

Clothing Allowance

All the vouchers for July clothing allowance, numbering 4208 and amounting to \$26,525.35, were sent last week to the Disbursing Office in Los Angeles, according to Budget and Finance Head R. C. Boecklwick.

The Budget and Finance Head also disclosed that 4100 more checks were received recently to complete the arrival of August pay checks. This brought the total number of checks to 4300

Slippery Street Causes Collision Of Automobiles

A blind alley and a slippery street caused a truck and a Chrysler coupe to collide on "B" street near 5th, corner of Blocks 14-19, on Friday afternoon, the Police Department disclosed this week.

The Chrysler coupe driven by Frank Kozawa was traveling east in the alley of block 14, while the truck driven by James Tanigawa was traveling south on "B" street, returning to the warehouse, when the collision occurred. Fortunately no one was injured. The coupe had its left rear fender dented, a blow-out, and the wheel rim bent, while the truck's front fenders were bent.

It was reported that the truck driver was not at the scene of the accident when the police arrived, but was located later at his home for questioning.

Police Chief Gilkey stated that in case any accident occurs at the person involved should remain at the scene of the accident, report it to the Police Station immediately, or report to the Motor Pool.

Award Sportsman Trophy To Skippers

San Pedro Skippers baseball team was chosen by the Recreation Department and the "AA" managers as the team which showed the most sportsmanlike conduct during the "AA" league baseball schedule, it was revealed at the YBA installation social Saturday night at kitchen 27.

The 18-inch sportsmanship trophy was presented to the Manager of the San Pedro Skippers, Ken Takata, who accepted the award in behalf of the team from the Manzanar Buddhist church.

Master of ceremonies for the affair was Yoshikatsu Nakayama. The recently elected officers of the Manzanar YBA were installed in a candlelight ceremony during intermission.

Yamashita Explains Shortage Of Paper

Due to the shortage of paper many of the residents are not receiving their copies of the Times and Examiners for Sunday deliveries, explained Governor Yamashita, manager of the newspaper at the Canteen.

The newspapers are facing a paper shortage and from each is allotted a certain amount of paper per month thus limiting the number of copies printed. The needs of the residents of Los Angeles are supplied first which reduces the amount to be distributed to the distant localities.

At present Yamashita stated that Manzanar is receiving 100 Examiners and 60 Times every Sunday. At one time the Canteen was receiving 1100 copies of the Times but has been cut down to its present quota. The number of dailies available is unlimited, Yamashita declared.

Two Co-op Delegates Attend Conference

Commence Hearings On Leave Clearance

Hearings on leave clearance for persons who have changed their answers on the loyalty question commenced Monday morning at the Town Hall announced Mrs. Lucy Adams, assistant project director in charge of Community Management. The request for the hearings came from the Washington WRA office.

Cases will be judged by the hearing board consisting of Project Director Ralph P. Merritt, Relocation Officer Walter A. Heath, Project Attorney Jay B. Saks and Mrs. Lucy Adams. Priority has been given to persons having immediate jobs waiting and those desiring to go out on furlough or student relocation. The result of the hearings will be sent to Washington and a prompt reply is hoped for, Mrs. Adams stated.

Living Quarters To Be 'Frozen'—Merritt

No change of living quarters will be made for any residents until the segregation period is over, declared Project Director Ralph Merritt last week in project director's bulletin.

Only emergency cases reviewed and authorized in writing by proper officials of the Community Management Department will be permitted to move during this period. Residents who move without written permission will be required to return to their old quarters and may lose their opportunity for consideration when adjustments are to be made, it was emphatically stated.

Plans to use the buildings for other purposes beside living quarters and to assure proper heating facilities for all residents were the reasons for the freezing of housing movements.

Galen Fisher Speaks At Church Services

Dr. Galen Fisher, speaking at the church services Sunday at 15-15, told that the famous Negro scientist, George Washington Carver never discriminated against any race or group. His work and services were offered to white people as well as to his fellow negroes.

In the afternoon Dr. Fisher led a group in discussion of problems of Japanese-American relations. He said that the problem was well on its way to being solved around 1930 but the political developments of the time turned American public opinion against the Japanese.

Dr. Fisher, a personal friend of Project Director Ralph P. Merritt, visited Manzanar representing the International YMCA and YWCA and the Institute of Pacific Relations. He is also doing research work for the Committee on Fair Play and American Principles.

