With their office located on the 11th floor at 150 Fifth Avenue, New York City, the Advisory Committee for Japanese Americans combined recently with the Committee on Resettlement of Japanese Americans and other agencies interested in nisei resettlement for the purpose of working in full cooperation with the War Relocation Authority and its Relocation Supervisor Robert Cullum in New York.

The telcphone is busy with calls from prospective employers looking for help, chiefly in household service. We think that those who come from the Relocation Centers to settle in these parts will not have difficulty in finding employment," they announced.

Japanese Americans from Centers Working on Farms

About 1.200 workers from the WRA relocation centers, all of Japanese ancestry, are at transient labor camps and many more have left the centers to take seasonal and year-round employment on farms. These people were evacuated from the Pacific coast and quartered for a time in relocation centers. Now they are helping in the production of food needed by our soldiers and civilian population, WRA officials report.

been able to consolidate and lock up its new possessions and all their valuable resources in the occupied territories surrounding the China Seas, she has been repulsed by the steady and brilliant fighting of the forces of the United Nations, Herbert V. Evatt, Australian Foreign Minister said recently.

At one time there was every indication that the enemy would continue its tremendous southern thrust. "At that time," Mr. Evatt said, "not a single modern fighter aeroplane was available to the gallant defending forces." Through lack of manpower, aircraft and other equipment a large portion of Australia could not have been defended during the period in question, it was revealed by American Army authorities. There is no telling what the result would have been if New Guinea had fallen and the Australian mainland had been attacked immediately. The dangers in the Pacific were not confined to Australia. The weak position in New Caledonia and the immediate fate of New Zealand was largely dependent upon the fate of Australia.

The Problem of Minority Groups

The Problem of Minority Groups

It is particularly timely that we discuss minority groups, not because of the greater part of this audience is obviously involved —a large majority of the world's population also faces this problem. Too common is the tendency to forget the other fellow, and think only of one's own group. There are many other minority groups besides ours. Racial, religious, maybe political, economic, or social minorities. We represent but a tiny portion of the total minority groups in this country.

Contrary to popular beliefs, we are not the only minority group who has been moved out from our homes because of the war. Many share-croppers from West Virginia have been moved by the Federal Government to New York State to meet the manpower shortage there. Simllarly, many Mexican laborers are being brought to the United Statek. In the Orient, 15 million people who lost their homes moved from Eastern to Western China. In Belgium, the German government forced a great movement of farmers into Nazi-occupied Russia. There are many others who have suffered beside us. These people must take up a new lease on life, just as we are about to do.

Is it not up to us, the present young generation, to create a feeling of universal understanding between all groups by our actions and conduct? In this way, we will be ambassadors of good will, and succeed in building up friendship and understanding between racial groups, and perhaps a lasting peace to this troubled world.—Yoshiaki Nakayama.

Commencement. July 3, 1943

Today at this hour of our commencement the world is at war. W.r.! An electrifying word which sends multitudes of people shuddering at the sound of it. A word which makes man lose his level head and revert to the ruthlessness of barbarie people. After less than twenty-five years of comparative peace the interno of war again sweeps over the world spreading halocaust and destruction. Beyond these lofty mountains man has lost his sanity and is busily engaged in the destruction of his fellow men and the disintegration of his wonderful works.

Fate has isolated us from that world of inhuman killing and man-made suffering. Instead of fearfully awaiting sudden death, we, the seniors of Manzanar High School, tonight await one of the most important events of our life. Shielded from the chaotic world in the serenity of this valley one hundred and ninety-five students will soon receive their diplomas in the exercise tonight. Tonight is the commencement for the summer class of 1943.

But tonight, perhaps, may prove the greatest commencement of our life. It is the commencement of adulthood, of young new most of us have been going along the road of life together, but tonight marks the beginning of many forks in that road. Many of us will part to engage in different professions and types of work in various sections of this broad nation.

We cannot and must not be contented with conditions which may lead to a repetition of such a war as is raging today. We, the summer class of nineteen hundred and forty-three, builders and moulders of the future world, must face reality, be willing to meet the problems created by the war, and seek to make a better, saner, and a more peaceful world.—Roy Tods.

At the call of "play ball," Nob Hino of the All-Stars came up to plate to get a base on balls and again followed by George Sugawara who also received a free pass. Coming up to bat next we saw Shig Morikawa bang a double, secring N. Hino, and a bad throw from center field G. Sugawara came in to make the score 2-0. The All-Stars again tallied in the 2nd inning, when T. Kitaoka walked, stole a base on a wild peg from the catcher then another bad throw from; the shortstop forced him all the way home to make the lone score of the inning.

3rd inning found ever reliable Maxie Uragami on base registering another hit, then moving to 2nd on a stolen base. Filling the lst bag next was Isao Higashi who walked pleasingly as he placed his twinkling toes on the initial sack hoping to be driven in. His wishful thinking came to its termination when Uyematsu, and Shimizu flied out, Ohara walked filling the bases then Fujii's try at bat was also a pop out retiring the side with bases loaded, no hits, no runs, and no ered, no hits, no runs, and no ered, no hits, no runs, and no ered. ed, no hits, no runs, and no er-

Lanky Kawachi coming to bat next and to go down swinging was the 1st out of the inning. N. Hino on a "FC" reached 1st scoring Kitaoka when the play was juggled and all was safe on the battlefront. Loosening up for the next pitch was G. Sugawara who also hit into fielder's choice and after S. Morikawa's hit and Yoshiwara's "FC" was 'put out by H. Tashima who relieved Sat Mitsui. The never say die Has Beens chalked up another lone run as H. Tochioka, who had walked was chased in by J. Okabe's hit to left.
