If there are any willing persons, whether 18 or 60, who would like to help in the coming harvest or longer, they should register at the Em-ployment Office or notify the Farm Project at Warehouse 24. Openings exist for farmhands, tractor drivers, and store room keeper.

### **Scholastic Publishes** Local Class Essay

**LOCAI Class Essay** Pupils of the tenth grade of the Manzanar High School under the supervision of Sarah C. Oltmans, teacher, had the honor of having their essay accepted by the School-astic Magazine, a nation-wide magazine dedicated to high school students, for publication. The Scholastic invites original con-tributions from all high school students, the best of which is published in the section "Round Table", the student writers' own page. page.

The circumstances which led to the accepting of the essay was disclosed by Sarah C. Oltmans. She stated that as a part of the mid-term examinations all tenth grade English pupils were asked to write a composition. They, the students, were given a choice of 20 different topics to write about. It so turned out that most of the students chose the topic "Man-zanar" as their theme. "Since the essays, dealing with The circumstances which led to

"Since the essays, dealing with the various phases of Manzanar, were extremely good, and be-cause I was asked by many per-sons to write about Manzanar, I Thought it would be better if the article concerning Manzanar came from the students instead of from me. With this in mind, I then made a composite of the essays which were turned in by the pupils, and hopingly sent it to the Scholastic Magazine for publication," Oltmans disclosed.

# Job Openings For Evacuees Plentiful In Chicago Area

LII Guildigu Affed CHICAGO, III.— (Special) — The Chicago district office of the war relocation authority still hears occasionally from individ-uals that quite a few evacuess think that it is necessary to have a specific job offer before in-definite leave can be granted to relocate in Chicago. For a per-iod of many months, the Chicago office has attempted to impress on the center populations the knowledge that there are many job openings for any employable person in Chicago and the sur-ounding countryside. Among the more than 5,000 job openings now on file in the Chicago dist-rict office, there is a wide sel-ection for almost every type of worker with only a few professi-onal classifications where licens-ing is a factor requiring any pre-liminary correspondence or pres-liminary difficulty in effecting

Lessing, acting district manager in the Chicago office, extends an open invitation to any individual, who feels himself to be at all compared to come or individual, who feels himself to be at all employable, to come on to Chicago for placement aften-arrival. Although housing is a problem for the resettler, it is a problem only in a sense of find-ing the exact type of housing preferred by the individual. Ad-equate shelter in reasonably good surroundings can be assured to all types of individuals and fam-ily groups.

Slated For Newell TULE LAKE—Harry L. Black, acting director of the Newell war relocation administration, said yesterday that 1725 Japanese will be brought from Manzanar, Minidoka, Gila, Heart Mountain, Granada and Rohwer, reported the Sacramento Union. The new residents will bring the population to 18,500. Black, who is acting director in the ab-sence of Ray R. Best, said the first arrivals would come here by the end of April. Joe J. Thomas, WRA housing director, is ascertaining needs of those who will be moved here.

said Heath quoted Price as saying that the climatic conditions in the south are comparable to Cal-ifornia and that all south, with the exception of Florida, appears receptive to Japanese Americans.

#### FARM OPPORTUNITIES

Details of opportunities on two farms are available at the re-location office and more can be found as people come forward who are willing to pioneer this new area, according to Heath. "If conditions are as satisfac-tory as they now appear to be, pioneer families may easily open up localities for numbers of their friends", he concluded.

Advertiser of March 22.—Ed. Note.) "Because of the shortage of both machines and labor in Japan, some observers are of the opinion that the collapse of Japan will be as much through the exhaustion of the civil pop-ulation as through the military defeat. "According to reports leaking out of Japan through various, not yet to be revealed ways, the whole Japanese people have been regimented to a degree never before heard of. The minimum working day for many is a seven-day week of 16 hours a day. The meager supply of adult male Japanese laborers is supple-mented by women, children and slave laborers from Korea and China. "A typical example of labor dilution is shown in the vanhar is norworks in Kyushu. In this plant 32 per cent of the workers are Japanese wouths, both sexes, between fif-teen and twenty; 13 per cent are adult male Japanese."

### The **Twenty Thousand** By K. Matoba

In 1940, the potential nisel vot-ing power in California was ap-proximately 20,000. In the four years since, a large number, have attained voting age. More nisel are reaching the age of 21 than would be the case under ordinary proportions because of the fac' that 20 to 25 years ago marked the peak in issei marriages. This means the eurrent number of nisei of voting age from Calif-ornia may be safely estimated at 25,000. However, a grup of about 5000 will not be eligible to vote in the California election

about 5000 will not be eligible to vote in the California election due to their relocating and estab-lishing residence in another state. The figure now resolves to a current potential Japanese Amer-ican voting power of 20,000. Very few of us realize that we have this relatively powerful oppor-tunity to be heard.

this relatively powerful oppor-tunity to be heard. **POWER OF THE POLLS** In the presidential election of 1916, a difference in popular vote in California of 3806 swung all 13 of the electoral votes to Demo-crat Woodrow Wilson. That year Wilson carried the election by a plurality of 23 electoral votes in the nation. Had 2000 of the voters in California and 15,000 of the voters in North Carolina cast their votes for the Republicant ticket, Charles Evans Hughes would have won the election by a plurality of 2 votes. Here is an example of 17,000 voters being able to decide the president of the United States. We are 20,000. If the 1944 election should be a close race and the electoral votes in California, now 22, should become an important factor in the election, the nisei might be the ones to have the final say.