Two persons representing the Manzanar Cooperative Enterprises left for a three-day inter-co-op conference at the Morrison hotel in Chicago. They will meet with delegates from other relocation centers to discuss the problems of business enterprises in the centers; to find ways and means to obtain merchandise to meet the demands of their patrons and to set up a cooperative buying scheme. This conference came of an idea sponsored by the New York Business Service office of the WRA.

Delegates from Manzanar, Chokichi Nakano, chairman of the board of directors and Sokichi Sugimoto, controller of the Co-operative were accompanied by Dr. William J. Bruce, superintendent of consumer enterprises.

Dan Tsurutani who is attached to the Co-op and Community Activities, explained that the co-ops in all 10 centers were asked to send three delegates each to this meeting. One would be a member of the board of directors, a second to represent the managerial staff and the third member to represent the co-op as a potential buyer. Due to expenses involved for this trip, a third delegate was not sent from Manzanar. Also present at the conference will be the business enterprise superintendents for the 10 centers.

THREE BUYERS

Mr. Tsurutani further explained that three members will be chosen at this conference to act as buyers for the 10 centers. The wages of the three buyers is estimated at about \$750 per month. The cost of maintaining this office will be about \$75 per month per center. It is believed that this expense will be negligible compared to the amount of goods which will be available to the residents. The WRA office in New York will help keep these buyers in contact with the manufacturers. The buyers will be notified of the center's needs and when certain goods are available. It will be bought directly from the manufacturer, thus doing away with the commission to the middleman.

Frank Yasuda, executive secretary of the board of directors, said that the expenses for the delegates will range in the vicinity of \$250 per person but no definite limit has been set. Dr. Bruce is making the trip at WRA (Continued on Page Two)

Award Diplomas To Adult English Pupils

With 236 students enrolled, the Adult Education program in the Adult English classes, Four months of instruction were awarded to 88 Adult English students for the completion of one year's work. On Monday night similar diplomas were awarded to 40 additional students.

During the next two weeks the Adult Education Department will undergo reorganization. The staff will wear panels on various phases of their program, visit high school English classes for suggestions, spend time in local libraries in search of materials, and search several days in Curriculum Workshop planning.

Beginning October 18 classes in beginning, intermediate and advanced English will again get underway. Invitation to enroll is extended to residents who are interested.

Appreciation Letter Sent To President

Yoshitaka Takagi, executive secretary of the Japanese American Committee for Democracy sent a letter of appreciation and thanks to the President of the United States on his statement to the Senate on September 14 in regard to the segregation and resettlement of the evacuees. Mr. Takagi stated in his letter that "the sentiments expressed will undoubtedly be of aid in furthering the entire relocation program by clarifying the American public on the question of the evacuees."

The letter said, "Your statement that we shall restore to the loyal evacuees the right to return to the evacuated areas as soon as the military situation will make such restoration feasible gives clearly the position of our national administration toward the evacuee problem. It will take one weapon away from those who are sowing seeds of disunity and distrust among the people by making a race issue out of the Japanese American problem."

The letter told the President to "rest assured that we will continue to do all in our power to help strengthen the home front in order to insure complete victory of the United Nations over the Axis powers."

Manzanar Ships Melons To Tululake

Eighteen tons of Manzanar-grown honey-dews and watermelons were sent Thursday to Tululake, WRA center through the Farming Division, it was announced. In exchange for this, 400 sacks of chicken body feed were brought to this center from Tululake.

The division also disclosed that about 6800 baby chicks are now at the chicken farm located south of this center. In the last shipment, 200 baby chicks were misbought by Sears, Roebuck and Company, leaving the farming division with 6800 instead of 7000 as was expected.

Food Cost Decline Seen In Report

For the third consecutive month, retail costs of food dropped during the month of August, reports the United States Department of Labor. Although the costs of food remain high, they have declined 4.1 per cent during the past three months.

Even though the decline has been slight, the Dept. encouraged government officials in that the heretofore uninterrupted advance of prices has been at last stopped, according to the reports.

MARYKNOLL ASKS RESIDENTS

Residents who have personal assets stored at the Maryknoll church in Los Angeles are asked to submit their names and addresses to either Father Steinback at 25-15 or to the Fathers in Los Angeles.

