## Uphold Promise Given Domestic Minority Group

LONE PINE, Sept. 23—"Our country has its definitely outlined foreign policy commitments," Project Director Ralph P. Merritt reminded his audience, "but our country also has definitely outlined domestic commitments to its own people."

The director spoke here Wednesday night at the zonal dinner meeting of the Lions Club. Assistant Project Director Robert L. Brown explained the operation of the project management. The Lions were interested, also, in an exhibit at the dinner affair, showing the dehydrated vegetables processed in Manzanar.

Speaking on the subject of the country's general policy toward the minorities Merritt asserted that its domestic commitments have been made by Jefferson, Jackson, Lincoln and others. Definite commitments were made to all peoples in America, moreover in historic documents which include the Constitution and the Declaration of Independence, the administrator asserted.

Our nation's effort to maintain its foreign policy commitments is in the process of being discharged through the prosecution of the war effort. "It is a hard fight," Merritt declared, "but we believe that the victory is ours and that our foreign policy commitments can be maintained."

"America," he declared, "has been a nation which has never backed down on its promises. We are not now going to break our country's promises to its minorities."

## Scout Agreement Announced By WRA

Boy Scout activities at all relocation centers received further impetus today when it was announced by WRA headquarters in Washington that a formal agreement has been signed by WRA and National Boy Scout headquarters in New York.

The new agreement, which is a revision of a previous statement issued on June 15, 1942, grants the same rights and privileges to scouts and cubs at the centers as are given to troops in other cities.

One of the most important provisions of the agreement is one which will permit scouts whose families are preparing to relocate in the near future to transfer to troops in other communities as well as in other relocation centers. Scouts or leaders planning to move should secure transfers before leaving the center. Transfers will be presented to the local Scout Council as soon as scouts have moved to a new community.

In signing the declaration, scout officials emphasized the importance of maintaining troops within the various centers and assured the WRA that all new programs developed in other parts of the country for the extension of scouting activities will be adopted at relocation centers wherever feasible.

## Two Battery Cases Reported By Police

Two battery cases were reported last week to the Police Department and were disclosed this week by record clerk Reginald Wood. The second battery case was the result of the first.

T. Osedo struck Yoshitami Sakuma, manager of block 8, after an argument which began when Osedo requested Sakuma to divulge the name of the person who had marked a red "X" after his name on the contribution list for the Manzanar Monument, to which Sakuma refused.

On the following day, while Osedo was watering the lawn in front of his home, a resident called him to the latrine to see the scribe on the wall.

The writing on the wall was disclosed as profane language. The resident asked Osedo whether he knew who had written on the wall, at which Osedo replied he did not know.

A few minutes later, Osedo was attacked by a group of the block residents and was slightly bruised.

The report from Town Hall is that Mr. Uyematsu and Mr. Higashi, block managers of 9 and 4 respectively will see to it that the offenders in the future will receive lessons on "how to behave themselves." No further comment was given by the Town Hall.

## Adopt Resolution Urging Relocation

A resolution, urging relocation of all loyal Americans of Japanese ancestry as well as alien Japanese whose loyalty to the United States has been established was adopted at a recent convention of the American Federation of Teachers which was held in Chicago during the week of August 16th.

The resolution stressed that discrimination against loyal Americans and aliens is contrary to the principles of both the Declaration of Independence and the Constitution of the United States. The nation, it was stated, must therefore endeavor to utilize both the manpower of loyal Japanese and their cultural contributions which can enrich our civilization.

In adopting this stand, the American Federation of Teachers urged the President and the WRA to make every effort to effect a speedy relocation of those loyal Americans and alien Japanese who now reside in relocation centers. In order that these people may enjoy the rights and privileges to which they are entitled.

## Answer Inquiries About Repatriates.

Project Director Ralph P. Merritt, in answer to inquiries concerning the repatriates taken to Jersey City to board the exchange ship Gripsholm but who were returned to either the Crystal City, Texas, internment camp or to Tulare; disclosed that they were the persons placed in a small reservoir for use in filling any vacancies aboard the ship caused by reason of illness or other last minute withdrawals approved by the Spanish Ambassador.

In the first exchange of nationals a complete boatload could not be obtained due to last minute withdrawals and to allow for a similar development this time, this reservoir of about 100 persons was provided by the WRA. Those in the reservoir not taken aboard were sent either to Crystal City or Tulare.

Officers will arrive to recruit eligible Japanese American girls to fill the quota of 500 niseis for the Women's Army Corps, which officially became a part of the United States Army of September 22.

