

# Demorest Explains Draft Deferment Matters Here

Deferments and other matters in connection with the draft were explained this week by C. E. Demorest of the Bishop Selective Service Board, announced Walter Heath of the Relocation Office.

Demorest stated that farm operators and farm laborers may receive deferments if, in the opinion of the County War Agricultural Board of the district in which they reside, their deferral is necessary to the war. He added however, that these persons must have had considerable previous experience in agriculture and that such deferments will not be considered for persons of 22 years of age or younger.

"Industrial workers may be deferred only if they are working at a skill which demands training and if drafting of such persons would interfere with the activities essential to the war," Demorest was quoted as stating. "Persons who are under 25 years of age will not be considered for deferrals of this type," it added.

## ALLOWANCES

Demorest said that as a matter of right, the wife and children of servicemen will receive dependent's allowance. Fifty dollars will be paid to the wife, \$30 to a wife with a child and \$20 for each additional child.

Most of this money is paid by the Government, but a portion is deducted from the serviceman's pay, according to the announcement. It also was disclosed that parents who remain in relocation.

## Grand Jury Indicts Five Tule Internees

SACRAMENTO, Feb. 16—Five Japanese internees at the Tule Lake segregation center were indicted by a Federal Grand Jury last week—four on charges of illegal possession of sake or liquor and one on charges of stealing Government foodstuffs. Four of those were alien-born Japanese, reported the Los Angeles Examiner.

One of the four alien-born Japanese is John Sasaki Kazuso, 49, who was caught, Federal officers said, in possession of a five-gallon liquor still.

Others indicted included Asachi Walter Imai, 33, charged with taking government property, including a "considerable quantity" of groceries, from the camp warehouses. Imai was born in Hawaii and the only American-born Japanese named in the indictment.

Toshiaki Ishida, 50; Masayoshi Sato, 52, and Hungiro Shimamura, 42, all on charges of illegal possession of sake and other alcoholic spirits.

According to Assistant U. S. Attorney Thomas O'Hara, all of the defendants were recorded as having disclaimed allegiance whatever to the United States.

## Fiscal Department Distributes Checks

All January pay checks, numbering some 3900 and totaling \$57,454 were received this week by the Fiscal Department, according to R. C. Boczkiewicz, budget and finance supervisor.

He declared, however, that only \$10,000 worth of pay checks will be distributed daily at the request of the Cooperative Enterprises. This request was made by the Co-op since they did not have sufficient money in the reserve to cash the entire amount at one time.

According to the Budget and Finance Supervisor, this would eliminate the long lines which formed during the past and would assure everyone the possibility of having their checks cashed on the day of their issuance.

## JOBS AVAILABLE, STATES MILLER

Announcement has been made by Arthur H. Miller, personnel officer, that there is an urgent need for workers in the garage and several offices.

Three senior mechanics, who will receive \$19 a month, are needed in the garage. Jobs are also open for three \$16-a-month mechanics, three utility men, and two parts stockroom men at B

and C rating. Applicants for the last job should see Mr. Miller for an interview, whether they are employed at present or not, stated Miller.

Four stenographer and twelve office clerical workers, including typists and file clerks, are needed to fill several jobs in several offices.

## Personnel Officer Explains How To Secure Draft Cards

To avoid delay and trouble, persons who do not have their registration or classification cards, obtain information as to how to secure them at the local employment office at 1-4-4, announced Arthur Miller, personnel officer.

As previously announced, potential relocators or others who are lacking D.S.S. forms 2 or 57 may write to their local draft boards or the California State Selective Service headquarters in Sacramento. If the person does not know the number or address of their local draft board, they should give their last address prior to evacuation to the state selective service headquarters which will forward the request to the proper board.

Clarifying the local board situation Miller stated that, all persons who registered in Manzanar are not registered with the Bishop board but with the local board which was the nearest to their former residence prior to evacuation. Bishop has no records or files for any of the people in Manzanar. One of the reasons for this is to preserve their last legal residence, Miller stressed.

