VOLUNTEER FROM IDAHO

VOLUNTEER FROM IDAHO
Pvt. George Hosoda, for example, volunteered from the
"free zone" of Emmett, Idaho, because of his conviction, he says,
that he had to do something for
his country. On joining the Army
he made his first trip beyond the
boundaries of his native state.
Pvt. John Ishikawa saw a
news-reel account of the Japanese American Combat Team at a
theater in Cleveland, Ohio, and
decided then and there he should
volunteer. On his 18th birthday,
after graduating from the John

his draft board and was accepted.
He doesn't regret his choice, he
says, and doesn't believe the

Recruiting For Camp Savage to Commence Soon

United States Army has announced a plan in line with the total war effort whereby all loyal Japanese Americans will be given an opportunity to participate actively in the war effort by utilizing their special talent, in the Japanese language, according to an announcement from the project director's office. The office also disclosed that both Colonel Kai Rasmussen and Lieutennt Earl T. Gould, scheduled to visit all ten relocation centers, are due here during the first week of August to recruit more men for Camp Savage Language School, in Minnesota.

Anyone interested in this should contact Arthur Miller at the Employment office, 1-5-1 to fill out a personal history

NISEI'S LOYALTY

NISEI'S LOYALTY
Citing Japanese American loyalty, Colonel Kai E. Rasmussen declared, "The nisei have already responded in great numbers. Some have participated in actual combat in Europe, Africa, the Pacific, India and Burma and have shown in action those qualities of loyalty and devotion worthy of the finest traditions the Japanese in America have long upheld. They have won genuine praise from every sphere."
Colonel Rasmussen concluded

Colonel Rasmussen concluded by saying, "The time is now here when all men who claim birth in when all men who claim birth in America, regardless of race, color, or creed, must arise to defend her either, on the battle front of the production front. The niseis are charged with the mission of playing their part at this time or national peril by offectively and wholeheartedly utilizing their peculiar and special talent in the Japanese tongue. Nisel's course of action in this present crisis will decide the future of the American citizen of Japanese encestry. It is ardently hoped that not only the nise themselves, but their parents will give this their most careful consideration."

Request Filing Of Claims For Bank

Any depositor who had an account in the Sumitomo Bank of California at Sacramento, California and has filed a claim but has not to date received a rubber stamped endorsement notice with information of his claim, is requested to contact this bank, according to the bank's Special Deputy George H. Mills.

Mr. Mills also said that depositors of this bank who have not filed a claim on their account should immediately contact his bank and request that a proof of claim form be sent to them in order that their claim may be on record before November 1, 1943.

Rules Concerning Leaves Clarified

In an effort to clear up confusions concerning whether or not persons granted indefinite leave may return to the center, Mr. Merritt, project director, has issued a statement outlining policy followed in this respect. In general, Mr. Merritt said, persons granted indefinite leave may return to the project infrequently at their own expense, for social visits, to take care of emergencies arising from illness or other matters, or for residence if it is impossible for them to get along on the outside.

Mr. Merritt further stated that social visits were limited due to the fact that a military permit was necessary for their travel within the restricted area and that the military authority would not grant travel to persons who have been away from the center for only a very short time, except in cases of emergency.

According to Mr. Merritt, there has been considerable complaint of young people leaving relocation centers for indefinite leave and then returning to the center after having spent their money on travel and a good time. It is felt that this practice would be very harmful to public opinion.

No individual, said Mr. Merritt, should leave Manzanar on indefinite leave merely for a vacation and a good time. It is desired to release on indefinite leave, only such persons sincere in their desire for permanent resettlement, and the WRA will give all possible assistance to such people. Before indefinite leave is accepted, it should be realized that friends will be missed and life, ed, it should be realized that friends will be missed and life everywhere, has its occasional rough spots.

Pebble Picker In Maroon

Rain or shine, those employed in the vicinity of the Administration building are attracted by a little man in a maroon jacket, pushing a wheel barrow, stooping frequently here and there picking up pebbles and papers from the walks. This quiet, short-statured character upon interview was revealed as Hidesulid Yamamoto, who tips the fairbank at an even 100 pound packed into five feet of human flesh and bones, depicting a picture of an incessant laborer so typical of the issei generation.

