#### OBJECTIVE RE-STATED-

OBJECTIVE RE-STATED—

It is true. A primary function of the WRA project newspaper is to interpret and transmit policies and instructions of the Authority from its Washington headquarters via the project director's himself to the residents. But the presumption that therefore the publication is the sole organ of the administration is erroneous.

The very fact that the press performs this task for the management, which administers affairs solely for the benefit of the evacuees, would adequately refute the presumption stated above. To restate the proposition: If our press were, financed by an industrial firm, and read by its employees who were earning normal wages and were living under normal conditions, then the presumption may be justified.

Administrative news releases in Manzanar, incidentally, amount to volumes ranging from three per cent to eight per cent of the total space available in a month's eight or nine issues of the publication. Statistical figures released by the documentation section of the Office of Reports adds that, for instance, recreational and sports news occupy about 20 per cent of the total space and a given month's editions.

An our ements from the administrative departments, by the newspaper invariably have to do with the welfare or activities of the residents themselves. The entire administrative machinery comprising the War Relocation Authority created by the President, financed by \$70,000,000 appropriated to it from the United States Treasury Department for the last fiscal year stands behind an evacueer residing in this project, he is able to keep abreast with the policy developments charted by the Authority for the evacuees.

#### WHAT IS HARDSHIP?—

To this query, General Hershey of the selective service head-quarters replied that a man with an invalid wife and several children to take care of during his hours at home, in addition to carrying on at his job, may describe a person undergoing hard-

ship. Of course, the general was talking in terms of the army draft. But essentially the question is relevant to the evacuees as well. We talk about it often enough. What is hardship here in terms of the evacuation experience and encampment in this project with its 'admitted physical limitations—which are no longer mandatory? Is an average man here who is receiving food, medical care, housing and admittedly limited eash allowance for himself and his family; is he undergoing hardship in the sense that the general describes hardship? Relationships among such elementary factors as comfort, security, wealth and productive service of individuals do undergo such drastic changes in wartime,

#### YESTERDAY IS NOT TODAY-

YESTERDAY IS NOT TODAY—
The uneasy atmosphere at Manzanar created by a stream of false rumors has blinded many of us to the most important phase of our resettlement program. We know that a considerable number of residents have resettled to scattered communities in non-restricted areas, but many are bound by an unworthy, revengeful feeling and too stubborn to consider the thought of breaking it, we cannot see the true significance of this program. We understand and can appreciate the points of view held by many of the evacuees. True, we were deprived of cherished privileges offered only by the United States and many were harshly treated. But this was yesterday.

Can we keep this egotistical attitude and expect to achieve a quick recovery from the depths in which we find ourselves? Can we ask Americans with a growing enthusiasm for nisei acceptance to aid and employ resettlers if there is suspicion of this resentment in evacuees wishing to resettle? We must abandon the thoughts of the past which are preventing us from rehabilitating ourselves and returning to the normal life we so dearly erave.

They are strong enough and unselfish chough to forget the past and look into the future not only for themselves but for the next generation. They are the ones who will determine the attitude of the Americans toward us after this war is won.

Those who are expecting "this outside world" to be a "bed of roses," are kindly mistaken. There will always be hardships where ever you go; when ever you go from now on. Sincerely, Hana Ruth Imai.

#### **BLACK DRAGON FANTASY-**

Momentarily daunted by the dissolution of the Comintern, Martin Dies has now discovered the shadow of a black dragon's wings hovering ominously over the length and breadth of America. You really have to hand it to our legislative sleuth. The fantasy of bearded Communists with smoking bombs having palled on the public, he has now conjured up "gryphons with great metal flanks" to keep the D.A.R. and little children awake o' nights. Brrr! For sheer terror, this has the red menace beat coming and coine.

great metal Hanks' to keep the D.A.R. and little children awake o' nights. Brrr! For sheer terror, this has the red menace beat coming and going.

And the Texan has had nothing more substantial to work with, mind you, than the release of a few thousand Japanese-Americans from the relocation centers into which they were unceremoniously herded after Pearl Harbor. An untold number of these, according to the chief investigator of the Dies Committee, received training in an espionage school operated by the imperialistic Black Dragon Society of Japan. These secret agents are members of an organization terrifyingly titled the Butoku-Kai, and are prepared to unleash a wave of destruction upon the United States. Ten thousand of them, said the Dies investigator, are now in this country. The Dies Committee hasn't said so, but we suspect that somewhere at the back of all this stands the tall, fearsome figure of Ko-Ko, the Lord High Executioner. And there ought to be some place in the scenario for the mysterious Dr. Fu Manchu.

NO REASON FOR CONFINEMENT

The somewhat synthetic nature of Martin's dragon is re-

Manchu.

NO REASON FOR CONFINEMENT

The somewhat synthetic nature of Martin's dragon is revealed, however, when the facts of the situation are examined. Most of the persons released from the relocation centers are citizens of the United States—which means that they were born, in this country—and have never been in Japan in their lives. They could have received the training of the Black Dragon school, therefore, only through correspondence courses, which are not generally considered effective for instruction in espionage. The War Relocation Authority, before releasing anyone, makes a painstaking investigation of his past and then double checks its findings against the records of the FBI. The truth is that there is no more reason for the continement of these Americans of Japanese ancestry than there is for the confinement of Americans whose parents, grandparents or great-grandparents happened to emigrate to this country from Germany or Italy.

One may reasonably ask by what authority the Dies Gommittee injects itself into this situation. The problem, if any, is one for our duly constituted security agencies. Until the FBI and the intelligence branches of the Army and Navy hear the whirr of dragon wings, we think the Nation need not tremble. As for Mr. Dies, he might usefully remember his recent pledge to end the work of his already celebrated committee and attend to the business of legislation for which his Texas constituents sent him to Washington.—The Washington Post, Washington, D.C.

He also noted the connection between unfavorable newspaper publicity and community attitude; community feeling varying with the amount of newspaper publicity. He illustrated this by giving quotations from the New York Times and the Los Angeles-Times in their handling of events of certain days.

Another important fact is that the bulk of magazines are published in the east and midwest. The magazine publicity on relocation has been almost unanimously lavorable, he said.

# SKIPPERS AND KNIGHTS WIN IN FIRST AA LEAGUE OPENER

#### SKIPS DOWN YBA 7-2; League Opener

The lid of the coming softball season in the Double Aye brack-et was officially ripped off Saturday evening when A. Hashimo-to led the Skippers for a 7-2 vic-tory over the YBA nine.

tory over the YBA nine.
Skippers grabbed a quick lead in the initial frame as three digits were scored by Tatsumi, Kawachi and Takade, all given life on a free pass by the chucker.
Third inning found the Skips piling on more to the burden of points as Kawachi and Takade again scored after getting a walk.
Two more were scored when Murata scored after getting "FC" in the 4th, and as Yamasaki crossed the plate thru an error.
YBA chalked a point in the first and again in the last.