The Rains Came

Although weather reports are military secrets in time of war, it can be revealed now that rain, thunder and lightning came to Manzanar last week.

Friday about 3:30 p.m., thunder crashed and lightning danced across the sky bringing cooling rain. Temperatures were recorded as 88 degrees maximum and 57 degrees minimum. The storm postponed the showing of the movie, "Priorities On Parade."

Chief Steward Tells Shortage Of Milk Supply

Only children under 15 and invalids with permits will be given fresh milk hereafter, according to Chief Steward Joseph Winstorm, who revealed that a milk shortage has hit this center.

He declared that although 1000 quarts of milk are ordered daily for this center's consumption, there are times when only 500 quarts are received. However, he added, there is plenty of powdered milk available for everyone and that although the taste is rather unpleasant as compared to fresh milk, its nutritious value is equal to that of fresh milk.

The Mess Division announced that 11,192 cans of evaporated milk have been received and will have to last until the first of November.

Due to the present milk crisis, Winchester said that milk dealers have refused to bid for Manzanar's milk contract. He stated that if this continues, Manzanar's nursery school will not receive its milk so that it may be added to the mess hall's loss.

At the same time, the chief steward disclosed that food products such as oleomargarine, fish, coffee and cheese are coming in as ordered.

Seek Workers For Montana Contracts

Elmo Irons, agricultural superintendent of the Utah-Idaho Sugar company arrived in Manzanar for a week to recruit laborers for beet work in the Montana district. He is here to solicit workers for the War Food Administration.

Mr. Irons stated that work has already begun in Montana and that the workers will leave immediately. He has a telegram that Washington will speed up all leave clearance procedures for those wishing to aid in the food for victory program. He explained that they will handle 200 workers but would like 40-50 workers in a group, if possible.

The government has set a minimum wage rate at \$1.50 per ton, the highest in any sugar beet district, Irons said. All workers will be signed under contract to the WFA and will be guaranteed 75% employment and \$3 per day on their non-working days. This does not include those who refuse to work.

Mr. Irons declared that upon arrival at the beet fields, the workers will be taken care of by the Extension division of the government for housing facilities and that the sugar company officials will always be ready to help work out programs for them.

The season will last for six weeks. According to an estimate of the field-man beet will average 12-14 tons per acre, Irons stated, and that the beet crop in Montana is much better than last year.

Mr. Irons will be at 1-13-4 every day from 9 to 12 and from 2 to 5 p.m.

On The Other Hand

THE RIGHT TO BE HEARD

To no other national in the world is the act of figuratively wearing custom-made shoe of military thought and action more uncomfortable than to Joe American; the barefoot boy who has had the run of freedom all the pre-war day long, suddenly required to wear tight-fitting shoes of military restrictions. Hence the slogan: "Let's get it (the fight) over with as quickly as possible so that we can return to enjoy our traditional freedom." People in private business as well as civil administrative capacities are irked by unaccustomed wartime restrictions.

Hence, the present verbal sortie between the Hawaii civil military authorities over the judicial power to issue writs of habeas corpus guaranteeing a prisoner his day in court. Prospects of Japanese invasion threat against the islands having declined appreciably since Pearl Harbor, the islands' civil officials were given permission to resume partial control over the island administrative affairs; although Lieut. Gen. R. C. Richardson, Jr., still is the military governor.

To test this partially restored power, a Federal judge recently granted issuance of writs of habeas corpus to two internees. A civil court, the judge reasoned, cannot function unless prisoners have the right to be publicly heard. But General Richardson refused to permit the writs to be served to the internees held at Hawaii's concentration camp.

Apart from the particular case involving the two internees, to the American people who have been accustomed to extensive exercise of freedom and access to all information, curtailment of their customary privileges under wartime necessity as prescribed by the military, is borne like good soldiers but irksome none the less. They bear it as their share of wartime duty and because they know that these curtailments are temporary. Civilians in Hawaii, who bore the brunt of the first attack by Japan, and undoubtedly had the daylight scared out of them at Pearl Harbor, have regained their composure. They now want to see as much of the island administration restored to civil authorities as possible without impinging on the necessary conduct of military affairs.