Mr. Yamamoto greeted the world on May 2, 1873 in Kumogun, Hiroshima, Japan. At the tender age of 17, he set foot on the promising shore of United States. Starting out as a common railroad laborer, he experienced a variety of occupations, listing kitchen works, dish washing and farm labor, prior to his days as manager of a pool hall in Brawley. He also picked grapes in Fresno prior to evacuation. Claiming the title of a pioneer in this center, Mr. Yamamoto arrived with the initial contingent of volunteers in March 21, 1942. He was accorded special recognition at a recent volunteer banquet for his incessant service rendered in the past. He spends his leisure time making furnitures with scraps of wood which he collects while keeping the ground in order. His favorite music is the old fashlon Japanese "maniwabushi." As to food there's no argument as to prefered me missing he prefers sticks to a soft diet.

His plans for the future are indefinite but his dream of heaven on earth is a little fruit orchard that he can call his own. Rain or shine, those employed in the vicinity of the Administra-

GOOD JOB OFFERS IN MIDWEST AREA

There are a number of very good openings in the northeast and middle west section for relocation, the Relocation Office announces. Some of these are in localities where living costs are comparatively low. Wages in such localities are lower too, but this does not adversely affect the standard of living which the wages will provide. America's Leaders Say
"No loyal citizen of the United States should be denied the democratic right to exercise the responsibilities of his citizenship, regardless of his ancestry. The principle on which this country was founded and by which it has always been governed is that Americanism is a matter of the mind and heart; Americanism is not, and never was, a matter of race or ancestry. A good American is one who is loyal to this country and to our creed of liberty and democracy. Every loyal American citizen should be given the opportunity to serve this country wherever his skills will make the greatest contribution whether it be in the ranks of our armed forces, war production, agriculture, government service, or other work essential to the war effort. President Roosevelt.

"We in America are in a real sense the apostles of the future; we show the rest of mankind what men of diverse races and cultures can accomplish with a common good will. We Americans of all races and creeds, fight the evils of despotic and selfish militarism. There can be no compromise between ourselves and the arrogant exclusiveness of self-styled men-Gods of Japan—no more than between ourselves and the self-styled Aryans of Germany. In our war—against caste and privilege, wherever they may exist or occur—the contribu-tion of Americans who are of Japanese descent is of real value; first, because they are a living proof of our non-racial free unity; secondly, because they make a valuable and wholesome contribution to the sum total of our American civiliza--Joseph P. Grew, former Ambassador to Japan.

LITTLE TROUBLE

"I want to mention briefly the work which the bureau has performed in the field of enemy control.

"Immediately following the incident at Pearl Harbor on December 7, 1941, we were called upon to effect the apprehension of potentially dangerous alien enemies...

"The action taken and the prompt manner in which it was taken, took out of circulation those individuals who might have been the nucleus of any espionage or sabotage rings of either Japanese, Germans, or Italians in the United States.

"I think that this is the reason why we have had so little trouble from subversive agents in this country at the present time. Of course, we are constantly on the alert as to the activities of such groups that are still in the country in the alien enemy class."—J. Edgar Hoover, Federal Bureau of Investigation

gation. BACKGROUND FOR STUDY

The employment data which were contained in the written statement have given us a comprehensive background for study of this possible source of labor supply. As I understand it, the War Relocation Authority has formulated an employment program for those of Japanese ancestry who have been evacuated from the West Coast to encourage their employment and adjustment, under proper safeguards, into the customary channels of American life. This policy should have the dual effect of benefiting the evacuees, many of whom are American citizens, and of making available to the country several thousand people for employment on farms and in in-

dustry.
"The War Manpower Commission thoroughly endorses the employment program developed by the War Relocation Authority and assures it the continued cooperation of the United States Employment Service in its recruitment and re-placement activities."—Paul V. McNutt, Chairman, War Manpower Commission

"The War Food Administration urges the use of persons of Japanese ancestry released by the War Relocation Authori ty to work on farms. Thousands of these workers were used successfully last year and are now helping to produce vitally needed farm products. Additional labor is needed. Those who cooperate in making the best use of this valuable source of farm labor are rendering a real service to the United States and the war effort."-Chester C. Davis, War Food Admini-

Relocation Officers Announce New Goal

Announce New Goal

Relocation opportunities for a number of families in a single friendly community was announced this week as a goal of relocation officers throughout the Middle West. High hopes for the success of this plan in the area of a number of small American cities was voiced this week by Elmer L. Shirrell, Relocation Supervisor in Chicago.