This procedure will relieve the local board in Bishop of the additional burden and will eliminate the time required for correspondence between Manzanar and the Bishop board, Miller said.

## New Teacher Arrives

Addition of Elizabeth Nail to the local secondary school staff was announced by Rollin Fox, secondary school principal. She will teach in the commercial department.

She formerly taught at the Topaz High School and is the wife of Capt. Donald Nail, former commanding officer of the local M. E. post. She received her M. A. degree at the University of Texas, stated Fox.

## OPA Appoints Collins Ration Board Clerk

Replacing Mrs. Earl Barton, Mrs. Lenor Pauline Collins was appointed by the OPA last week as clerk of the Manzanar War Price and Ration Board. Mrs. Barton resigned to accompany her husband who has relinquished his post here as executive property officer to take up duties at the Los Angeles office of the WRA.

Mrs. Collins is the wife of Henry P. Collins, assistant internal security officer in camp.

## 'Pin-Up Problem

Manzanar's Tule Lake bound babies were almost caught with their pants down—or rather without their diapers—but they won't have to worry about that any more.

Burney O. Wilson head of the Procurement Department, who has been looking into this diddle situation, has announced that this triangle affair will be settled any time now.

And the discovery of a solution to this pin-up problem drew many comments.

"I see a wet future ahead," one bystander remarked.

## COME CLAIM PACK

Package from Sears, Roebuck and Co. has been unclaimed for over two months, and is waiting for the owner to call for it, announced the Manzanar post office. It is addressed to Mr., Mrs. or Miss Ito with no address other than "Manzanar, Cal." It was mailed C.O.D. for \$31.05 on Nov. 30. The addressee should call at the main post office for the parcel.

## WRA Takes Steps To Protect Centers

SAN FRANCISCO, Feb. 16—Army and War Relocation Authority, following the outbreak of Japanese atrocity stories, speed up precautionary measures to protect the four centers located in the Far West against any possible outside attack, the San Francisco Chronicle reported lately.

Lieut. Gen. Delos C. Emmons, commanding general of the Western Defense Command issued strict warning against retaliation action of any kind.

"Such effort would do no good," explained Emmons. "Our people must rest assured that in the proper time and place exact and unflinching retaliation will be met out to the Japanese who have been guilty of these dastardly and cowardly acts."

## TULE LAKE UNHARMED

Bitter resentment against the atrocity acts were heard in a neighborhood town from Tule Lake, America's largest disloyal relocation center, but demonstrations were not expected. This was indicated with the Army removing their remaining heavy equipment from the center. They were, however, situated a quarter of a mile from the center, giving indications that they were standing by.

This news report quoted Project Director Ralph P. Merritt as referring to Manzanar evacuees as being "practically all boys" and that the residents there were "very much disturbed" about the treatment given American prisoners.

parcel post department. The addressee is requested to claim the package at 1-15-3 immediately.

## Aces Eliminate Sears Nine 13-3 To Capture Baseball Pennant

The pre-season favorite, San Fernando Aces easily trounced the once underdog Sears, 13-3 with a throng of 2,000 plus fans witnessing the championship baseball game at the ball park Sunday afternoon. This crown determining game gloriously brought the Manzanar baseball season to a close after six successive months.

## Photo of Blind Nisei Contained In Life

With a bold caption head entitled "BLIND NISEI," a full page picture of an American hero was contained in last week's edition of Life magazine.

The picture shows Yoshinao Omiya, 24, member of the much publicized 100th Battalion, sitting patiently in bed, bandages covering both his eyes.

Private Omiya of Honolulu will never see again. On Oct. 13, he was the fourth in line of a column of Japanese American soldiers who were crossing the Volturno River in Italy. The leader of the column suddenly tripped over a booby-trap wire. The explosion blew out one of Yoshinao's eyes and damaged the other.

The picture of this blind hero was taken in Stark General Hospital, Charleston, S. C. Since then he has been evacuated to the Kennedy General Hospital in Memphis.