Any civil or military action affecting the people of Hawaii is of acute relevance to the evacuees on the mainland, 2000 miles farther behind the battle line, who paradoxically suffered more from the effect of Pearl Harbor than their cousins on the islands. Thousands of niseis, whose families are in relocation centers, remain in concentration camps. It is in the recent months that the mainland evacuees have been receiving gradual restoration of their full privileges as citizens and lawful residents of America.

Practice Ground

Looking the situation right in the face, there is hardly any sense in grumbling that life in Manzanar is deteriorative and that a person gets lazier as the days go by. True, the atmosphere and the general warm weather acts as hindrance to "getting in the mood" to accomplish anything; but this still remains a rather poor excuse. It also shows the character of the person. There is time aplenty here in Manzanar for the majority... precious time which one can utilize and later capitalize upon in the outside world. So the conclusion is, as was repeated time and time again... we may as well make the best of the situation.

Benjamin Franklin is credited with having said, "Experience is a dear teacher." Residents may not realize it but there are many opportunities to make this proverb into an actuality. Yes, right here in Manzanar an adequate "practice ground," so to speak, is offered. Take a person still "green" with the ways of the world venturing outside. Of course it's not impossible to act alone oneself to a situation; but that person would feel much more confident had he acquired some kind of an experience along his line within camp. An evacuee, not knowing what his real abilities are, can put his talent to test at different occupations right here.

Every week residents are relocating to the outside. This is a good sign in that they leave a gap to be filled in some job. The whole thing is in, more or less, a cycle; the old goes out and the new comes in. Then there is the Manzanar Junior College, giving full college credit. The residents should realize that Manzanar does provide, for those who really want, a source of learning and practice for a return to our normal way of life.

Letters from the Public

SEATTLE, Wash., Sept. 25— "Much time has elapsed since war began, yet predictions that people of Japanese ancestry in America would attempt deeds of sabotage to hinder the war effort have been unfulfilled, for no sabotage or disloyal activity has been perpetrated by any of the many thousands of the evacuees who have been relocated, and, without exception, they have merited the trust and confidence which has been placed in them. So wrote Albert D. Bonus to the editor of the Portland, Ore., Journal recently.

He continued: "The writer believes that those who are the best qualified to understand the character of others are those who have known them on an equal status. I have found, through years of acquaintance and friendship among these people that inherent in them are the virtues of honesty, integrity and in-

dwelling devotion to America."

Manzanar Free Press
Manzanar, California
Congratulations on the Pictorial Edition of September 10. It was most informing. The pictures were good and the articles were well written.

Most, if not all, of my friends of Japanese descent are in other centers, but I am glad that those of you at Manzanar are having contact with two friends of mine, of many years standing, Mrs. Adams and Mr. Merritt.

Again my congratulations upon an able piece of journalism work.

Sincerely,
Herbert Phillips.

Manzanar Free Press:
We feel the Manzanar Free Press Pictorial Edition was a sore disappointment. Please try to do better next year.

Three Subscribers.

Years Of Friendship Through Mail Told

Five years of friendship through the mails is the distinction belonging to a Manzanar resident and an Englishman in India.

Cherry Yamaguchi of 20-8-1 and Cpl. John A. Milsom began their correspondence in 1939 a few months before war began between Germany and Great Britain. The English soldier was a flyer stationed in England and Cherry was convalescing in a hospital. She carried out the plan when fellow convalescents told her she couldn't take a dare. She joined a pen-pal club and began to receive many letters from all over the world.

Since then, interesting and long letters have come and gone across the Atlantic. Some from the flyer were postmarked Wales and "destination unknown." The latest one received a few weeks ago was mailed in May and traveled countless miles for four months before reaching its destination.

According to the writer, the squadron of Royal Air Force flyers to which he is detached, is stationed in active service in a remote village somewhere in India.

Photographs of the RAF flyer reveal that he is a handsome, typical English blonde, 24 years old, who has been in the air forces of his country since he was 17 years of age.

War or no war, letters between the two will continue to be exchanged, Cherry stated. "In times like this, patience is a virtue," she added.

CLEAN RESERVOIR

Cleaning of the upper reservoir of sand and debris by the Public Works Department was conducted yesterday, reported Robert L. Brown, assistant project director. Water for the center was supplied by Well 75, across the highway.