This new effort of the War Relocation Authority recognize two shortcomings that have been inherent in the program. In the past, it has been difficult to obtain opportunities that would support a family. It has also been difficult for individuals and families to leave a relocation center for restifence in a new community where there would be no friends to assist in time of need. The plan, as discussed in a recent meeting of relocation supervisors in Washington, would entail enlisting the cooperation of civic organizations, churches, employers, and towns between the population of 1,000 and 10,000. With the aim of finding relocation opportunities for about six families in each town, it is expected that a description of the town, perhaps even photographs, will accompany the offers to assist evacue families in selecting their new homes. sist evacuee families in selecting

sist evacuee families in selecting their new homes.

After only one week's work, Snirrell reported that there was every indication of immediate success for this plan. He further pointed out that time element was important since the farming season in the Middle West will be largely past its peak within 60 days.

days.
It is suggested that five or six days.

It is suggested that five or six families related by blood or who have been former neighbors prior to evacuation or who by association desire to remain together can now be relocated in one community so that they may continue to assist each other and so that loneliness will not be felt.

The plan also will offer farm employment to a number of issess and will allow the grown children in such families to live in a nearby town where urban employment is available.

WE. THE PEOPLE

By DENNIS SHIMIZU

(Mr. S. Sugimoto's answer to my column of July 10.)

Mr. Shimizu and I have known MIT. Shimizu and I nave known each other for quite awhile and often eat together at messhall one. Therefore, if there were any doubts, he would have consulted me. But, unexpectedly he published an article, which I believe was meant to have someone answer it.

Dear Sir:

Dear Sir:

The Co-op accounting office has been charged with refusing a certain member the privilege of reviewing the past financial statement. I wish to state that I have refused no one in the past, nor will I refuse any inquirer in the future. The principal duties of my office are (1) to keep accurate accounts and (2) to publish the financial condition of the enterprises to all its consumer ownterprises to all its consumer own-

STATEMENTS DISTRIBUTED

Also, the work of this depart? ment has been an open book to all members. Each month it has mimeographed three hundred copies of the operating statement and the balance sheets which have been distributed to every congressman, Free Press, and to various department managers, so that the membership may be ful-ly acquainted with the true con-dition of the enterprise. Copies are always available at the Co-op offices, 1-6-1, for members.

I fully at ree with Mr. Shimizu that there: ould be honesty and that there; ould be honesty and no business ecrets in the operation of a cooperative. There has been no secrets within the accounting office; and an analysis of the financial statement will show every members the integrity of the accounting staff and the capital structure of the enterprise.

Since the fire the proper statement will be capital structure of the enterprise.

Since this is the only store in the center we see no reason for business secrecy. All financial statements of the co-op are ex-amined by the auditor from out-side the relocation center.

COMMITTEES APPOINTED

I also concur with Mr. Shimi-I also concur with Mr. Shimi-zu's opinion that the cooperative should "disseminate information among the members about the affairs and the true condition of the cooperative, and encourage constructive criticism to eliminate the cooperative, and encourage constructive criticism to eliminate defects and weaknesses." The board of directors have appointed several committees — education and grievance committees, who are doing their best to rectify shortcomings and evils that may exist. These committees welcome criticism and suggestion; also ask for the cooperation and interest of the members so that ours shall by a true co-op. Only upon the willingness of each individual member to serve on such committees as provided for in the By-Laws can the cooperative fulfill its primary purpose of rendseveral committees -By-Laws can the cooperative run-fill its primary purpose of rend-ering service to the community.

