystone be-comes unmistakably evident. That term "neutrality" is more a positive than a negative form and promulgates the co-op's con-viction that religion, politics and race ought not be barriers among men. The co-op is international in scope appearing in all major countries. It is enthusiastically advocated by Catholics like Fath-er Tompletins and Protestants like Kagawa.

Heading for Tulelake next week is Ralph Smellzer to con-fer with the project authorities on behalf of the Brethren Relocation Hostel. He will return to Man-zanar, then proceed to Poston, Gila and Granada relocation cen-ters for similar conferences be-fore going to Chicago, with the third group of hostelers. Mr. and Mrs. Ralph Smeltzer are now directors of the hostel.

advocated by Catholics like Fath-er Tompkins and Protestants like Kagawa. Examine then an early para-graph in our Manzanar Coopera-tive by-laws: "Membership shall be open to all evacuees of the Manzanar Relocation Center ..." We have set up a wall in shut-ting out the appointed personnel who are here to help us and large-ly share our way of existence. It is up to the people to recog-nize this discrepancy and amend this section of the by-laws. Be-cause most of the AP's were not here prior to last fall, member-ship might be made available to them upon payment of the five dollar membership fee. When 50 have subscribed, they would be entitled to a Congressman, or a Congresswoman, we'll bet--and on the road to "Democracy in Action."

Grandstand H. OGAWA HEADS By JIMMY HASHIMOTO

The adage of all good things coming to end could well express the crucial climax of the casaba finals for all the circuits. Take Inais for all the circuits. Take the duo Aye—what a mixup... the highly touted Gophers were finally set back by the Zeros, making it one of those exciting 2-way knotted affairs between them with 5 wins, 1 loss, The team of Gophers who were exteam of Gophers who were ex-pected to find an easy prey in the Yogores, will not be seen in action for a few weeks due to circumstances. The Zeros may find a li²l more than they figure on in tackling the much improved horde of Olivers.

THE BIG "IF" QUESTION

THE BIG "IF" QUESTION A load of credit should be giv-en to the Olivers' maestro, Eddie STauruta, for the progressive Y. Hamamoto. U 7 showing his team has been head-ing, evading the threat of defeat in 4 starts and more recently bingled 2 losses, handed them by the two top flighters, Gophers the Aces a run for their money by almost capsizing the favorites. THE SCORING ITCH

It doesn't take the players long before they move right in the groove of outdoing the other in the scoring race...John Hana-mura's lead in the A race...Roy Ishihara's recent established 50 points for one performance...to be recorded the highest scoring company, all goes to the Pedro Buccancers. Unknown at the time of publishing the A loop scoring company, all goes to the Pedro Buccaneers. Unknown at the time of publishing the A loop scoring results, news was in the making by Nob Murakami and Bues In-corporated against the winless Dirglehoofers. Chalking up 124 points to their adversaries' 41, a new king pin in individual scor-ing was recognized in Nob with 60. Incidentally, every member on the team added to their ered-it, as the two forward regulars scored 18 apiece and guards and center all gained 10 apiece. Now this makes the highest mark at-tained by forward as well as guard on that red letter day. In the books, it reads, Murakami anead with 139 for 7 games, an average of 20 per game. NAT'L SCORING What would the gals' National basket loop have been without Haru Ogawa of the Champ Wind-breakers? Not only did this Miss make off with the highest scor-ing in one game with 23, but folded the term also hitting the hot spots in the individual race with a total 76 points. Following Ogawa in the neck-to-neck finish, one point shy came Jr. Misses' Grace Odahara with 75. She came in second best, netting 16 in one performance. NATIONAL LEAGUE Name GP FG FT TP H. e for the crown in case of a win with the Gophers who also have one defeat mark chalked against them. Both the Zeros and Olivers received their first losses from the hands of the Golden Aces, the team that really burned up dur-ing the latter part of the season. Block 27's hoop squad will as usual depend on the magic hands of Weesh and Mas Takahashi to pot them or → the important win while the Oliver outfit will bank mostly on the playing of Jachi Ukita, Dick Sakamoto and Joe Okabe.

Okamuro's 90 Pts. Tops BB Chase

With a 15-point average in 6 tiffs, George Okamure, burly for-ward for the Bel Aires, cinched his position as top man for the double B loop, making his total 90, good for the season. With still another game to go, he should well heap up a final count over the century mark. By hanging up 10 points in his final game, Min Imai of the Knights took second spot with 70 points.
