## A DIFFERENCE

Sponsorediby the Hearst papers an elaborate "I am an American Day" program was held in Los Angeles Smday. The affair was a great success and went over well.

Although the general trend of thought of Nanzanar residents is toward relocation, there are still the embittered few tho feel that those in Los Angeles may well smugly listen to patriotic orations and participate in flag vaving but we of lianzanar should look upon it as foolish sentimentalism. These evacuees are the ones who still feel that goveriment and arlay mest ten der personat epology for the evacuation whe AmeriPerhaps there is a difference between the Americans in Los Angeles and the Americans in Nanzanar, but that difference can be broken down into one simple word, "principle". It was wrong, some evacuees feel, for the army to move us out of our homes; it was woing to detain us. Principles are involved.

Hovever, harping on principles and lamenting the past bring no better future. We need not especially lightly toss aside our past, nor need we make a display of Americanism, nevertheless, it might be well for us to reanalyze in our minds the course by which we may make the most of our being Anericans.