MARK-UP POLICY

Mr. Shimizu states, "Many United States consumer coopera-tives in recent years have been paying only 2-4 percent interest on their share capital." This is true, but it does not necessarily on their share capital." This is true, but it does not necessarily mean that they have been selling their merchandise at a low cost to its consumer members. A close analysis of these co-operatives will show that they have followed a mark-up policy ranging from 25-35 percent and because of heavy operation expenses were able to realize a marginal profit of 2-4 percent in Manzanar, despite the fact that mark-up has ranged from 15-20 percent, the cooperative has been able to realize an average varying from 5-10 percent because of low operating expenses (low operating expenses (low rental and salary). It is obvious that the management did not follow a deliberate policy of realizing a high net income; the result was automatic. Therefore, the present policy of the management is to reduce the mark-up consistent with the state and WRA results. reduce the mark-up consistent with the state and WRA regula-

tions.

The management has to cope with several factors in this general price reduction. Administrative Instruction No. 28 reads: "Under no circumstances, however, should prices be reduced so as to prohibit the establishment of a reserve fund of at least 30 percent of the total capital assets of the cooperative." The By-laws also provide for the establishment of this surplus reserve. Certain prices are fixed and cannot be reduced according to California Fair Practice Act. The Operating Agreement with the WRA and the California cooperative laws state that prices may not be reduced to such an extent that the accessary surplus reserve will not be created. Administration Instruction No. 26 urges the cooperative to maintain a ratio of 3 to 1—, the current assets must be three times that of the current liabilities. This, is an obvious business necessity, of maintaining a stable (inaudia) ous business necessity of main-taining a stable financial struc-ture and of having an adequate margin for the success of the enterprises. Despite the limita-tions, I am confident that there will be a gradual reduction of prices.

COMPARATIVE PRICES

Our prices are lower than those in other relocation centers. Cigarettes are selling at sixteen cents a package in Poston, twenty cents at Jerome, Arkansas, and at Manzanar fifteen cents. Certain items, have been sold at a high mark-up, but our prices are about ten to fifteen percent lower than those on the outside.

I cannot make any comments or render judgment on the merchandising policy of the cooperative. It lies outside and beyond my jurisdiction and responsibility. In the near future, the buyer may possibly present a statement concerning merchandising problems.

lems.

In conclusion I would like to ask the members that, if ever a question arises consult the co-op like a man. Accusations may lead to a misunderstanding and employees who are doing their utmost may terminate their office,

I remain. S. Sugimoto, Comptroller.

Letters from the Public

(This letter regarding the illusive girl reads like paragraphs taken out of a short story. It is one of the unfortunate cases reported on relocation.—Editor's note.)

on relocation.—Editor's note.)

Dear Mr. Graff:

Sorry to bother you, but felt that I should notify you that the Japanese girl—Katherine Otomo—who came to live with me last Wednesday—July I—left yesterday.

Katherine seemed to be a very fine girl, quiet and clean, nice personality and easy to get along with, but she did seem to have something on her mind. After two days here she told me that she had some personal trouble, which she couldn't explain and intended tag to Chicago to see her sister, then on to Camp Shelby, Miss. I don't feel I had the right to question her too closely, and by that time your office was closed for the weekend. Af first she intended to stay for ten days, but suddenly decided Sunday that she would leave at once. After talking with her I realized her mind had been made up before she ever left Camp, so made no effort to stop her.

During our conversation she told me that many girls were leaving Camp for homes, with no intentions of staying, merely to get out. This attitude certainly is not going to promote good feelings between the two races, as desired.

As perhaps you know, this end of Dearborn (West) has not taken too kindly to the idea, so I have not given the true reason for her leaving; merely that she had to go back because of sickness in her family.

She really seemed very sorry to be leaving as she tald me she

She really seemed very sorry to be leaving, as she told me she was very happy in my home, and seemed very fond of my son.

This is not a letter of complaint, Mr. Graff, but am hoping you will understand the situation. Feel that I was one of the unfortunate

few, and so sorry it happened.

Sincerely, Frances E. Robinson (Mrs. M. C. R.) Dearborn, Michigan

Dear Editor:

Dear Editor:

It is high time now for the government to act immediately by expediting the lately announced segregation of those who honestly have declared themselves "disloyal" and, to the "loyal" persons both citizens and aliens alike. Then in the same manner and treatment of Italian and German-Americans, apply draft law to the nisel boys, release rejected ones to the farms or industries outside as soon as the disloyals are segregated.