final say.

might be the ones to have the final say. HYPOTHETICAL Of course, this situation is purely hypothetical and ideali-stic but not impossible as proved by the 1916 example. We can lose nothing by at least preparing for such a situation. Foremost in preparation is reg-istering. A few cents postage in correspondence with the respect-ive county registrar is the most the voting age nisei can "lose". He gains the satisfaction in him-self in the fact that he is an act-ive participant in strengthening the position of the nisel. If we can honestly say that we are 20,000 strong, registered and ready to cast our ballots, vote seekers will be forced into a position where they can not af-ord to ignore the Japanese Am-ericans.

FOR WOMEN Many of the nisei, especially women, seem to have forgotten the 19th amendment to the Con-stitution of the United States: "The right of citizens of the United States to vote shall not be denied or abridged by the United States or by any state on account of sex: for a long the American Water for a long the American

of sex." Heretofore, Japanese American women had tended to leave polit-ies to their brothers and hus-bands. Now, it never before, they are needed to fill the ranks. Every nisei: man, woman and soldier who has attained the age of 21, or will be 21 on or before the general election in November should make it a personal matter to register.

Many citizens who have been voting regularly often know little about minor items on the ballots. A great majority cover up their ignorance of these secondary is-sues by voting a "straight ticket"; either all Democrat or all Repub-lican; or, if the ballots make no provision for marking a "straight ticket", the minor officials and issues are ignored. In order that the nisci be ef-fective as a unit, each of these lesser points must be given con-sideration at least equal to that

Express Baggages Furlough workers planning to have their baggages delivered to their destinations through the Railway Express are requested to cross out all previous addresses on the baggages to insure safe deliveries, stated Justus Sato, department head. had a gift for gab, didn't he? During supper he remained rather silent. He could picture his Kazuko in tears. And he couldn't bear to see a woman crying. That always broke his heart. After finishing his meal, he quietly put down his fork and threw himself in a comfortable sofa. He had failed to open the letter as he started out to. His wire wasn't so hard-zoiled, after all. She looked at him sym-pathetically,and brought him the

after all. She looked at him sym-pathetically, and brought him the evening newspaper. "General MacArthur Urgent Need For More Men," the headline read. Here was the time he had wait-ed for! His hands trembled a little but with determined efforts he nerviously opened the brown envelone. envelope.

envelope. "I nearly forgot about this let-ter," he lied to his wife." I won-der what it's about." He sat down beside his wife by the sofa and read the following lines. "You are herby notified that your application for leave clear-ance has been considered by the Director..."

## Wastin' Time

### WITH MOMO

As the baseball season starts, every ball player dreams of be-coming the star by taking the batting honor or by being chosen as the league's most valuable player of the year. The pitcher usually dreams of pitching a no-hit no-run tilt but it came out more than a dream to Johnny-Van-de Meer a few years back when he hurled two consecutive no-hit no-run games in a row. This dream of pitching a no-hit and no-runner also came true to Boston Braves' hurler, Jimmie Tobin a few weeks ago when he pitched a no-hit no-run game against the Brooklyn Dodgers. But other than the major, minor or any other league, Joe Koyonagi of Guadalupe nine pitched a perfect no-hit no-run game ag-ainst the Brooklyn Dodgers. Hule Lake pre-season league tilt a few weeks ago. In hurling this perfect no-hit no-run game ag-ainst the Manzanites, he allowed only one batter to reach the in-tilal bag on a base-on-ball. Koyo-nagi faced only 28 batters, just one more than the regular 27 batters if no one is allowed to which kept the ball where the batters can't meet it solidly was the main factor of this sensation-al no-hit no-run game sur-batters ari' tmeet it solidly was the main factor of this sensation-al no-hit sense this control which kept the ball with a same but Koyonagi is said the danzen rune but Koyonagi to said the danzen rune but koyonagi to said the danzen rune but key the ball with a same but Koyonagi to said with a same but koyonagi to said the the batters can't meet it solidly was the danzen rune but koyonagi to said the danzen rune to to the dangen the the key the ball with a same the the key the ball with a same the the cow hitewast As the baseball season starts,

Spencer Matsui who is the manager of the Manzanar nine will probably rely on Masao San-to-higashi, it was stated. The line-up given for the Man-znara nine were as follows; Tosh' Matsumoto, former El Santoan at center field; George Hattori, also formerly of Santo at second base; Yogores' contribution, Yosh Fujii working behind the plate; an-other El Santo performer, Tee Kamoto at left field; San Fer-nandos' sensation George Tam-ura the short patch; Tak Taka-hashi also formerly of Aces at first base: former Skippers Ozzie Nishida at the right garden; Red Sox' Shig Tochioka earned the job at the hot corner and Masao Santo-higashi working on the mound. The utilities were listed as Jinmie Tamura, Bill Hori-moto, Tosh Terazawa, Larry Ha-shimoto, Hide Tomita, Hiroshi Uyeda, and Seiji Saski.
