## Give Answers To Seasonal Leave. **Draft Ouestions**

Answers to questions regarding the recruiting of seasonal workers from the centers to be employed under government contracts were received directly this week from Selective Service Headquarters of Sacramento, California, through Local Board No. 134 at Bishop, announced Arthur H. Miller, Relocation Office head.

The questions and answers are as follows:

as follows:

(1) Do men who would like to go on seasonal leave have to remain at Manzanar until their pre-induction medical examination have been given?

Ans: No. Until they have received their pre-induction order, they are free to go on any kind of leave, but in doing so, they will become subject to orders of nearest local board where they are working for pre-induction medical examination and induction.

(2) May they return to Man-

get their pre-induction medical examination at Manzanar when the order is received?

Ans. Yes, at their own expense. There is no other way to return to Manzanar for these purposes except at their own expense.

(3) Can they receive their pre-induction medical examination from the nearest local board at the place where they are working on seasonal leave?

Ans. Yes, they can be given pre-induction medical examination at the nearest local board which will advise them whether they have passed the examination and when they are to be inducted. That board will also notify Local Board No. 134, Bishop, the result of their medical examination and if they have passed the examination, they can return to Manzanar for induction at their own expense, otherwise they will be inducted from the place where they are working under seasonal leave; and if they have not passed, they can continue to work under their seasonal leave conton the conton of the conton of the page Two)

#### Relocation May Aid Return To Coast

A statement made by National WRA Director Dillon S. Myer recently, concerning the effect of relocation on return of Japanese Americans to the West Coast, was received this week from Washington.

Director Myer states that no advantage can result from continued center residence, when return to the western coast area becomes possible. The advantage of making every possible effort to resettle now, and thus establish a place for Japanese Americans in the life of normal Americans in the life of normal Americans in the life of normal american communities, in terms of the contribution that they can should make, will in turn make for a more likely acceptance by the people of the West Coast later. SECLUDED ATMOSPHERE

"Refusal to accept a share of the responsibilities and possible hardships of such community life during wartime, and insistance on remaining in the secluded atmosphere of the centers, while there is need and demand for just those skills and services that center residents can supply, will, in the public mind, certainly not enhance or improve the status of those who otherwise may be able to return to their homes and property on the west coast.

"You can be assured that center residents do not lose their legal residence in the states from which they were evacuated merely because they relocate. If they intend or hope to return to their former homes when the military restrictions are lifted, they should maintain their voting privileges in those states by complying with the provisions of the state laws governing registration and absentee voting."

## Lee Poole, Yasuda Return From Amache Cooperative Conference

Returning Tuesday from the conference of the Federation of Center Business Enterprises in Amache, Colo. were Business Enterprises Supervisor Lee C. Poole and delegate Frank Yasuda.

Yasuda revealed that the conference was a very suc-

He added that the details would be released as soon as he had made his report to the board of directors. Yasuda stated that the other delegates are expected to return shortly. S. Takeyasu had gone to Denson, Ark. after the conference while Henry Tsurutani and Mike Hori were visiting other centers.

#### GRANADA CENTER

"The Granada center is pretty good," said Yasuda, "but as a whole Manzanar is the best." He disclosed that there were no

"The attitude of the residents show a marked difference from those in Manzanar. It appears as though they consider themselves as living quite naturally; whereas in Manzanar the atmosphere is one of confinement. ## Comments Differ At Panel Meeting On Voting Issue

Everyone from the Japanese alien to the Project Director, from the school teacher to the project attorney, gathered—about 150 in all Monday—to talk about "America In The Making."

This was the third in the series of panel discussions of its kind to be held at kitchen 14 with the appointed personnel and the evacuee residents attending.

#### VOTING A RIGHT

"VOTING A RIGHT

"Voting is not a privilege but a right," Kishio Matoba, editor of the Free Press, also from the audience, retorted. He explained that the word "privilege" meant an advantage conferred by someone of authority. In that sense, he replied, voting could not be rightly called a privilege in a democracy. Simply because, he stressed, no one person or group is technically higher in authority than the people who do the voting. Only dictators grant a privilege to the people by allowing them to vote, he opined.

Arrest Three Youths

A Western Defense order violation, prohibiting the crossing of designated Manzanar boundary lines, as set forth by the Presidential Proclamation, sent three evacues here to the Manzanar Internal Security jail.

When these youths were found beyond the center boundaries, they were picked up by four soldiers of the local M. P. company and, according to one of the arrested boys, were taken back to the Military Police Headquarters under the escort of the sentries. The boys declared that the guards made them hustle during the forced march.

The detained youths were found near George's Creek from where they carried the field packs of the M.P.s, two of the boys awaiting trial said.

#### Doctor Muramoto To Leave Manzanar

After serving a year and a half as a physician at the local Base Hospital, Dr. Jiro Muramoto will relocate to Lincoln, Nebraska Monday to practice orthopedic cases at a hospital in that city, according to Chief Medical Officer Dr. Morse Little. He will be accompanied by his wife and daughter. A resident of Sacramento prior to the evacuation, where he was in private practice, he was evacuted to Walerga Assembly center from where he transferred to Tule Lake. He came to Manzanarin August, 1942.

While here, doctor Muramoto handled various operations.

#### Loyal Americans

(The following excerpts were taken from a recent issue of the Cocconino Sun of Phoenix, Ariz.—Ed. Note.)

The Japanese Americans face a peculiarly humiliating test of loyalty to American Democracy.

