WRA TO CONDUCT CENSUS

Picnics in Offing

Long walks, picnics and outings will be possible for local residents as soon as markers defining the boundaries of the camp are staked by Hervey Brown, Chief Engineer. Six thousand acres will be open to the Japanese which means an area of approximately 10 square miles.

OVER HALF OF EMPLOYABLE PERSONS ON PROJECTS

Breakdown on local population figures were released by the Personnel division.

Statistics show that among the number of employable persons from the ages of 18-65, citizens number 3,269, while non-citizens total 3,029. Sum of both citizens and aliens now employed is 3,371 on 70 different projects.

MAXIMUM NEAR

Present center population is 9,720 of 10,000 set as maximum capacity. This quota will be reached by: Orphans of Children's Home being constructed now; released internees from federal detention camps; babies to be born--60 expected in July and August; and the calling of immediate relatives from other centers for family reunions.

School-age girls and boys of U.S. citizenship comprise one-third of the population.

LEGAL RECORD OF RESIDENTS TO BE COMPILED THROUGH INTERVIEWS

A complete legal record of every man, woman and child now residing at Manzanar will be compiled by the War Relocation Authority starting Saturday, June 20 (tomorrow).

The record will be made by a personal interview with each and every person. Interviewing will be conducted in 13-14 by a staff of some 40 persons recently recruited by representatives of the War Relocation Authority from San Francisco, and put through an intensive training course the past few days.

RESIDENTS TO BE INTERVIEWED BY BLOCKS

The entire camp has been charted and people will be interviewed by blocks. Every family will be given a definite appointment. Notices will be sent to each family, telling them when to come in for an interview.

Every person 14 years of age or over will be interviewed separately. Parents will be asked to supply information for children under 14 years of age. Employed persons will be excused from one-half to one hour when they are called for an interview.

WHY THE RECORDS ARE IMPORTANT

Here are some of the reasons why the reports are of the greatest importance.

1. They will establish the legal fact of residence, and will be the means by which people will be able to keep in touch by mail with relatives, friends and business associates.
2. They will show all family relationships and can be used as a legal document for settling questions of inheritances, estates and legacies.
3. In future years the records can be used by residents as a means of proving facts about themselves.

EDUCATIONAL NEEDS TO BE REVEALED

4. Records will show complete information about the educational needs of every person. They will be used by the administration to help in planning education for the children.
5. The record will show the kinds of work each individual can do, will show his talents, his skills and work experience. This information will be used to plan employment programs and to place every worker in the job he can do best.

Your assistance and cooperation in making these records complete and accurate will be a great service to the community of Manzanar.

Roy Nash,
 Project Director

マンザナ 自由新聞

區長終選日一六月廿二日

昨晚予選は北九十九、廿五、廿六、廿七、及び世区の区長候補者の終選は、六月廿二日、土曜日に決まりました。