## Korematsu Appeals To Supreme Court

WASHINGTON, Feb. 16—Fred Toyosaburo Korematsu, Topaz evacuee convicted of violating the curfew proclamation by Lieut. Gen. J. L. DeWitt, appealed to the Supreme Court last week to determine constitutionality of evacuation orders under which he was taken from San Leandro, Calif. He appealed from a Ninth Federal Circuit Court decision which upheld his conviction in the Northern California district court of the charge.

His petition stated that at the time of his arrest, he had deliberately remained in San Leandro knowing that he had been excluded from that area under a proclamation by the Western Defense Command. His reason for refusing to obey the military mandate, the petition said, was that he did not wish to leave his girl, his home or his friends.

The Supreme Court recently held that the Army had the wartime right to place the Japanese under curfew orders. It will be announced later whether consideration will be given to Korematsu's petition.

## Cattle Run Amuck At Reynold's Ranch

Three wild cattle ran amuck at the Reynold's Ranch recently, one which broke three ropes before being brought under control by ranch hands, Internal Security Chief John L. Gilkey revealed recently in issuing a warning to residents hiking in that area.

"These cattle are so wild they may kill anyone wandering around there," Chief Gilkey stressed.

With the finishing of the title match, the victor's roster lined up while Henry Kinoshita received the large pennant from its presenter, Frank Kurahashi while coach-player, Tak Takahashi received the handsome trophy in behalf of the team.

At the beginning of the sixth inning, Sears began to loosen the 9-run noose from the Aces after two men tallied with no out, but it fell short as two men grounded with the last batter popping out.

The Sears horsehiders ran wild in one of their games to tally five runs in the final inning to knot the count at 10-all. It could have been any team's game until the tilt ended.

An inning by inning account of the game is as follows:

## Introduce Bill Aimed At Disloyal Citizens

WASHINGTON, Feb. 16—Rep. Gearhart (R) Cal. in a bill which would require U. S. Japanese to renounce allegiance to Japan and file an oath of allegiance toward the United States, said that, if passed, it will disclose over 30,000 disloyal Japanese in the United States, according to the Los Angeles Times recently.

"Already," he was quoted as saying, "2772 Japanese have requested deportation to Japan, openly professing loyalty to that empire. Over 20,000 have refused to give any written expression of loyalty to the United States."

Failure of filing an oath within 60 days will mean the "worse report stated," deportation to Japan" or "loss of United States citizenship" should the bill be passed.

## Roosevelt Condemns Racial Violence Acts

NEW YORK, Feb. 12—President Roosevelt condemned bigotry and racial violence committed by some Americans following the news of Japanese atrocity acts with the statement that they "have betrayed our cause and damaged the world's respect for our faith," the San Francisco Chronicle reported lately.

Condemnation against hate-mongers was voiced by the president with the declaration that "acts of violence" reflect unfavorably "at a time when America requires greatness of spirit" during a racial observance at the Federal Council of Churches of Christ in America.

"Some such men deserve our censure," Roosevelt declared. "Some are entitled to our contempt. All require the never ceasing reiteration of the Christian and American faith in the dignity of all peoples and right of all men to equal treatment in this land and on the earth."

## Public Property As Souvenirs

Our pride and joy, the infant guayule project discloses that out of rubber extracted from brush growths looking superficially as though they lacked chlorophyll content sample rubber stoppers have been produced. One of them proudly rests on the project director's desk.

When its experimental progress warrants, we suppose that the guayule project will graduate to the mass production stage. In the course of the manufacturing schedule, probably rubber stoppers will be one of the products. But we are inclined to advise the director that his effort in this noble enterprise would be futile. One of Manzanar housewives' chronic problems is the disappearances of sink stoppers in the laundry rooms. As fast as the stoppers are provided, they disappear with the departure of the second, if not the first user.

## A SOLUTION

Of course, there is a solution. The director could order each stopper to be guarded by the police. If this is impractical, the director can have the attachments hitched on chains the size of battleship's anchor chains.