The Japanese American question is.....a problem for the Japanese Americans.....to prove to an outraged and suspicious people that he can take it and come up fighting for more. There is no denying they are victims of an extremely harsh but necessary hardship of war.

There are few, if any, who are not feeling the horror and devastation of war. On our highways and on our streets in our villages and cities, are rows of empty buildings -their shelves and counters and tools covered with the dust and rust of abandonment. The owners of these businesses are at war-fighting and starving and suffering and dying in the stinking, sweating, freezing pest holes of the whole world. Again and again they come back for more. It's more than humiliation they suffer. Business, home, loved ones, future—all the horors of war immediately at hand.

The Japanese American has been ruthlessly snatched from everything he holds dear, and interned under guard. Most valuable thing of all they have lost is the respect of their companions. But to their everlasting credit some can take it—and, alas, there are many who must in-evitably meet the traitor's fate.

But a loyal American can and does take it—no mat-ter what his racial orgin may be. There is no wining, no clamor for the special privileges of a problem people.

The test is simple and sure.

A loyal American can just naturally take it, whatever it is and however and whenever it may come.

Loyal Americans have made and will keep America great!

#### Parallel Problems

Always of interest to the Japanese are the relationships of other minority-majority groups. In many ways, the Negro problem parrallels the problems of the Japanese.

In the San Francisco Bay area, a "Jim Crow" sit-uation recently was studied by Harry Kingman, regional director for the President's Fair Employment Practices committee. The incident specifically concerned the Moore Drydock yard in Oakland. Negroes were fired because of their refusal to pay dues to a "Jim Crow" auxiliary of the Boilermakers' Union.

Meanwhile, Dr. Charles S. Johnson, one of the most distinguished Negroes in this country, made his report of a survey in San Francisco. The poll of 500 white persons reveale dthat 75 per cent were willing to work in a place where Negroes work.

These facts lead toward a conclusion that discrimination in employment is caused by the attitude of organiz-ations such as the Boilermakers' Union, rather than by general public opinion. Quite probably, some of the employment problems of the relocated Japanese is attributable to a similar background.

This story would have ended here, but Miyoko Ida of 8-5-4, who recently won the disting-uished honor of being called the 'mother' of block 8, took up from here.

DIETICIAN

Miyoko Ida works at block 8 kitchen as a dietician—a job that brings her close to children. It was these children she held numerous parties for between her duties in the mess hall. There duties in the mess hall. There were no fancy words of thanks for her, but the gay laughter of these happy children were enough for her. The broad smiles spontaneous and sincere expressed more feeling than a thousand words of thanks.

and words of thanks.

To her, innocent children, all American citizens, who normally would have spent a carefree happy life "outside" were facing the sad consequences of war. She thought these children, whose only "playground" was behind barbed wires, deserved a break, a chance to play like any normal child would. To Miyo—that's what her friends call her for short—the happiest memories she cherish are the recollections of her childhood days. She wanted the children of Manzanar to be able to look back and recall fond memories, too. memories, too

RALPH MERRITT
Project Director Ralph P. Merritt, who had remained silent throughout the entire proceedings, got up. To what he said, everyone agreed. It was about Manzanar and democracy.

"When I first attended a Town Hall meeting at Manzanar, self government was tossed out the window." He followed this with the explanation that many of the centers were operating solely through administrative instructions. ions.

TRUE ACTION

TRUE ACTION

"If you want to find a true action of democracy, you want to look at Manzanar," the project director expressed. He pointed to Klyoharu Anzai, Town Hall chairman and referred to him as the "Mayor of Manzanar." Then he proceeded to talk about the block leaders. They were the representatives of the people. He lauded the government of Manzanar as "most satisfactory."

It was announced at this meeting that the third American In The Making panel discussion will be held in kitchen 14, April 18, to discuss a timely topic—Problems America Faces. Because of the limited seating capacity, seats will be available to only the first-comers. Henceforth, meetings will be on Tuesdays at 8 p.m., it was officially announced.

After enjoying some post season basketball, the local sports will soon begin focusing their lights on softball and baseball. Sign-ups are being taken at the Community Activities and diamond games are planned to begin as soon as enough teams are registered. As this edition goes to press, the Bee League championship till between the Island Lancers and the Tro Babes has not yet been played. The Island Lancers went for five straight triumphs and were suddenly tipped by the underdog, Roughriders, 37-35 in an overtime two Thursdays ago. Prior this humiliating defeat, one week back, the Lancer five went for a 41-13 hayride at the expense of the Tro Babes. Although the Lancers were defeated by the Roughriders, and Lancers slapped the Babes, the reduiformed Babesmen in turn easily downed the Roughrider quintet, 38-20 Monday night. It's all in a game...and nothing can be said about the past.

Misaka broke into the nisei sports headlines.

Misaka, an Ogden, Utah, lad went to the Invitational Basket-ball Tournament to Madlson Square Garden in New York with the University of Utah "Blitz Kids" to win the most coveted title in court laurels.

EXCELLENT PERFORMER

It is reported that Fred Shef-field of the Ute squad sprained his ankle after several minutes of court action and Misaka was called to do the work as play-maker from the key-hole spot.

Thousands of tourney fans are reported to have applauded for the nisei lad on taking and leaving the floor by the New York casabans after he showed his ability as a smooth worker and a cool sphere handler.

Not only is Misaka an outstanding U. of U. hoop artist, but he has attained a high scholastic record and recently made the University's winter quarter honor roll.