In such a way the loyal ones can return to their normal life in the American stream of life and get away from propaganda and, accusations of the Axis countries as to racial discrimination in America. When the disloyals are separated, then our status will be clarified. And public doubt or suspicion will vanish.

To those who made false statements, send them to jail for 10 years or fine \$10,000.00 or both as previously signed in their individual statement.

Sincerely, Reader—Manzanar.

SELL PROPERTY TO AVOID LOSS

When vandals enter a garage or other private place of storage many valuable articles are taken which evacuees could have dis-posed of to their own advantage financially and put to use at this time when many things are hard time when many things are hard to obtain.

Trucks already have a ceiling price established by the OPA and it is expected that very soon ceiling prices will be put on all passenger cars. Owners should dispose of them before this happens on as to obtain the best prices.

Earl W. Barton, evacuee prop-erty officer stresses these matters and points out that his office is and points out that his office is always willing to assist evacuees in disposing of personal property as well as real property. VIKS IN 15-11 WIN

In a wild scoring game that featured 22 hits and 27 runs, the Pedro Vikings came out on top, over the Manzaknights, 15-11, in the National League fray. At the call of play ball, both team's machine rolled and each team came out with 4 runs a piece.

"Revenge" was the word as the Modernaires slaughtered the All-Stars in a return match, 14-3, Sunday eve. Previously beaten by a score of 14-9, the 'Naires took vengeance, blasting out 14 hits to the Stars' five.

First inning found one hit credited to the Modernaires,

ting a man on base.

Skippers came to bat in their half and drove in a run as Y. Tatsumi, who got on a walk, scored on an error by the third baseman.

SECOND INNING

Behind the 4 hit pitching of G. Hattori, the Barons easily tri-umphed over the Rangers in the American Leaguer. SECOND INNING
Sears went down without scoring a run. However, they put two
men in scoring positions.
Skippers also went down without much trouble.
THIRD INNING. American Leaguer.

The Barons pushed across 3 big
runs in the initial stanza that
proved to be the deciding runs.

Chucker Hattori had the Ran-

out much trouble.
THHRD INNING
The first run for the Sears was registered as G, Shiba scored on an error by the first baseman.
The big guns of the Skips featured a 4 runs rally when they blasted the offerings of T. Ohara for 3 safeties, one of them a home run by F. Takade.
FOURTH INNING
This time the Sears machine went to work and pounded chucker A. Hashimoto for 2 hits and 4 runs, aided by an error.
Skippera were held scoreless although they filled the bases.
FIFTH INNING
Once again the Sears outfit had men in scoring positions, but

Once again the Sears outfit had men in scoring positions, but were unable to score.

The score being 5-5, the determined Skips shoved across a run to move ahead when M. Shimizu, who got life on a walk scored later after a fly to the left-fielder.

SIXTH INNING

Sears tied up the ball game at this point when T. Iwasaki, after getting a hit center, scored on a hit by M. Kusaba.

Skippers obscured the youthful Sears' hope as they checked in 3 more big runs on 2 hits and 2 walks.

Timbers Fell Dusty 9
The Timbers stalked up another win, this time over the Dusty 9 outfit to humble them 10-7 in the National League encounter.
Led by J. Fukushima who belted out a neat 3-4, the Timbers were never headed throughout the entire fray.
Dusty 9 scored 1 run in the 1st, 2 in the 2nd, and 4 in the 5th.
Although the Dusty 9 crew played an errorless game, the Timbers scored 2 runs in the 1st, 6 in the 2nd, 1 in the 3rd, and 1 more in the 5th.

The Counts defeated the Cardinals, 11-8, in the American League battle, Friday eve.

The Counts drew first blood in the 1st inning and were never headed thereafter.

Four more runs were registered by the Counts in the 4th, another in the 5th and 3 more in the 7th.

The Cardinals were slow in getting started, for most of their runs came in the latter part of the game. Their rally in the 7th was cut short at 5 runs.

Redbirds Victorious

The Redbirds beat the "teachers" at the end of 6 innings, 17-15, when darkness threatened.

The game was tied 11-11 going into the 6th heat. At this point Education' shoved across 4 runs to go into the lead, but the Redbirds came right back and pushed across 6 runs. It was at this time that a discussion arose concern. that a discussion arose concern-