Mr. Adams will announce the results of the tests conducted in this center August 30 by the recruiting team of Capt. Mary G. Miller, Lt. Fay S. Chambers and Sgt. Flora K. ## Improvement Evident Here

Comments on Manzanar made by visitors from Inyo and Mono counties last Saturday were chiefly of praise and admiration for the beautifying job which Manzanar has undergone during the last seventeen months. The desert land on which Manzanar was situated has well-nigh vanished; in its stead is a progressing community surrounded by cultivated fields.

Neatly tended lawns and pretty flower beds in the center invited commendation from the valley visitors for the industry of the evacuees. Those who had been in Manzanar last year were amazed at the evident improvement.

Particular notice was drawn by the grounds at the Children's Village.

As each of us leaves Manzanar, he should go with a sense of accomplishment—with a right to say, "I am leaving this place a little better than it was when I came."

## No Cure For Gossip?

Hardly a word exists in the dictionary whose connotation is more disgusting and destructive than the word "gossip." The definition given in Winston's Simplified Dictionary is as follows: one who makes a habit of talking about other people and their affairs.

What usually starts out to be a little "harmless whispering" can ignite quickly by being transmitted from one lip to an eager ear and so on until in time it is a raging fire—destructive. It is destructive in the same sense as a forest fire out of control, after a careless person has dropped a match or a lighted cigarette.

One innocent person's respectable reputation is shattered; one engaged couple's happiness is finished because someone tittered about something that was unfounded; a mother despairs because a neighbor repeated incident about her daughter; a girl comes home late from a dance and finds herself the object of insinuating remark the next morning.

The worst part of the whole thing is that usually, it is done maliciously—out of jealousy, revenge or just plain cattiness.

It happens in all walks of life; wherever there are people. One finds it prevalent in the relocation centers simply because people are living close together and many have nothing to occupy their time but talk.

Unfortunately, there is no real cure for gossip. However, if you should happen to hear something, even though you know it to be true, let the knowledge lie in you alone. In this way, the chance of its spreading is diminished.

Many times, the gossip backfires to the very person who started it and he or she loses the respect of their friends.

**To my friends and acquaintances:**

Thank you for making my life in Manzanar more meaningful. May resettlement soon come to each of you when you can say, "Manzanar—Yeni, vidi, vidi!"

## Myer Announces Official Figures On Segregation

WASHINGTON, D.C., Sept. 25.—The War Relocation Authority began to separate the people of Japanese ancestry in its 10 relocation centers September 14. Segregation is on the basis of national loyalty, WRA announced. Approximately 10,000 men, women and children will be moved from the other nine relocation centers to the Tulelake WRA center during the next 30 days, making a total population of the center about 18,000.

The United States Army is cooperating with the WRA in handling the actual movement of the people, but the selection of the people to be moved is made by WRA.

According to Dillon S. Myer, director of WRA, the people who will live in the Tulelake center will include: those who have asked to be repatriated or expatriated; a group which has refused to pledge loyalty to the United States and those who have pledged loyalty to the United States but whose behavior in relocation centers or before evacuation has indicated that they are not truly loyal.

WRA officials have been working for several weeks on the process of sorting the people in the relocation centers, utilizing information in WRA records and information supplied by intelligence agencies of the government. It is believed to be the first time that any group in the country has been sorted and segregated on the basis of national loyalty.

More than 110,000 men, women and children of Japanese ancestry were evacuated from their homes in the Pacific Coast states by military authorities early in 1942, and were established in relocation centers under supervision of the War Relocation Authority. Those whose loyalty to the United States can be satisfactorily established are eligible to leave the relocation centers to take jobs in ordinary communities. To date, approximately 19,000 persons are out of the relocation centers, more than 12,000 of them on indefinite leave and the rest on seasonal leave permits. Residents of the 9 relocation centers, who will number about 73,000 after the segregation movement has been completed, all will be eligible to relocate to normal American communities.

## English Classes To Get Certificates

## Fisher Expected To Arrive Here Today

As a personal guest of Project Director Merritt, Dr. Galen Fisher will be in Manzanar sometime today. Dr. Fisher who is one of America's recognized authorities on the Far East, and one of the members of the Institute of Pacific Relations. He has been a student of the Far East and its relation to American life.

He was originally a YMCA secretary in Japan and soon achieved reputation for his scholarly observation of social trend in Japan. His activities were then broadened to the whole Orient. He traveled much in the Orient, even during the later years before Pearl Harbor.

Dr. Fisher's most recent achievement is the careful publicity he has given the Japanese-American situation. He has contributed more articles on evacuation; its causes and its results than any other American writer. His articles in the Christian Century have been recognized as the most comprehensive statements yet published on evacuation and relocation.