IN APPRECIATION

Sgt. Toro Hirose of Camp Shelby, Miss., who visited Manzanar from Sept. 14 to Sept. 23 expresses his appreciation for the hospitality extended him.

IN APPRECIATION

May we take this means to thank our friends and neighbors for the kindness and generous gifts upon the happy occasion of our marriage.

Mr. and Mrs. Ryoichi Terada
9-1-2

IN APPRECIATION

To all my friends in Manzanar for having made my funeral such an enjoyable and an unforgettable one.

Thank you very much,
Sgt. Bill Ikeda

Purely Personal

By Sue Kunitomi

Isn't it strange that princes and kings
And clowns who caper in sawdust rings
And common folks like you and me
Are building for eternity?
Each is given a set of tools,
A shapeless mass and a book of rules
Each must fashion ere life has flown
A stumbling block or a stepping stone.

—Unknown

The poem above is a good one to pin up by the mirror. It was sent to me by my high school journalism teacher to add to my poem collections. His words: "Take pride in what you do and you will come through this present bewildering experience a better person with a depth of character and personality which can only be developed by meeting adversity with your chin up," is meaningful enough for me to pass along...

The New Canadian, newspaper published by nisei Canadians, commented thus on our recent beauty contest: "the qualifications are simple...18-25, wear identification to show the block she represents and finalement, wear hirosery... Now I ask ya... is that a comment on the shape of J. A. legs which may have to be flattered by a sleek pair of nylon or does it mean that the gal has to be a plutocrat with priorities to become a queen?..."

We've taken a lot of this "dai-kon asi" jokes but we're in the category who think that nisei girls in Manzanar do have nice legs...

SCHOOLDAYS...

The other day I received a letter postmarked Michigan from a schoolmate. He was one of the 10 in the gang who had so much fun in school. There were five of us girls and five fellows studying the three "R's" since grammar school. Our group, like a lot of other nisei groups, were a happy-go-lucky bunch with the attitude of "be merry for tomorrow we may die." Perhaps evacuation proved to be a blessing for we have grown out of our narrow selves to become serious individuals out of a prosaic group of school kids.

CLASSIFIED ADS

FOR SALE: Any one interested in purchasing baby rabbits, piglets, ducks and chickens, please get in touch with Mr. Nakamura of block 12. Not only would it be educational for the children but would also add toward their amusement.

WANTED: Good condition electric refrigerator. State year, size and make. Contact Tom S. Ickanda, 215 Maple Street, Reno, Nev.

'Y' CLUBS MEET

On Monday evening an informal "get-acquainted" supper was held by the "Y" club at the YWCA hall to discuss re-furnishing 19-15 and plan the fall program. Present at the meeting were members of the board, staff, presidents of different clubs and their advisors.

PLAN JAM SESSION

Sponsored by the Social Activities Division, there will be a "jam session" tomorrow night at 7-15 at 7:30 p.m., announced Joe Sakai.

Those who wish to hear their own records may bring them to be played, he said. Requests will be taken and filled according to the records they have on hand.

—TWO CO-OP DELEGATES.
(Continued from Page One)

CHANCE EXPLAINED

Mr. Yasuda explained that the Congress voted to send three delegates should this conference be held somewhere in the Rocky Mountain region but the change in locale was received on Thursday from the WRA. It was explained that Chicago was chosen for its large business concerns and the contacts which can be made. Since it was necessary for the delegates to leave Friday afternoon to be present at the conference, there was no time to notify the congress on the change.

The conference began on September 28, and will last through September 30.

Formulate Fall Fair Financial Figures

Financial statement of the recent Fall Fair sponsored by the Community Activities Department was released by General Chairman Jyotaro Kohigashi this week.

Gross sales including the bingo game totaled \$5269.02, from which expenses \$2376.09 were deducted leaving a net profit of \$1892.93. The Community Activities Department retained one-third of the net profit amounting to \$541.18. The remainder of \$1351.75 was retained by the organizations participating in the Fall Fair.

The expenses incurred by the Community Activities Department during the fair amounted to \$126.06 which being deducted from the \$541.18 retained, leaves a net income of \$415.12 in the general fund.

