Former Californians **Eligible To Vote**

AMACHE, Colo, May 20—Jap-anese who have been evacuated from California to camps operat-ed by the war relocation author-ity will be eligible to vote in this year's elections in California as absente voters, revealed the Herald Express.

Eberharter's Report

More condemnation has been written and spoken a gainst the war relocation authority program than probably any other subject under the sun. Nevertheless, there are still individuals who arrive at a justifiable and sane conclusion after an unbiased survey.

Congressman Herman P. Eberharter was one of the three-man Dies subcommittee chosen by the House of Repdid not demand the removal of National Director Dillon S. Myer and Tule Lake Director Ray R. Best; recommend transfer of Tule Lake to the jurisdiction of the administration with the Department of Justice in full charge; request the names of Dr. Pedicord's attackers; insist upon Caucasian policing of

all centers to safeguard evacuees and property. Until newspapers and propagandists realize the serious program that the WRA officials are formulating with efficiency and understanding, the American public must continue to receive biased and prejudiced reports, "Investigation of Un-American Propaganda Activities In The United States." He wrote, "It seemed that every opportunity was pounced upon to ferret out minor flaws, and to get abundant publicity on the wildest allegations."

The far-sightedness and seasonal judgment of Myer and Best in the November 1 affair at Tule Lake avoided, he relates, "bloodshed involving innocent women and children" and "re-percussions in the Far East where thousands of American soldiers and civilians are still held as captives of the Japanese.'

In reply to the recommendation of the Dies subcommittee, requesting an all-Caucasian policing staff to patrol the centers, Eberharter declared that this action will be a "departure by the United States from the practice followed throughout the world." He clarified this statement with the words, "It is my understanding that minor policing in prisoner-ofwar camps, internment camps, concentration camps, in all the countries, including those of our enemies, is performed by the residents of the camp."

Congressman Eberharter understands the tremendous task which the war relocation authority faces today. Eberharter may have been a minority member of this three-man Dies subcommittee investigation, and probably with the Hearst press, but the fact must not be overlooked that everyone cannot be open-minded and estremely sincere in complying with the humanitarian methods democracy is noted for. We regret immensely the fact that everyone who speaks of the war relocation authority does not have the understanding and foresight of Congressman Eberharter.

"I don't think the evacuees should remain in relocation cen-ters if they can make a living outside," a friend of mine once told me. "Yes, the evacuees don't have to worry about where their next meal is coming from but thet colu tokes oury a mont? that only takes away a man's ambition

Despite other people's suggest-ons to "stay in Manzanarl" this lad had his heart set to "relocate to the outside world." Was he committing a grave mistake by relocating against the will of his elders? All I can say is he was sincere and strongly determined.

I had successfully managed to I had successfully managed to confine our conversation about himself until he suddenly turn-ed around and asked, "Say, what are your future plans?" "Reloc-ation," I replied praying he won't inquire any further. But he did. "What inland state are you con-sdiering?" he asked. It was then when I first realized that reloc-ation was just at my doorstep and no longer a thing just to be talked about.

This ambitious lad wasn't going to be caught napping; he was going to be an evacuee pioneer, a leader, to blaze the first path to the outside world, perhaps leading a stream of nisei opport-unity seekers. He was "going to work his way through college" and it was going to be tough combining work and studies. However, he told me, he was going to "stick it out to the end" because all his other friends were ecause all his other friends were doing it.

He possessed the necessary stamina and backbone of a suc-cessor. To him success was not marked by boundaries or ties; the sky was the limit. The barb wires of Manzanar wasn't going to set him apart from success.

The reason for his leaving Manzanar against the will of his elders cannot be highly com-mended by all, but he is ambitmended by all, but he is ambit-ious, had a far outlook in life, and refused to be a quitter by throwing up his hands and ex-claiming, "But I didn't ask to be placed in here!" If he could be on his own he was going to do it if he had to search the four cor-ners of the world to find a job. Opportunity might knock at some people's doors, but others have to go out in quest of it, I am told.

The average nisei has just freached his adulthood. We can no longer remain parasites and cling to our hother's apron strings. Not only must we become independent in thought, I am told, but independent from the financial standpoint.

Many evacuees are awakening to the realization that relocation to the realization that relocation is the answer to their prayers. Some are going out on furlough to prepare themselves for reloc-ation. That is why this column comes to an end today. So with these parting words, I hope I'll be seeing all of you soon!