Dr. Fisher will speak tomorrow afternoon at 3 p.m. at 15-15 for Young Adults' Christian Forum. The topic for discussion will be "What Will Help Japanese-American Assimilation?" At 4:30 p.m., he will meet with the YM and YW board of directors and the members of the Y's Men's Club at 15-15.

Last week could've been called Education Week for the Press employees who acted as guides on Saturday. For approximately two hours on that day, the news-hounds abandoned their foot-clothes in favor of automobiles. We traversed the entire outer length of the camp visiting the various departments and exhibits. Never dreamed that we had facilities to manufacture boys' dungarees and men's shirts that resemble so much the articles displayed in the J. C. Penney counters. . . and yes, never knew there were so many ga-ru sans working in the clothing factory. . . Say gals, do you want to preserve your prize-winning daikons for the winter? . . . If you do, take them to the dehydration plant where they will gladly dry 'em for you.

Ate so much melon on Sunday that I'm still "melancholy" . . . The Farming Division display with it's shed and display tables reminded yours truly of the Long Beach public markets. . . Mmmm those sun-ripened honey dew—'twas of the sweetest smellovy.

**MANZANAR QUEEN.** . . . Five beautiful girls vied for the honor of being Miss Manzanar at the Fall Fair last week. Misses Amy Iwaki of Block 25, Mae Kageyama of Block 29, Yoneko Kodama of Block 26, Diane Tani of Block 15 and Kiyoko Yoshida of Block 13.

Attired in formal evening gowns the girls came out to be judged for face, figure, ability to wear clothes well, walk and personality. Amy Iwaki wore a pale green formal, criss-crossed at the neckline with velvet bows; Mae Kageyama attired in a white taffeta gown with long sleeves and a sweetheart neck; Yoneko Kodama and her off-the-shoulder formal with gold thread embroidery on a blue background; a white marquisette gown with black lace trimmings was worn by Diane Tani and Kiyoko Yoshida in a white net formal.

After a short deliberation, the judges came to a decision. The honor of being Miss Manzanar went to Miss Diane Tani of block 15. The queen and her attendants were then whisked away to the Coronation Ball held at Palace 35. Miss Fuzzy Mizutani and Miss Shimamoto presided at the formal coronation of Her Majesty the Queen Diane Tani.

## Hostel Established In Pocatello, Idaho

Working in cooperation with the War Relocation Authority, local Japanese residents of Pocatello, Idaho, have provided a building which is now being used as a stopping place for men coming to work in that area who are unable to find accommodations, according to Pocatello District Relocation Officer Edward Ber-man.

The hostel is located in Pocatello, and will be under the management of Mr. and Mrs. Mike Yamashita who will take care of the property and welcome evacuees who wish to spend a night or two.

The hostel will be used only as a temporary stopping place, the Relocation Officer revealed. A fee of about 50 cents a night will be charged for the upkeep; and tea and coffee will be available to travelers.

Berman disclosed that accommodations for women evacuees have been arranged at the local YWCA.

The war has done many things besides putting us in these "concentration camps." It has given many students the opportunity for higher education; on the other hand many have "lost fight," still others have joined the armed forces; those on the outside are concerned with ration points. Soon, bettors will be concerned with points other than those that are used in obtaining food... football pools will bring about such remarks as, "How many points will you give me?" "Put up or shut up," etc., etc., etc. These digits will mean money if their favorite team wins.

The Pacific Coast Conference was divided into the Northern and Southern Divisions (as in basketball) and the crews will play on a home-and-home basis. The grid world has fallen victim to the "Bureaucratic system" in naming the forms of attack... Babe Horrell will again use the QT, centered around Bob Anderson of Stanford. Jeff Cravath from out SC way, has installed the T formation... in addition, he has created the "V" huddle. Those who lose their waver will be classed with the IOU's.

The PCC curtain will be drawn today with the playing of the USC-UCLA tussle in the L. A. Memorial Coliseum. On paper, it looks like the Trojans all the way, anything can happen. The Trojan line, with Heywood, Gasker, Verry, Gray, Garzoni, Audet, and MacPhail, average 207 pounds from beam to beam. The Bruins' Maginot line, stationing Brown and Weiner at ends, Malmberg and Markel at tackle, and Marienthal at guards, and Earl at the pivot spot, carry 190 pounds per man. The stud-trojan Trojan backfield—Hardy, McCordle, Callanan, and Page—tips the beam at 175 per, the Bruins, 163, with Andrews, Horton, Boyd and Stiers rounding out the ball-packers.