The gross income from the bingo game was \$650.38 from which expenses of \$232.31 were deducted leaving \$418.07 in net profit. Of this figure, one-third or \$139.35 was put into the Christmas Fund, another one-third was divided evenly among Community Activities Department, Community Welfare Department and Education Department, each receiving \$46.45. The last one-third was divided evenly among the

Niseis Serve Meals To War Prisoners

MARENGO, Ill., Sept. 29—An international flavor was added today to the meals served the potato diggers at the Curtiss Candy Company, Farms west of Marengo.

When 60 German prisoners of war from Camp Grant, Ill., arrived in Marengo to dig potatoes for the company, they were served by Japanese-American workers whose presence in this area aroused such a furore when they were removed from the West Coast and hired for summer gardening.

21 organizations that helped.

Job Opening For Medical Student

University of Nebraska College of Medicine has an opening for a technical assistant in anatomy, according to the Relocation Office.

"His work will not be heavy and will consist of preparing and embalming of bodies, assembling of skeletons and he is to be in charge of both work and store rooms," the Relocation Office disclosed.

"This job is ideal for a pre-medical student or mortician's assistant. Although no experience is necessary, applicant should have a mechanical mind and be handy with tools. Salary for a two months' trial basis will be \$1500 a year and \$1800 thereafter.

An accountant-bookkeeper, capable in handling books, accounts, deposits and receipts, is sought at \$140 per month wage by a garage concern in Omaha, Nebraska. This position is a permanent one.

There is an opening for a couple to take charge of house cleaning, cooking and caring of the house in Indianapolis, Indiana. The family now has a landress and a yardman. The couple will receive \$200 monthly plus two rooms, a bathroom and separate linen closet. They will also receive one day off per week.

A greenhouse worker concern in Long Island, New York, would like to hire a man experienced in greenhouse work. The greenhouse specializes in the growing of carnations and chrysanthemums and now employs 7 to 8 workers.

Employees for this concern work 9 hours a day and receive \$110 monthly plus bonus. The bonus is a profit-sharing plan and the amount depends upon the earnings of the company and the ability of the employee. Employees have been averaging over \$30 monthly bonus on this plan.

Local Zone Postal Rates to Manzanar

Around the BLOCKS

BLOCK 8. Residents objected to some of the concessions at the recent carnival. These are "bad influences" as children spend all their money. A suggestion was made that if a certain department is in need of money, a collection should be started.

BLOCK 29. The tennis court which is being built by the young men of the block has been completed.

BLOCK 30. Since the football leagues have been completed, the interest of the young fellows has turned to hardball. Many of the fellows have turned out for various hardball baseball teams. Chokichi Nakano, block manager, left to attend the inter-center Co-op conference which is being held in Chicago.

-Introducing- Man Behind Scene

There's a fellow down in Lone Pine who is doing a lot of work for the Manzanar Free Press, getting his share of complaints and very little praise. He's the linotype operator known to us only as C. M. Berryhill. He's never met us and we've never met him. And we easily put the blame of errors on his shoulders.

It's a wonder that he, not having had any previous contact with Japanese, could spell all the tongue-twisting names without making so many mistakes. He certainly deserves credit for the work that he is doing.

The Pictorial Issue which probably made him drink more aspirin than he ever did, and gave him nightmares, came out a little better because of the energy he put into it. On top of all this, he works on three other papers of the valley.

Take a bow, Mr. Linotype Operator. We may have put in complaints about this and that and we may have acted like unappreciative people but we haven't forgotten the work that you are doing. Thanks a million.

Housing Section Faces Problems

Housing Department is still confronted with an inadequate number of apartments to provide private living quarters for all family units, according to its monthly report for August. As quarters become empty through segregation, the department plans to provide privacy for all family units which so desire. They are planning to place socially maladjusted individuals, those of ill health desiring privacy, and childless couples in apartments of the 3-beam size whenever possible.

There has been diminished activity in the partitioning of the larger apartments into smaller units in anticipation of sufficient apartments available after segregation to provide separate living quarters for all family groups which so desire; or because of a social problem separation is desirable, it was reported.

Due to the partitioning of apartments to provide privacy, there are now 77 apartments without stoves. Since it is impossible at the present time to procure additional stoves, the stoves made available from vacated apartments will be placed in present unheated apartments.

The department plans to continue maintaining close contact with problems of center residents and from these, compile reports and referrals to Community Welfare, Community Services and the assistant project director's office.