A lagging phase of the American way of life has been, we think, its failure to install in the public's mind and heart the meaning of the sacredness of that class of estate known as public property. The individuals who comprise the public would never stoop to appropriating stoppers—if they are guarded by the police, or anchor chained.

Of course, the public and the individual are utterly blameless. How can it be otherwise than the American way of life is to be blamed for the disappearance of rubber stoppers?

## On Magazine Clipping

When browsing through a magazine, nothing is so annoying as to find a page torn out or a corner clipped from a page. Life, of course, is never complete without coupon-clippers, picture-cutter-outers, doodlers and page-rippers, but their practice is unexcusable when their scissors and pencils creep into public property.

Magazines in the main library are being mutilated by these persons. Compiling scrap-books is a fascinating hobby; so is playing the ponies if the firm's funds aren't appropriated for the purposes. Fund appropriators must face legal action, while library magazine defacers heretofore had against them only editorials which they needn't even read.

Therefore, a fine of 50 cents will be imposed upon anyone mutilating a magazine, and if magazines continue to be cut up and ruined, no more periodicals will be allowed to circulate from the library.

## Letters from the Public

(Following are some of the comments received by the San Francisco Chronicle following its publication of the report on Sgt. Ben Kuroki's address before the gilded Commonwealth Club in that city. Eds' Note.)

### CONTRAST

Editor—Sgt. Ben Kuroki's radio speech, which I heard and later had the pleasure of reading in the Chronicle, was the speech of a brave and sincere American who believes in Democracy and is willing to fight for it.

How sharply has calm good sense, tingled sometimes with sadness, contrasts against the shrill hysterical nonsense of the home front "professional patrioteers" who want us to believe that every man with a yellow or brown skin and "slant eyes" is a barbarian.

D. W. Ward  
San Francisco

### INTOLERANCE

Editor—How anyone can be condemned because of the accident of birth is beyond me, and the story of Sergeant Kuroki's fight against intolerance because of his ancestry, as reported in The Chronicle of February 5,

## DON'T READ THIS...

If you have more money than you can handle and prefer to find some way to spend it. But, if you are among the greater majority of us who are dependent solely on allowances from WRA, then, Town Hall and the block managers assembly asks your cooperation in keeping expenditures down to within our means.

An analysis of camp finances show that every evacuee man, woman and child is spending \$4.67 more than his income. It is quite logical that something must give if precautionary measures are not taken immediately.

## AN EDITORIAL

## Clean Bill Of Health

Whether Congressman Gearhart's proposal will be made a law requiring evacuees to pledge allegiance, or obedience in the case of isseis, remains to be seen. Whether such a law would nullify the WRA-instituted loyalty and obedience questionnaire, the basis upon which the Japanese are being sent to Tule Lake, also remains to be seen.

Of course, Manzanar's approximately 1200 18-38-year-old male citizens who shortly will be drafted, probably can by-pass the edict of the proposed legislation; for they will be required to give their oaths upon induction. From this, no exemption even for those draft-eligible niseis who go to Tule Lake.

As the Pasadena Star News editorially comments upon the Fresno Congressman's proposed legislation, the evacuees "must suffer under the ancient rule that the sins of the fathers are visited upon his children." Such a proposal, if effected, should place the evacuees in that unique category among the people of America who would have the cleanest bill of health from the standpoint of at-tested loyalty and obedience to the United States.

certainly is indicative to me that there is real substance (and under the circumstances there can't be) behind the various slogans that one hears today are good will and toleration.

Pvt. Nate Pressman  
Pittsburg

### TOLERANCE

Editor—After hearing and also reading what Sergeant Ben Kuroki said at the Commonwealth luncheon yesterday one feels that the all important object of American education is tolerance. In no place on this grain of sand on the strand of the universe is it more important than in the U.S.A., with its races, creeds and colors.

What this Japanese boy has stood up against and conquered is, as he well said, living and practicing true democracy, that in the end it may not be echoed: "Liberty! What crimes are committed in your name!"

Francis Krall  
San Francisco.