Both teams are equipped with good passers and good ends. Capt. Heywood, end, shouldn't have much difficulty snagging the pigskin with his 2' 11" compared to Stiers' five-foot-six, Andrews' 5' 9", and Troy's even six feet. The Bruins, on the other hand, have a top-notch wingman in Herb Weiner. He pulled a "chander" on everyone when he said that he wasn't coming out for football, and suddenly "changed his mind."

As for the tackles, both the Bruins and the Trojans have good men. The Uclans bank on Don Malmberg, understudy to Bob Waterfield, last year's field general. El Trojan can depend on Earl Audet, bruising, 235-pounder who hails from Georgetown. He has made a name for himself in the Track and Field world, as he sped across the shot-put ring, chucking the 16 pound ball something like 54 feet.

The Trojans, as always, have the brother act again this year. It was the Musicks, Joneses, Woodses, etc., and now comes the Hardy and Callanan brothers. Big brother Jim Hardy is at present, the first best for quarterback and Don is an understudy of Capt. Heywood out on the left flank. Howard Callanan, the hard-luck kid, made himself known as a cinder-burner, plays right half; his kid brother operates at right end, behind MacPhail. Alternating with Howard will be Lou Futrell, transfer from Fresno State, who is noted for his

gridiron ability and his talent as a hurdler.

Bruins boast of an assorted variety, as four of the eleven men are transfers from other schools. Dave Brown is an imported product from Stanford, as is Bob Anders; Guard Jack Munro hails from Oregon, and Troy Horton came to UCLA, and gives SFU his previous school.

Troy's Bruce Gelker is a jay-see transfer from Santa Ana, Earl Audet, Georgetown, Mike Garzoni, guard, joined the Trojans from the center of grapes, Fresno State College. Starting center, Bill Gray, of Oregon, and Chuck Page, fullback from Santa Ana J.C., rounds out the assortment.

Babe Horrell would have to bank on speed and deception of his men to overcome the weight advantage that Troy enjoys.

Well, that's our two-ents... now we'll sit back and try to listen to the announcer's play-by-play account in between the statistics and what-nots.

Looking through the recent Rowher Outpost and the Denison Tribune, we find a little difference in opinion... The Tribune claims that Rowher beat the Denison aggregation, 10-3; the Outpost has it that "Scooter" Kayasuga (our buddy) sparked them to a 10-2 win... now let's compromise and call it 10-2½.

## Sport Bits From Other Centers

Boarding the special chartered choo-choo, we'll pick up sports as we go from one center to another. Making our first stop this week after visiting Gila, Tulalake, Amache, and Denison along with several short in-between stops last week will be:

**MINIDOKA**—The Hunt golf team journeyed to the Twin Falls Municipal Golf Tournament but failed to place. Two Hunt men emerged with a tournament total of 144 each. Handicaps being 40 and 26 for the contestants.

**TOPAZ**—A title clash is scheduled between the Los Angeles and San Diego to play the final hardball fracas.

**HEART MOUNTAIN**—The 'A' league baseball championship game was recently played. The Champ of the league was crowned and received a half a dozen balls from the recreation department.

**DENSON**—Hiro 'Rabbit' Kayasuga (former Manzanite), now called 'Scooter' has proven a big asset to the Rowher 'A' All-Stars. Rowher 'A' Softball All-Stars decapitated the Denon 'A' All-Stars to a tune of 10-2 (Denon claims, 10-3), to make it Rowher's second straight win. Following are few excerpts from the "Rowher Outpost": "The Rowher ten started the ball game off by scoring one run in the initial inning, when Hiro Kayasuga reached first on a centerfielder's error of his fly ball and scored on Shiro Mizutuka's grounder to third."

"Playing an outstanding defensive game was 'Scooter' Kayasuga who made sensational catches in left field to rob the Denon team of extra base hits."

Rowher 'B' Baseball Leaguer was shutout, 6-0, by Denon as the chucker hurled a no-hit, no-run game.

**BLOCK 22**—This team has not decided their name yet... volleyball minded people... watch out for this team.

All teams have handed in their rosters, but only seven teams have paid up their 10 cent individual player's fee. Come on, girls, "don't play hard to get."

All league games will be participated on courts in front of the Recreation Department located at 14-15. All games will be played on Saturdays and Sundays. Every game shall start promptly at a given time and teams shall be given a 10 minute grace period before a forfeit is claimed.

**CHICKADEES**—Most of these girls hail from Block 11... **BELLE RINEES**—Another new name to the sports world... majority of the girls eat their meals in Block 5 and 6. **CORONETTES**—This is another new club formed mostly of the older girls of the camp. **CRACKSHOTS**—Athletic minded bunch of girls who participated in basketball and softball in the past months... should be a strong contender.