## Coloradoans Oppose Exclusion Proposal

DENVER, Feb. 16—Witnesses ranging from a mayor to a soldier gave their say last week in the Colorado House of Representatives on a proposed amendment to the State Constitution to forbid ownership of property in Colorado by Japanese nationals.

Speaking in behalf of nine other comrade-in-arms, Sergeant Jimmy Gozawa, who is stationed at Camp Carson, Colo., opposed the amendment.

"We are preparing to go overseas. We're going to be hungry and wounded and we may not come back. But let us have this assurance—that our loved ones over here won't be discriminated against."

Dr. J. W. Wells, mayor of Brighton, Colo., and father of a soldier taken prisoner on Bataan, favored the proposal.

Another witness, Dean Paul Roberts of St. John's Episcopal Cathedral, Denver, told the committee there were more men of Japanese descent in the American Army than any other minority racial group.

## Piano Renting Fee

Because of the Community Activities Cooperative Association must pay the tuning fee for their pianos, which is \$7.50 a tuning, it will be necessary to charge a \$1 per day loan fee whenever the pianos are moved, announced Aksel Nielsen.

Fees will be charged each day the piano is rented so the borrower is reminded to return it as soon as possible.

## Tule Bounders Paid Patronage Refunds

Patronage refunds for the month of July, August and September for those leaving for Tule Lake has been paid stated the Co-op Management.

Membership certificates of the same group of people are to be turned in to the respective block offices. The reverse side of these certificates must have the signature, ID number, present address and also the forwarding address of the individual.

It was also revealed that returning for the period covering October, November and December are under computation.

ion centers may not be entitled to allowances, but that wives and children would be.

In very unusual circumstances, deferrals are granted if it would cause the family of the inductee unusual hardship. Such deferrals are quite rare, however, and Demorest said that he did not believe any such deferrals would be possible for persons who remain in relocation centers.

## NOTICES

A number of pre-induction physical examination notices were sent to former West Los Angeles men by their draft board and these are being turned over to Arthur Miller, the Personnel Management Officer, so that the transfer can be arranged to the Bishop Board, the information revealed. It added that after a request for transfer to the Bishop Board has been made, the individual is responsible for appearing for a physical examination as arranged by the Bishop Draft Board. Such persons will, therefore, not leave the relocation center except in most unusual circumstances.

"Until an order to appear for pre-induction examination is actually received, persons remain eligible for indefinite leave, according to Walter Heath.

## Co-op Shows Stable Financial Status

Holding the ratio of current assets to current liabilities at a good 1 to 2.94, the January balance sheet of the Manzanar Cooperative Enterprises shows the finances to be very well organized.

Deducting Free Press, theater and other minor expenses, the net income for January is listed as \$3,348.92, the lowest figure in the last four months. This may be attributed to the fact that there was an explainable decrease in sales following the holiday season.

Except for the low sales in January and the relative low net income, the gain and loss on the control, operating expenses and inventory remained fairly stable.

## ASK RETURN BUGLES

All boys who have bugles checked out from the boy scout office are requested to turn them in at the Community Activities office at once.

### FARGO ATTRACTS MANY RESETTLERS

(This is the sixth in the series of articles which are intended to furnish the various information on WRA's relocation offices and the work which they are doing in job placements and relocation adjustments.—Ed. Note.)

Fargo, North Dakota's relocation office was started early in April, 1943 by Relocation Officer Elmer B. Isaksen. The city has always had attractions and apparently these same attractions exist for the Japanese Americans as well as they do for other groups. To date, some 45 to 50 people of Japanese ancestry have resettled in this area and most of them are employed in hotels, farms, newspaper offices and do-

mestic jobs.

#### SFL PREXY RESISTS

One of the most serious problems up until the end of the harvest season has been with the resistance created by the president of the State Federation of Labor who declared that he would stop any attempt to place evacuees in North Dakota.

Encouragement to evacuees by the Farm Security and Farm Credit Administration along with other Federal agencies should not only be financial but cooperation in farm selection and term payment as granted to other farmers should be given, according to Relocation Officer Isaksen. Whether or not the Farm Security Administration Supervisors have received a memorandum or instruction from the regional or state supervisors regarding the relocation evacuees through the FSA is not known by him.

#### COOPERATIVE BASIS

Any attempt for a set up of group of evacuees on a cooperative basis is being discouraged by Isaksen. It is his belief that if steps are being taken to relocate any on the group basis, it should be a very informal plan with not more than three or four families involved.

One problem which the Fargo office hopes may in some degree be solved at the projects is the evacuee's attitude toward accepting work which he believes is beneath his dignity. It was disclosed that evacuees come out of the center with an inflated desire for short hours, high wages and housing conditions which only a few of the outside people are able to secure. On their arrival some are disappointed and undoubtedly letters go back to their friends at the center pointing out that perhaps life in the center, after all, is just as good.

### Seek Watchmakers

Two experienced watchmakers are sought by the Haines Jewelry company of Omaha, Nebraska, announced the Relocation Office. Tools will be furnished and sold by salary deduction.

The office stated that the work will be a government contract and will be on a 50 per cent commission basis.

### To Offer Course In American History

Outline of American History, a course to be given Wednesday evenings from 7:30 to 9 p.m. in 30-15-2, will be taught by Rev. Takeshi Ban, D. D., who came to Manzanar a few months ago, announced Dr. Melvin Strong, director of Adult Education.

Men and women, issei, kibe, and nisei are invited to attend this course which will begin March 1. For additional information, those interested should call at the Adult Education Office, 7-1-1, or see Dr. Ban at his home, 26-11-4, or at his classroom, 30-15-2, after 7:30 p.m., Dr. Strong stated.

In addition to this course in American history, Dr. Ban is planning a series of panel discussions to be given for the benefit of the issei especially. These panels will be given Thursday from 7:30 to 9:30 p.m. in 30-15-2. Everyone will be welcome, stated Dr. Strong.

### Chicago Has Most Local Relocates

Three cities to which Manzanar residents have resettled the most include Chicago with 321, Salt Lake City with 56 and Denver with 40, according to the Relocation Office's statistics.

Of the total number of resettlers from Manzanar, 88 per cent are citizens while the remaining 12 per cent are aliens. The total number of families who have resettled to date numbers 154 while individuals in the families who have resettled amounts to 496.

The total number of partial families relocating, that is families in which two or more members have relocated but one or more members remaining in Manzanar or in an internment camp was listed at 87 for total number

### A Year Ago . . . THIS WEEK

Initial steps of the center-wide registration conducted to enable the residents a greater participation in the war effort was finished early this week, stated Registration Coordinator Robert Throckmorton.

All sugar ration books held by furlough workers, that have not been turned in, must be surrendered to the Mess Division as soon as possible or details for shoe rationing cannot be worked out.

John C. Baker, WRA office of reports chief, announced that for the benefit of evacuees seeking work a network of relocation offices and field stations throughout the middle west and Rocky Mountain region is being organized following a series of conferences held in Chicago and Washington, last month.

Tentatively set to depart from here to the Hunt WRA center in Twin Falls, Idaho, next Wednesday are 204 residents from block 3, the vast majority of them Bainbridge Island, Washington evacuees, with the WRA bearing the transportation cost.

Registration for those parties in applying for repatriation and expatriation will be held at the Town Hall this coming Monday and Tuesday, stated Lucy W. Adams, supervisor of registration.

Federal restrictions affecting production of newspaper is the order behind the reduction of Sunday newspapers in the center it was disclosed this week by George Yamashita manager of the magazine department.

四、二月份の買物受取証と必らず区事務所へ、  
二月一日から御出費の日迄の受取証を區事務所へ御届け置き、下これに後、同時に御返金致します。五、其の他解らぬ事は何んど共同組合受付部又はインフォオームーション部に御尋ねの程御願ひ致します。

その結果輸血の必要に迫られ、オハ食堂従業員に訴えたところ、葛志家數名が即座に出現し、同氏に血を與へた。
